COM(2000) 503 final

Proposal for

COUNCIL REGULATION

**opening and providing for the administration of autonomous Community tariff
quotas for certain fishery products**

(presented by the Commission)

EXPLANATORY MEMORANDUM

1. As part of the reform of the common organisation of the market in the fishery and aquaculture products sector, the Council and the Commission made a commitment to open the autonomous tariff quotas for a number of fishery products for the period 2001 to 2003, so as to ensure adequate supplies for user industries. This proposal for a regulation constitutes the implementation of that commitment.
2. The tariff quotas to be opened for the products in question are restricted to products for processing which satisfy the conditions laid down concerning the reference prices fixed or to be fixed.
3. In addition, this proposal provides for the opening of these tariff quotas as of 1 January 2001 for periods up to and including 31 December 2003, so as to ensure that user industries can plan the supplies they need without disrupting the revenues of Community producers.

These are the aims of the attached proposal for a Regulation.

Proposal for

COUNCIL REGULATION

opening and providing for the administration of autonomous Community tariff quotas for certain fishery products

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 26 thereof,

Having regard to the proposal from the Commission,

Whereas:

- (1) Community supplies of certain fishery products currently depend on imports from third countries. It is in the Community's interest to suspend in part or in whole the customs duties for the products in question, within Community tariff quotas of an appropriate volume. In order not to jeopardise the development prospects of this product in the Community and to ensure an adequate supply to satisfy user industries, such quotas should be opened, applying variable customs duties in accordance with the sensitivity of the product in question on the Community market.
- (2) Equal and uninterrupted access to the said quotas should be ensured for all Community importers and the rates laid down for the quotas should be applied without interruption to all imports of the products concerned into all Member States until the quotas have been used up.
- (3) The decision on the opening of autonomous tariff quotas has to be taken by the Community. However, to ensure the efficiency of a common administration of these quotas, there is no reasonable obstacle to authorising the Member States to draw from the quota amount the necessary quantities corresponding to actual imports. However, this method of administration requires close cooperation between the Member States and the Commission and the latter must in particular be able to monitor the rate at which the quotas are used up and inform the Member States accordingly.

- (4) Commission Regulation (EEC) No 2454/93 of 2 July 1993 laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code,¹ has codified the management rules for tariff quotas to be used by following the chronological order of the dates of acceptance of the declarations of release for free circulation,

HAS ADOPTED THIS REGULATION:

Article 1

1. The import duties on the goods listed in the Annex shall be suspended at the indicated rates for the periods and up to the amounts indicated therein.
2. Imports of the products in question shall not be covered by the quotas referred to in paragraph 1 unless the declared customs value is at least equal to the reference price fixed, or to be fixed, in accordance with Article 29 of Council Regulation (EEC) No 104/2000 of 17 December 1999 on the common organisation of the market in fishery and aquaculture products.²

Article 2

The tariff quotas referred to in Article 1 shall be administered by the Commission in accordance with Articles 308a to 308c of Regulation (EEC) No 2454/93.

Article 3

The Member States and the Commission shall cooperate closely to ensure that this Regulation is complied with.

Article 4

This Regulation shall enter into force on the seventh day following its publication in the *Official Journal of the European Communities*.

It shall apply from 1 January 2001.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

For the Council
The President
