It is also necessary to provide that operators organise the work of drivers in such a way that these periods away from home are not excessively long. <i>When a driver chooses to spend this rest period at home, the transport undertaking should provide the driver with the means to return.</i>	It is also necessary to provide that operators organise the work of drivers in such a way that these periods away from home are not excessively long and that drivers can benefit from long rest periods taken in compensation for reduced weekly rest periods. Organising the return should allow reaching an operational centre of the undertaking in its Member State of establishment or the driver's place of residence. The operator should be able to prove the organisation of the regular return through tachograph records, duty rosters of the drivers or similar evidence.

43.		Amendment 364 Recital 8a (new)		
44.		<i>(8a) Many road transport operations within the Union involve transport by ferry or by rail for part of the journey. Clear, appropriate provisions regarding rest periods and breaks should therefore be laid down for such operations.</i>		
45.	(9) To reduce and prevent diverging enforcement practices and to further enhance the effectiveness and efficiency of cross-border enforcement it is crucial to establish clear rules for regular administrative cooperation between Member States. 55.		Amendment 369 Recital 11a (new)		
56.		<i>(11a) The rapid development of new technologies and digitalisation throughout the Union economy and the need for a level playing field among companies in international road transport make it necessary to shorten the transitional period for the installation of the smart tachograph in registered vehicles. The smart tachograph will contribute to simplified controls and thus facilitate the work of national authorities.</i>	For the same purpose, the installation of smart tachographs should be advanced in the existing fleets which operate in international transport using analogue or digital tachographs.	
57.			(11a) In particular, in vehicles which are not equipped with a smart tachograph, the crossing of Member State borders should be recorded in the tachograph at the nearest stopping place at or after the border.

64.			(11d) It is important that road transport operators established in third countries, while performing road transport operations in the territory of the EU, are subject to rules which are equivalent to this legislation. The Commission should assess the fulfilment of this principle at EU level and propose adequate solutions to be negotiated by the EU in the context of AETR.
