COMMISSION OF THE EUROPEAN COMMUNITIES

COM(82) 727 final

Brussels 13 November 1982

Proposal for a
COUNCIL REGULATION (EEC)
instituting a special energy development programme

(submitted to the Council by the Commission)

COM(82) 727 final

Explanatory Memorandum

1. Despite an improvement in the diversification of the provision of energy in the Community and an easing of the situation with regard to oil prices, the Community's authorities are continually concerned not to relax efforts to reduce the Community's dependence on oil imports.
 2. The Commission considers that it will be in the Community's interest to contribute towards improving the structure of energy consumption by taking action in the fields of research and the diversification of energy resources, as well as with regard to the more rational use of energy in the Member States where energy consumption is high, especially in the Federal Republic of Germany.
 3. The proposed regulation envisages the establishing of a special energy development programme within which the Community could participate in the financing of particular measures and projects to improve the situation.

Proposal for a
COUNCIL REGULATION (EEC)
instituting a special energy development programme

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,
and in particular Article 235 thereof,

Having regard to the proposal from the Commission ¹⁾,

Having regard to the opinion of the European Parliament ²⁾,

Having regard to the opinion of the Court of Auditors ³⁾,

Whereas the energy situation in the Community is still precarious and energy consumption is at a high level in certain Member States, in particular in the Federal Republic of Germany;

Whereas it is necessary that the Community make a financial contribution to a special programme designed to improve the structure of energy consumption;

Whereas such improvement may be obtained by action in the field of research, energy diversification and energy efficiency in the Member States with high levels of energy consumption, in particular the Federal Republic of Germany; whereas the Treaty does not provide the necessary powers to this end,

HAS ADOPTED THIS REGULATION:

Article 1

A special energy development programme is hereby established, to which the Community shall make a contribution in the Federal Republic of Germany.

2. The projects and measures shall be submitted to the Commission together with all the information necessary in order to assess whether they serve the objectives of the Community policy with which they are associated and comply with the eligibility criteria laid down in Article 3.
3. The Commission may request any additional information necessary for examination of the said projects and measures.

Article 3

The projects or measures shall be eligible for a financial contribution by the Community provided that they are financed by public authorities and fulfil the following criteria:

- b) they must not be incompatible with other Community policies;
- c) they must not give rise to distortions of competition.

Article 4

2. As soon as the decision referred to in Article 4(2) has been taken, the Commission shall make a payment of 90% of the amount of the Community contribution decided on in the light of the appropriations available.

3. The payment of the 10% balance shall be effected immediately after the exhaustion of the payment referred to in paragraph 2, as certified by the Government of the Federal Republic of Germany, and at the latest before the end of 1983, provided that implementation of the project or measure proceeds as planned.

Article 6

To this end, the Federal Republic of Germany shall make available to the Commission all information requested and shall take all steps with regard to Community-assisted projects and measures to facilitate such supervision as the Commission may consider appropriate, including on-the-spot checks made at its request with the approval of the Federal Republic of Germany by the competent authorities in the Federal Republic of Germany, in which Commission officials may participate. The Federal Republic of Germany shall make available to the Commission, for a period of three years after transfer of the balance referred to in Article 5(3), all supporting documents or certified copies thereof relating to expenditure.

2. Where a project or measure is not implemented in conformity with this Regulation or departs substantially from decisions taken in implementation thereof, the Commission may suspend payments still due. In this case, the Commission may decide that sums already paid or still due are to be allocated, in accordance with the procedure laid down in Article 8, to other projects or measures submitted under this Regulation. If, in the opinion of the Commission, no other project or measure is available, it shall recover the payments made to the Federal Republic of Germany.
