Proposal for a

COUNCIL REGULATION

Amending Regulation (EC) No 866/2004 on a regime under Article 2 of Protocol 10 to the Act of Accession concerning rules on goods, services and persons crossing the Green Line in Cyprus

(presented by the Commission)

EXPLANATORY MEMORANDUM

By Regulation No 866/2004, the Council established a regime under Article 2 of Protocol 10 to the Act of Accession 2003 which provides for special rules concerning goods, services and persons crossing the line between those areas of the Republic of Cyprus in which the Government of the Republic of Cyprus does not exercise effective control and those areas in which the Government of the Republic of Cyprus exercises effective control.

Trade and economic interaction on the island need to be enhanced in the light of experience gained since the Regulation including the previous substantial amendment (Council Regulation No 293/2005) entered into force. To this end, the duties on agricultural products originating in the areas in which the Government of the Republic of Cyprus does not exercise effective control should be generally lifted. So far, only duties on citrus fruit have been lifted by Commission Regulation No 1624/2005. In future, such cumbersome procedure can be avoided. To allow for this, it is proposed to strengthen the safeguard clause of the Regulation.

There is also the need to regulate in a transparent way the temporary introduction of goods (for up to six months) from the areas in which the Government of the Republic of Cyprus does not exercise effective control into the areas in which the Government of the Republic of Cyprus exercises effective control. Firstly, this aims at encouraging the provision of services by companies established in the areas in which the Government of the Republic of Cyprus does not exercise effective control across the line by allowing them to bring their equipment along. Secondly, it should facilitate the participation of those companies in trade fairs or similar events in areas in which the Government of the Republic of Cyprus exercises effective control. Thirdly, goods destined to undergo a repair in the areas in which the Government of the Republic of Cyprus exercises effective control should be allowed to cross. Reasonable evidence should be provided that the introduction of such goods takes place on a temporary basis. The proposed amendments anticipate that details of the temporary introduction can be regulated via implementing rules. In practice, this would be done by a revision of Commission Regulation No 1480/2004 shortly after the adoption of this proposed amending Regulation.

Finally, the total value of goods contained in the personal luggage of persons crossing the line needs to be substantially increased from 135 € to 260 € so as to encourage the economic development in the areas in which the Government of the Republic of Cyprus does not exercise effective control.
