Proposal for a

EUROPEAN PARLIAMENT AND COUNCIL DECISION

**establishing a Community action programme to promote bodies active at European level
in the field of youth**

(presented by the Commission)

EXPLANATORY MEMORANDUM

Introduction

In addition to the Treaty, which establishes European citizenship, various recent statements stress the need to promote active citizenship, especially that of young people:

the Commission's White Paper on Governance stresses the principle of citizen participation in devising and carrying out policy, of involvement of civil society and its component organisations;

the Laeken Declaration, annexed to the conclusions of the European Council of 14 and 15 December 2001, asserts that one of the basic challenges to be resolved by the European Union is "how to bring citizens, and primarily the young, closer to the European design and the European institutions";

the Commission's White Paper "A new impetus for European youth" argues that participation by young people should be encouraged and advocates strengthening the organisations within which young people can make their voice heard;

the European Parliament resolution of 14 May 2002 adopting a report on this White Paper states that the policies proposed in the White Paper must be translated into concrete measures and that appropriate budget funds additional to the YOUTH programme must be provided.

Background

For several years, support has been provided for bodies active at European level in the field of youth, under headings in Part A of the budget:

heading A-3023 co-finances the operating costs of the European Union Youth Forum;

heading A-3029 provides support for international non-governmental youth organisations.

The main activities of the European Youth Forum are as follows:

representing young people *vis-à-vis* the European Union;

coordinating the positions of its members *vis-à-vis* the European Union;

relaying information on youth to the European institutions;

relaying information from the European Union to national youth councils and non-governmental organisations;

contributing to the new cooperation framework in the youth field which it has been decided to establish at the level of the European Union;

engaging in discussion and reflection on youth in Europe and on the European Union's action for the benefit of young people.

The main activities of these youth organisations that are likely to contribute to the strengthening and effectiveness of Community action are as follows:

representation of stakeholders at Community level;

youth exchanges and voluntary services;

informal education and training programmes;

debate on youth policies;

dissemination of information on Community action;

actions promoting young people's participation and initiative.

This support has been provided without any legal basis, under budgetary headings entered in the Commission's administrative expenditure.

Objectives

The adoption of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities¹ and the decision to base the structure of the Commission budget on the ABB (Activity Based Budgeting) approach require basic acts to be adopted for a number of grants hitherto financed under appropriations entered in Part A (administrative appropriations) of the Commission section of the budget (section III).

The purpose of this Decision is therefore to adopt an act providing a basis for operating grants to bodies active at European level in the field of youth, for a period of three years (2004-2006).

In a statement in connection with the adoption of the new Financial Regulation, the Commission publicly announced its intention of providing basic acts for grants hitherto financed under Part A. In this statement, "the European Parliament and the Council note the Commission's intention of submitting a proposal for a Framework Regulation in which the overall criteria regarding selection and the awarding of grants for the functioning of the bodies provided for in Article 108(1)(b) may be specified".

Legal basis

The proposal is based on Article 149 TEC, which provides that Community action shall be aimed, *inter alia*, at encouraging the development of youth exchanges and of exchanges of socio-educative instructors. The procedure to be followed is that of Article 251 TEC: the decision is to be adopted in co-decision by the European Parliament and the Council on the basis of a Commission proposal.

¹ OJ L 248, 16.9.2002, p. 1.

Budgetary impact

Since the proposal essentially addresses the technical need to provide a legal basis for operations for which no such basis currently exists, the amounts provided for are largely based on those allocated in the budget of the European Union for the 2003 financial year.

The total amount proposed is EUR 11.52 million.

Description of Articles

Article 1 states the objective of the programme, viz. to provide support for non-governmental organisations active at European level in the field of youth.

Article 2 states the conditions of access to the programme and refers to the Annex, which describes the two parts of the programme:

grant for the operation of the European Youth Forum;

grants for the operation of non-governmental youth organisations.

Article 3 provides for participation in the programme to be open to the Member States, and in some cases possibly to the EFTA/EEA countries, the candidate countries, the Balkan countries forming part of the Stabilisation and Association process for countries of South Eastern Europe, and some countries of the Commonwealth of Independent States.

Article 4 refers to the Annex for the arrangements for selecting the programme's beneficiaries. Grants for the operation of international non-governmental youth organisations are to be awarded on the basis of annual calls for proposals.

Article 5 refers to the Annex for the conditions governing award of grants.

Article 6 sets the programme allocation at EUR 11.52 million for the period 2004–2006.

Article 7 lays down the arrangements for final evaluation of the programme. There is no intention to extend the programme beyond 2006; from 2007 onwards, the actions for which it provides will be incorporated into the new programme for youth which will follow on from the present YOUTH Programme.

ANNEX

1. ACTIVITIES SUPPORTED

The general objective laid down in Article 1 is to strengthen Community action in the field of youth and increase its effectiveness by promoting the bodies working in this field.

1.1. The main activities of these youth organisations that are likely to contribute to the strengthening and effectiveness of Community action are as follows:

- representation of stakeholders at Community level;
- youth exchanges and voluntary services;
- informal education and training programmes;
- debate on youth policies;
- dissemination of information on Community action;
- actions promoting citizens' participation and initiative.

1.2. The main activities of the European Youth Forum are as follows:

- representing young people *vis-à-vis* the European Union;
- coordinating the positions of its members *vis-à-vis* the European Union;
- relaying information on youth to the European institutions;
- relaying information from the European Union to national youth councils and non-governmental organisations;
- contributing to the new cooperation framework in the youth field which it has been decided to establish at the level of the European Union;
- engaging in discussion and reflection on youth in Europe and on the European Union's action to assist young people.

2. IMPLEMENTATION OF THE ACTIVITIES SUPPORTED

The activities carried out by the bodies eligible for Community funding under the programme fall within one of the following areas:

2.1 Part 1: permanent activities of the European Youth Forum, a body pursuing an aim of general European interest whose members are the national youth councils and the international non-governmental youth organisations, in conformity with the following principles:

- independence of the European Youth Forum in the selection of its members;

- autonomy of the European Youth Forum in the detailed specification of its activities, in conformity with section 1.2;
- broadest possible involvement in the European Youth Forum's activities of non-member youth organisations and young people who do not belong to organisations;
- active contribution by the European Youth Forum to the political processes relevant to youth at European level, in particular by responding to the European institutions when they consult civil society and explaining the positions adopted by these institutions to its members;
- geographic membership coverage extending to the countries mentioned in Article 3 of the Decision.

2.2. Part 2: permanent activities of a body pursuing an aim of general European interest in the field of youth or an objective forming part of the European Union's policy in this area.

This may relate to:

- a) a non-profit-making body whose activities are solely for the benefit of young people or a body with wider aims, part of whose activities are solely for the benefit of young people; in either case, the body must involve young people in managing the activities conducted for their benefit;
- b) a European network representing non-profit-making bodies working for the benefit of young people and involving young people in their activities.

An annual operating grant may be awarded to support the conduct of the permanent work programme of such a body.

2.3 In view of the need to ensure continuity of the European Youth Forum, the programme resources shall be allocated in accordance with the following guideline: the resources allocated under part 1 shall be not less than EUR 2 million.

3. SELECTION OF BENEFICIARIES

3.1 The grant under part 1 of the programme shall be awarded directly to the European Youth Forum.

3.2 The bodies receiving operating grants under part 2 of the programme shall be selected on the basis of calls for proposals.

Framework partnership agreements may be concluded for the duration of the programme with the bodies so selected. The specific grants based on the framework agreements shall be awarded in accordance with the procedures laid down in these agreements.

Calls for proposals shall be issued to select additional beneficiaries.

4. CRITERIA FOR THE ASSESSMENT OF FUNDING APPLICATIONS

Funding applications shall be assessed in the light of:

- their consistency with the programme objectives;
- the quality of the planned activities;
- the likely multiplier effect on young people of these activities;
- the geographic impact of the activities carried out;
- the involvement of young people in the organisation of the bodies concerned.

5. FUNDING AND ELIGIBLE EXPENDITURE

- 5.1 Under part 1, the eligible expenditure of the European Youth Forum comprises operating costs and expenses for carrying out its actions.
- 5.1 Under part 1, the eligible expenditure of the European Youth Forum comprises operating costs and expenses for carrying out its actions.
- 5.2 The grant to the European Youth Forum shall not fund all its eligible expenditure in the calendar year for which it is awarded: at least 20 per cent of the Forum's budget must be co-financed from non-Community sources. Such co-financing may be partly contributed in kind, provided the contribution is valued at no more than the cost actually incurred and evidenced by accounting documents or the cost generally obtaining on the market in question.
- 5.3 Pursuant to Article 113(2) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002, the principle of gradual reduction shall not apply to operating grants to the European Youth Forum, since it is a body pursuing an objective of general European interest.
- 5.4 Under part 2, the only costs to be taken into account in determining the operating grant shall be those necessary for the proper conduct of the normal activities of the body selected, in particular personnel costs, overheads (rental and property charges, equipment, office supplies, telecommunications, postal charges, etc.), costs of internal meetings, and publication, information and dissemination costs.
- 5.5 An operating grant under part 2 of the Annex shall not fund all the body's eligible expenditure in the calendar year for which it is awarded. At least 20 per cent of the budgets of the bodies covered by this part must be co-financed from non-Community sources. The co-financing rate shall be determined each year in the call for proposals. Such co-financing may be partly contributed in kind, provided the contribution is valued at no more than the cost actually incurred and evidenced by accounting documents or the cost generally obtaining on the market in question.

- 5.6 Pursuant to Article 113(2) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002, operating grants so awarded, if renewed, shall be gradually decreased. This reduction shall apply from the third year onwards, at a rate of 2.5% per year. In order to observe this rule, which applies without prejudice to the co-financing rule mentioned above, the percentage of Community co-financing corresponding to the grant awarded for a given financial year shall be at least 2.5 points below the percentage of Community co-financing corresponding to the grant awarded for the previous financial year.

6. MANAGEMENT OF THE PROGRAMME

In the light of a cost/benefit analysis, the Commission may decide to entrust all or part of the tasks of managing the programme to an executive agency, in conformity with Article 55 of the Financial Regulation applicable to the general budget of the European Communities; it may also have recourse to experts and incur any other expenditure on technical and administrative assistance, not involving the exercise of public authority, outsourced under *ad hoc* service contracts. It may also finance studies and organise meetings of experts likely to facilitate the implementation of the programme, and undertake information, publication and dissemination actions directly linked to the achievement of the programme's objective.

7. CHECKS AND AUDITS

- 7.1 The beneficiary of an operating grant shall keep available for the Commission all the supporting documents, including the audited financial statement, regarding expenditure incurred during the grant year, for a period of five years following the last payment. The beneficiary of a grant shall ensure that, where applicable, supporting documents in the possession of partners or members be made available to the Commission.
- 7.2 The Commission may have an audit of the use made of the grant carried out either directly by its own staff or by any other qualified outside body of its choice. Such audits may be carried out throughout the lifetime of the agreement and for a period of five years from the date of payment of the balance. Where appropriate, the audit findings may lead to recovery decisions by the Commission.
- 7.3 Commission staff and outside personnel authorised by the Commission shall have appropriate right of access, in particular to the beneficiary's offices and to all the information, including information in electronic format, needed in order to conduct such audits.
- 7.4 The Court of Auditors and the European Anti-Fraud Office (OLAF) shall enjoy the same rights, especially of access, as the Commission.

- 7.5 In order to protect the European Communities' financial interests against fraud and other irregularities, the Commission may carry out on-the-spot checks and inspections under this programme in accordance with Council Regulation (Euratom, EC) No 2185/96¹². Where necessary, investigations shall be conducted by the European Anti-Fraud Office (OLAF) and these shall be governed by Regulation (EC) No 1073/1999 of the European Parliament and of the Council¹³.

5. DESCRIPTION AND GROUNDS

5.1 Need for Community intervention

5.1.1 Objectives pursued

In addition to the Treaty, which establishes European citizenship, various recent statements stress the need to promote active citizenship, especially of young people: the Commission's White Paper on Governance stresses the principle of citizen participation in devising and carrying out policy, of involvement of civil society and its component organisations; the Laeken Declaration annexed to the conclusions of the European Council of 14 and 15 December 2001 asserts that one of the basic challenges to be resolved by the European Union is "how to bring citizens, and primarily the young, closer to the European design and the European institutions"; the Commission's White Paper "A new impetus for European youth" argues that participation by young people should be encouraged and advocates strengthening the arrangements within which young people can make their voice heard; the European Parliament resolution of 14 May 2002 adopting a report on this White Paper states that the policies proposed in the White Paper must be translated into concrete measures and that appropriate budget funds additional to the YOUTH programme must be provided.

For several years, support has in fact been provided for bodies active at European level in the field of youth under two headings in Part A of the budget: heading A-3023 co-finances the operating costs of the European Union Youth Forum; heading A-3029 provides support for international non-governmental youth organisations. This support has been provided without any legal basis, under budgetary headings entered in the Commission's administrative expenditure. The introduction, as from 2004, of a budgetary nomenclature in accordance with ABB principles makes it necessary to provide a proper legal basis for these operations, as agreed by the European Parliament, the Council and the Commission when the new Financial Regulation was adopted.

This proposal, which is primarily informed by technical considerations, thus seeks to place on a solid legal footing operating grants awarded:

- to the Youth Forum, which represents young people *vis-à-vis* the European Union and whose action is essential in order to coordinate and relay to the European institutions the views of the non-governmental youth organisations and to relay to these organisations information on matters of youth policy;
- to bodies which seek to involve young people in terms of active citizenship and inform them on matters of youth policy and which contribute to promoting the European ideal among young people both within and outside the European Union.

This support is intended to be incorporated at a future date into the programme to be proposed by the Commission as a follow-up to the current YOUTH programme, which expires on 31 December 2006. This proposal thus covers the transitional period 2004 to 2006.

5.1.2 Measures taken in connection with ex ante evaluation

This proposal essentially addresses the technical need to provide a solid legal basis for operating grants which have traditionally been paid in this area under Part A of the budget, so following up the joint statement made by the three institutions when the new Financial Regulation was adopted.

The external evaluation of Community support for non-governmental youth organisations carried out in 2002 under heading A-3029 underlines the multiplier effect of these organisations and the positive impact of their action.

5.2 Actions envisaged and budget intervention arrangements

The proposal is aimed at supporting organisations active in the field of youth: the Youth Forum and the youth NGOs. It thus supplements the other types of intervention employed in the education and culture policy activity “Youth”, which consist mainly in action grants under the YOUTH programme.

The aim of supporting the Youth Forum is to enable it to play its role as a go-between linking the Community institutions and young people’s organisations.

The aim of supporting the youth NGOs is to enable them to develop a European dimension to their activities. In this context, minimum representativity requirements are laid down for bodies eligible to receive funding under this action. The aim is to support about 80 bodies per year.

In both cases, Community intervention takes the form of operating grants. In view of its statutes, the European Youth Forum is to be regarded as a body pursuing an objective of general European interest; the annual grant it is awarded is not subject to the principle of gradual reduction of operating grants. Operating grants to youth NGOs are awarded following calls for proposals and are subject to the principle of gradual reduction.

5.3 Implementation arrangements

A feasibility study is in hand on the establishment of an executive agency to assist the Commission in the field of education and culture. If, in the light of a cost/benefit analysis, the Commission decides to set up such an agency, it may be involved in some of the tasks of managing the programme, in conformity with Article 55 of the Financial Regulation applicable to the general budget of the European Communities.

This possibility is being considered at the general policy level; this is the level at which an appraisal will be made of the implications of such an approach for the resources required to manage the programme within the Commission. At this stage, the working hypothesis is that this programme will contribute to the operating costs of the executive agency envisaged (by means of the administrative expenditure line associated with the budgetary heading for the programme).

8. MONITORING AND EVALUATION

8.1 Monitoring arrangements

Article 7 of the Decision lays down the arrangements for evaluation of the programme (final evaluation).

8.2 Arrangements and schedule for the planned evaluation

No later than 31 December 2007, the Commission will present to the European Parliament and the Council a report on the achievement of the programme's objectives. This report will be based on an external evolution report which must be available by the end of 2006 and which will appraise at least the overall relevance and coherence of the programme, its practical effectiveness (in terms of preparation, selection and implementation of actions), and the overall and individual effectiveness of the various actions (in terms of achieving the objectives set out in Article 1 and in the Annex).

9. FRAUD PREVENTION MEASURES

All contracts, agreements and legal undertakings entered into by the Commission and the beneficiaries provide for checks to be carried out by the Commission or the Court of Auditors on the premises of a direct beneficiary of a Community grant, and for evidence to be required of any expenditure under such contracts, agreements and legal undertakings, during the five years after the end of the contract period. Beneficiaries are required to submit financial reports and accounts, which are analysed for content and eligibility of expenditure in the light of the objective of Community funding, bearing in mind the contractual obligations and the principles of economy and sound financial management.

Attached to the financial agreements are administrative and financial information intended *inter alia* to specify expenditure which is eligible under these agreements. Where appropriate, Community coverage of certain cost elements will be limited to items which are real, identifiable and verifiable in the beneficiary's book-keeping arrangements, so as to facilitate checking and auditing (and evaluation for selection purposes) of projects in receipt of funding.
