

**Proposal for a Regulation of the European Parliament and of the Council on the establishment of a common classification of Territorial Units for Statistics (NUTS)**

(2001/C 180 E/08)

COM(2001) 83 final — 2001/0046(COD)

*(Submitted by the Commission on 14 February 2001)*

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 285 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the Economic and Social Committee,

Having regard to the opinion of the Committee of the Regions,

Acting in accordance with the procedure laid down in Article 251 of the Treaty,

Whereas:

- (1) Users of statistics express an increasing need for harmonisation in order to have comparable data across the European Union. In order to function, the internal market requires statistical standards applicable to the collection, transmission and publication of national and Community statistics so that all operators in the single market can be provided with comparable statistical data. In this context, classifications are an important tool for the collection, compilation and dissemination of comparable statistics.
- (2) Regional statistics are a cornerstone of the European Statistical System. They are used for a wide range of purposes. For many years European regional statistics have been based on a common regional classification, called 'Nomenclature of Territorial Units for Statistics' (hereinafter referred to as NUTS). It is now appropriate to fix this regional classification in a legal framework and to institute clear rules for future amendments of this classification.
- (3) Accordingly, all Member States' statistics transmitted to the Commission, which are broken down by territorial units, should use the NUTS classification, where applicable.
- (4) In its analysis and dissemination, the Commission should use the NUTS classification for all statistics classified by territorial units, where applicable.
- (5) Different levels are needed for regional statistics depending on the purpose of these statistics. It is appropriate to have three levels of detail in the European regional classification NUTS.
- (6) Information on the territorial composition of NUTS level 3 regions is necessary for the proper administration of the NUTS classification and should therefore be transmitted regularly to the Commission.

- (7) Objective criteria for the definition of regions are necessary in order to ensure impartiality when regional statistics are compiled and used for various policy purposes.
- (8) Users of regional statistics need stability of the data over time. The NUTS classification should hence not be amended more frequently than at most every three years. Already the existence of a Regulation will ensure a higher stability of rules over time.
- (9) Comparability of regional statistics requires that the regions be of a comparable size in terms of population. In order to achieve this goal, amendments of the NUTS classification should render the regional structure more homogeneous in terms of population size.
- (10) Amendments to the NUTS classification should require close consultations with the Member States.
- (11) In accordance with the principles of subsidiarity and of proportionality laid down in Article 5 of the Treaty, the objectives of this legal act cannot be carried out adequately by the Member States. The harmonisation of regional statistics can better be carried out at the Community level; this legal act does not exceed what is necessary to achieve these objectives.
- (12) The NUTS classification laid down in this Regulation should replace the 'Nomenclature of Territorial Units for Statistics (NUTS)' established to date by the Statistical Office of the European Communities in co-operation with the national institutes for statistics. As a consequence, all references in Community acts to the 'Nomenclature of Territorial Units for Statistics (NUTS)' should now be understood as referring to the NUTS classification laid down in this Regulation.
- (13) Since the measures necessary for the implementation of this Regulation are measures of general scope within the meaning of Article 2 of Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission<sup>(1)</sup>, they should be adopted by use of the regulatory procedure provided for in Article 5 of that Decision.
- (14) The Statistical Programme Committee established by Council Decision 89/382/EEC, Euratom<sup>(2)</sup> has been consulted in accordance with Article 3 of the aforesaid Decision,

<sup>(1)</sup> OJ L 184, 17.7.1999, p. 23.

<sup>(2)</sup> OJ L 181, 28.6.1989, p. 47.

HAVE ADOPTED THIS REGULATION:

### **Article 1**

#### **Subject matter**

1. The purpose of this Regulation is to establish a common statistical classification of territorial units, hereinafter referred to as 'NUTS', in order to ensure the production and dissemination of comparable regional statistics in the Community.

2. The NUTS classification laid down in Annex I shall replace the 'Nomenclature of Territorial Units for Statistics (NUTS)' established by the Statistical Office of the European Communities in co-operation with the national institutes for statistics of the Member States.

### **Article 2**

#### **Structure**

1. The NUTS classification comprises for each region a specified code and name. It subdivides the economic territory of the Community, as defined in the Commission Decision 91/450/EEC of 26 July 1991 (<sup>(1)</sup>), into territorial units, hereinafter referred to as 'regions'.

2. The NUTS classification is hierarchical. It subdivides each Member State into NUTS level 1 regions, each of which is subdivided into NUTS level 2 regions, these in turn each being subdivided into NUTS level 3 regions.

3. However, a particular region may represent several levels of NUTS.

4. Two different regions in the same Member State may not be identified by the same name. If two regions in different Member States have the same name, the country identifier is added to the region name.

### **Article 3**

#### **Classification criteria**

1. Existing administrative units within the Member States constitute the first criterion used for the definition of regions.

To this end, 'administrative unit' shall mean a geographical area with an administrative authority that has the power to take administrative or policy decisions for that area within the legal and institutional framework of the Member State.

2. In order to establish the relevant level of NUTS in which a given class of administrative units in a Member State is to be classified, the average size of this class of administrative units in the Member State shall lie within the following population thresholds:

| Level  | Minimum   | Maximum   |
|--------|-----------|-----------|
| NUTS 1 | 3 million | 7 million |
| NUTS 2 | 800 000   | 3 million |
| NUTS 3 | 150 000   | 800 000   |

3. The existing administrative units that are used for the NUTS classification are laid down in Annex II. Amendments to Annex II may be adopted by the Commission in accordance with the procedure referred to in Article 7, paragraph 2.

4. If for a given level of NUTS no administrative units of a suitable scale exist in a Member State, in accordance with the size criteria referred to in paragraph 2, this NUTS level shall be constituted by aggregating an appropriate number of existing smaller administrative units. This aggregation shall take geographical, socio-economic, historical, cultural and/or other relevant criteria into consideration.

The resulting aggregated units shall hereinafter be referred to as 'non-administrative units'. The size of the non-administrative units in a Member State for a given NUTS level shall lie within the population thresholds referred to in paragraph 2.

However, because of particular administrative and geographical circumstances, to be appreciated by the Commission, individual non-administrative units may deviate from these thresholds.

5. If the population of a whole Member State is below the maximum threshold for a given NUTS level, the whole Member State will be one NUTS region for this level.

### **Article 4**

#### **Components of NUTS**

1. Within six months after the entry into force of this Regulation, the Commission shall, after consulting the Member States, publish the components of each NUTS level 3 region in terms of local administrative units.

The existing local administrative units are laid down in Annex III. Amendments to Annex III may be adopted by the Commission in accordance with the procedure referred to in Article 7, paragraph 2.

2. Within the first six months of each year, Member States shall transmit all changes of the components for the previous year, respecting the electronic data format requested by the Commission.

3. If any of the changes of local administrative units leads to a need to change the NUTS 3 boundaries, the provisions of Article 5 apply.

<sup>(1)</sup> OJ L 240, 29.8.1991.

**Article 5****Amendments to NUTS**

1. The Member States shall inform the Commission of all modifications to existing administrative units, as well as of all other changes at national level that may affect the classification criteria laid down in Article 3.
2. Amendments to the NUTS classification laid down in Annex I may be adopted by the Commission, at intervals of not less than every three years, on the basis of the criteria laid down in Article 3, in accordance with the procedure referred to in Article 7, paragraph 2.
3. The Commission shall amend the non-administrative units in a Member State, as referred to in Article 3, paragraph 4, only if, at the NUTS level in question, the amendment reduces the standard deviation of the size (in terms of population) of all EU regions.
4. Amendments to the NUTS classification shall enter into force on the first day of a quarter two years after their adoption in accordance with the procedure referred to in Article 7, paragraph 2.
5. After an amendment to NUTS is adopted, the Member State concerned must ensure within two years the provision of historical time series for the new regional breakdown for the last five years.

**Article 6****Management**

The Commission shall take the necessary measures to ensure the consistent management of the NUTS classification. In particular, such measures may include:

(a) drafting and updating of explanatory notes on NUTS,

(b) examination of problems arising from the implementation of NUTS in the Member States' classifications of regions.

**Article 7****Procedure**

1. The Commission shall be assisted by the Statistical Programme Committee, instituted by Article 1 of Council Decision 89/382/EEC, Euratom (<sup>1</sup>).
2. Where reference is made to this paragraph, the regulatory procedure laid down in Article 5 of Council Decision 1999/468/EC shall apply, in compliance with Article 7 and Article 8 thereof.
3. The period provided for in Article 5(6) of Council Decision 1999/468/EC shall be three months.

**Article 8****Entry into force**

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

---

(<sup>1</sup>) OJ L 181, 28.6.1989, p. 47.

## ANNEX I

**The NUTS classification (code-name)**

## BELGIQUE/BELGIË
