COMMISSION COMMUNICATION TO THE COUNCIL

Extension of the Cooperation Agreement between the European Atomic Energy Community and the Kingdom of Spain in the field of controlled thermonuclear fusion.

On 14 July 1980 the Commission concluded the above-mentioned Agreement, in accordance with the second paragraph of Article 101 of the Euratom Treaty.

Under the Agreement Spain participates in the contracts to promote staff mobility concluded by the Commission and its associates in the field of controlled thermonuclear fusion.

The Agreement was concluded for a period of three years, corresponding to the fifth Euratom research and training programme in the field of controlled thermonuclear fusion (1979-83), and will expire on 13 July.

When the mixed Euratom/Spain Fusion Committee set up under the Agreement to monitor implementation met on 27 May 1983, the Spanish representatives proposed that the Agreement be extended. The Commission representatives agreed to the proposal, and promised to seek the Council's approval.

At a meeting on 19 April 1983 the Advisory Committee on Fusion returned a favourable opinion on extension of the Agreement.

Accordingly, the Commission herewith sends the Council (a) a draft decision on directives to the Commission for negotiating the extension of the Agreement and (b) a draft decision approving the extension of the Agreement by the Commission.
