# COMMISSION OF THE EUROPEAN COMMUNITIES

COM(78) 530 final Brussels, 22 October 1978

Proposals for a COUNCIL REGULATIONS (EEC)

establishing indicative ceilings and Community supervision for imports of certain goods originating in Austria, Finland, Iceland, Norway, Portugal, Sweden and Switzerland (1979)

DRAFTS OF DECISIONS OF THE REPRESENTATIVES OF THE GOVERNMENTS OF THE MEMBER STATES OF THE EUROPEAN COAL AND STEEL COMMUNITY, MEETING WITHIN THE COUNCIL

establishing supervision for imports of certain goods originating in Austria and Sweden (1979)

(submitted to the Council by the Commission)

COM(78) 530 final

### EXPLANATORY MEMORANDUM

The proposals for Regulations joint hereto have as their objective - to establish indicative ceilings to be applied in 1979 for imports

- of certain goods originating in the EFTA-countries;
- to attribute to the Commission the competence to reestablish customs duties under certain conditions;
- to establish a system of surveillance relating. to imports of goods which are or are not subject to ceilings.

# A. Agreements between the EEC and the non-coplicant EFTA countries

 The Agreements concluded by the EEO with Austria, Finland, Ireland, Norway, Portugal, Sweden and Switzerland specially provide for the phased abolition of customs duties, entailing five reductions each of 20 % during a transitional period extending until 1 July 1977.

Exceptionally, Articles 1 and 2 of the Protocols nº 1 annexed to these Agreements stipulate that, for a certain number of goods, this abolition of duties is to be achieved by smaller reductions of duties over longer transitional periods. Furthermore, another provision in this Protocol is that imports of some of these goods to which these special tariff arrangements apply shall be subject to indicative ceilings above which the customs duties applicable to non-member countries may be reintroduced until the end of the calendar year. 2. Implementation of those two provisions ?

(a) annual target collings, and

(b) reintroduction of customs duties,

implies the adoption of precise common rules to be applied uniformly by all Nombor States. These requirements may be met by the establishments of a Community system of supervision of notual imports from each of the partner nountries. To this end, the Nember States should take appropriate measures to permit the rapid collection of statistical returns at Community level. In this connection it is necessary to take into account only imports of the products in question as and when they are submitted to the customs authorities under the cover of a declaration of entry for home use and accompanied by a movement certificate comforming to the rules contained in the deferred to under 1 above.

2

These returns should be drawn up by each Momber State at the end of every month and forwarded by the fifteens day of the following month, to the Commission so as to enable the latter to communicate by telex to all the Momber States the overall, good why-good returns for the imports in question in the preceding month. The system of supervision will require of the responsible departments of the Member States and the Commission diligence and close oceparation.

The following system would be adopted for setting in train muchinery to reintrodues duties 1 if one of the everall monthly returns drawn up by the Commission revealed that 75 % of the ceiling fixed for a given good had been reached, consultations could be hold, for example in the Working Party on Economic Tariff Problems, sither at the request of a Member Atate or upon the Commission's initiative. The alm of there concultations would be to examine, case by ones, the reintroduction or not. of the levying of susteme duties upplicable to non-member sountries onto the target ceiling is notually reached.

Monthly roturns would still be made in respect of imports of the product in question or, if it is requested by the Commission by telax at intervals of ton days. The set form for the transmission of this last montioned information is five days. In this conditions, the Commission would be able to take, within the shortest possible time, measures leading to the reintroduction, by regulation, of oustons duties in respect of the partner country until the and of the calendar year. In the flows hypothesis, the rointroduction of the levying of quotoms duties on the flows hypothesis, the consideration would, naturally, he effected within the time-limit fixed by the regulation, putting as and to the reduction of duties provided for in the Protocols no Le

J. As far as application of the rule on sollings and reintroduction of aution is noncorned, the attached proposals make, provisions for conferring powers of the Council upon the Semplesions for the Transformer descention. The proposed regulations do no more than cutline how these powers are to be exercised so that, in consultation with the Nember States, the machinery to be set in train may be adapted flexibly and rapidly. Furthermore, it is likewise with a view to maximum efficiency and rapidity that the proposed regulations lay down that it yould be up to the Commission to relateduce, is respect of the partner country, the lowing of the duties applicable to non-member countries.

### B. Agreements between the ECSC and the non-applicant FFTA countries

In addition to the Agreements between the EEC and the non-applicant EFTA countries, Agreements were concluded at the same time between ' the Member States of the European Coal and Steel Community and the European Coal and Steel Community on the one hand, and those EFTA countries on the other hand.

The above considerations are valid <u>mutatic mutandie</u> for these Agreements, the sole difference being that only the Pretocols ennexed to the Agreements with Austria and Sweden make provision for the appliontion of indicative coilings to cortain goods and for a possible reintroduction of customs duties. Another special feature is that, as far as these coilings are concerned, Article 2 of each of the Protocols in question refers to the contents of Annex 0 to each Protocol to the EEC agreements, for there are no special ceilings for ECBO goods. For reasons of simplification, the EEC and ECSO goods falling within the one tariff heading in question (73.15) have been placed together under four single eeilings.

C. Finally, as in the case of adopted for the year 1977, the following statement might be recorded in the Council Report on the escapion of the adoption of the monticaed egreement :

"La décision de rétablir les droits de douane, pour le reste de l'année en cours, lorsqu'un plafond est atteint, est prise à l'initiative de la Commission en inmédiatement si un Etat membre le domande."

ANNELCES :

- 7 proposals of Regulations of the Council
- 2 drafte ef Decisions.

ANNEX A

# Proposal for a COUNCIL REGULATION (EEC)

establishing indicative ceilings and Community supervision for imports of certain goods originating in Austria (1979)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas an Agreement (1) between the European Economic Community and the Republic of Austria was signed on 22 July 1972;

Whereas Articles 1 and 2 of Protocol 1 annexed to that Agreement make provision for a specific timetable for the progressive abolition of customs duties in respect of the goods to which the Agreement applies; whereas under Article 3 of that Protocol the imports of these goods are limited to annual indicative ceilings above which the customs duties applicable to third countries may be reintroduced; whereas, however, under Article 3 (b), the Community has to suspend the application of certain ceilings;

whereas, therefore, the ceilings to be applied in 1979 must be established; whereas in this situation it is also necessary that the Commission be regularly informed of the trend of the imports of the goods in question and, in consequence, it is necessary to subject these imports to supervision;

(1) OJ No L 300, 31.12.1972, p. 1.

Whereas this objective may be achieved by means of an administrative procedure based on charging imports of the goods in question against the indicative ceilings at Community level, as and when these goods are entered with customs authorities for home use; whereas this administrative procedure must make provision for the possibility of Common Customs Tariff duties being reintroduced as soon as the ceilings are reached at Community level;

Whereas this administrative procedure requires close and particularly rapid cooperation between the Member States and the Commission and the latter must, in particular be able to follow the progress of quantities charged against the indicative ceilings and keep the Member States informed; whereas this cooperation has to be particularly close since the Commission must be able to take the appropriate measures to reintroduce Common Customs Tariff duties if one of the ceilings is reached;

Whereas the trend of imports should be followed for certain goods for which, under Article 3 of Protocol 1, the Community has suspended the application of ceilings and for goods which are not subject to the ceiling system; whereas it is therefore desirable that imports of such goods should be subject to supervision,

HAS ADOPTED THIS REGULATION :

### Article 1

1. From 1 January to 31 December 1979, imports of goods originating in Austria listed in Annex I to this Regulation shall be subject to indicative ceilings and to Community supervision.

The description of the goods referred to in the first subparagraph, their tariff headings and statistical numbers and the levels of the indicative ceilings are given in Annex I.

2

H

. . . / . . .

2. Quantities shall be charged against the indicative ceilings as and when the goods are entered with customs authorities for home use accompanied by a movement certificate in accordance with the rules contained in Protocol 3 to the Agreement.

Goods may be charged against the indicative ceiling only if the movement certificate has been submitted before the date on which customs duties are reimposed.

The extent to which a ceiling is used up shall be determined at Community level on the basis of the imports charged against it in the manner defined in the preceding subparagraphs.

The Member States shall periodically inform the Commission of imports effected in accordance with the above rules; such information shall be supplied under the conditions laid down in paragraph 4.

3. As soon as the ceilings have been reached, the Commission may adopt a Regulation reimposing until the end of the calendar year the customs duties provided for in Article 3 (f) of Protocol 1 to the Agreement.

4. Member States shall forward to the Commission not later than the 15th day of each month statements of the quantities charged during the preceding month. If the Commission so requests, they shall provide such statements for periods of 10 days and forward them within five clear days of the end of each 10-day period.

5. Where, for one of the products listed in Annex I, the customs duties of the Common Customs Tariff have been reimposed or the application of a ceiling is delayed, the Member States shall continue to forward to the Commission not later than the 15th day of each month statements of the imports of these goods effected during the preceding month under the conditions laid down in the first subparagraph of paragraph 2.

### Article 2

From 1 January to 31 December 1979, imports of the goods referred to in Annex II which originate in Austria shall be subject to Community supervision.

Member States shall forward to the Commission not later than the 15th day of each month statements of imports of the goods in question effected during the preceding month; to this end, only goods submitted to the customs authorities under cover of an entry for home use accompanied by a movement certificate in accordance with the rules contained in Protocol 3 to the Agreement shall be taken into consideration.

### Article 3

The Commission shall take all appropriate measures, in close cooperation with the Member States, for the purposes of applying this Regulation.

### Article 4

This Regulation shall enter into force on 1 January 1979.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

For the Council

61

The President

### ANNEX III

### DEFINITIONS

### ex 48.01 C II

ex 48.01 C II

### Kraft liner

'Kraft liner' means machine-finished or machine-glazed paper or paperboard, in rolls, containing not less than 80% of chemical sulphate softwood pulp calculated on total fibre content, weighing more than 115 g/m<sup>2</sup> and having a Mullen burst ratio of not less than 35.

### Kraft paper for large-capacity sacks

Kraft paper for large-capacity sacks' means machine-finished paper, in rolls, containing not less than 80% of chemical sulphate softwood pulp calculated on total fibre content, weighing not less than 60 g/m<sup>2</sup> but not more than 115 g/m<sup>2</sup>, having a Mullen burst ratio of not less than 38, and having a stretch factor of more than 4.5% in the cross direction and of more than 2% in the machine direction.

### Printing paper and writing paper, containing not more than 5% of mechanical wood pulp

'Printing paper and writing paper, containing not more than 5% of mechanical wood pulp' means paper other than machine-glazed, used for printing or writing, which contains not more than 5% of mechanical wood pulp calculated on total fibre content.

### Printing paper and writing paper, containing mechanical wood pulp

'Printing paper and writing paper containing mechanical wood pulp' means paper other than machine-glazed, used for printing and writing, containing more than 5% of mechanical wood pulp calculated on total fibre content.

### Semi-chemical fluting paper

'Semi-chemical fluting paper' means paper, in rolls, containing not less than 65% of unbleached semi-chemical hardwood pulp (pulp obtained from wood by light chemical treatment followed by mechanical treatment) calculated on total fibre content and having a CMT (Concora Medium Test) crush resistance exceeding 20 kgf.

### Sulphite wrapping and packaging paper

'Sulphite wrapping and packaging paper' means machine-glazed paper, containing more than 40% of chemical bisulphite wood pulp, calculated on total fibre content, having an ash content of not more than 8% and having a Mullen burst ratio of not less than 15.

### Alloy steel, stainless or heat-resisting

'Alloy steel, stainless or hear-resisting' means alloy steel, containing by weight 12% or more of chromium, with or without other alloy elements, and less than 1% of carbon.

### High-speed alloy steel

'High-speed alloy steel' means alloy steel containing, with or without other alloy elements, at least two of the following three elements: tungsten (wolfram), molybdenum and vanadium with a total content, by weight, of not less than 7% of these elements taken together, and containing more than 0-6%, by weight, of carbon.

# Proposal for a

### COUNCIL REGULATION (EEC)

establishing indicative ceilings and Community supervision for imports of certain goods originating in Finland (1979)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas an Agreement (1) between the European Economic Community and the Republic of Finland was signed on 5 October 1973;

Whereas Articles 1 and 2 of Protocol 1 annexed to that Agreement make provision for a specific timetable for the progressive abolition of customs duties in respect of the goods to which the Agreement applies; whereas under Article 3 of that Protocol the imports of these goods are limited to annual indicative ceilings above which the customs duties applicable to third countries may be reintroduced; whereas, however, under Article 3 (b), the Community has to suspend the application of certain ceilings;

whereas, therefore, the ceilings to be applied in 1979 must be established; whereas in this situation it is also necessary that the Commission be regularly informed of the trend of the imports of the goods in question and, in consequence, it is necessary to subject these imports to supervision;

(1) OJ No L' 328, 28.11.1973, p. 2.

Whereas this objective may be achieved by means of an administrative procedure based on charging imports of the goods in question against the indicative ceilings at Community level, as and when these goods are entered with customs authorities for home use; whereas this administrative procedure must make provision for the possibility of Common Customs Tariff duties being reintroduced as soon as the ceilings are reached at Community level;

Whereas this administrative procedure requires close and particularly rapid cooperation between the Member States and the Commission and the latter must, in particular be able to follow the progress of quantities charged against the indicative ceilings and keep the Member States informed; whereas this cooperation has to be particularly close since the Commission must be able to take the appropriate measures to reintroduce Common Customs Tariff duties if one of the ceilings is reached;

Whereas the trend of imports should be followed for certain goods for which, under Article 3 of Protocol 1, the Community has suspended the application of ceilings and for goods which are not subject to the ceiling system; whereas it is therefore desirable that imports of such goods should be subject to supervision,

HAS ADOPTED THIS REGULATION :

### Article 1

r ti ti ti

nI

1. From 1 January to 31 December 1979, imports of goods originating in Finland listed in Annex I to this Regulation shall be subject to indicative ceilings and to Community supervision.

The description of the goods referred to in the first subparagraph, their tariff headings and statistical numbers and the levels of the indicative ceilings are given in Annex I.

2. Quantities shall be charged against the indicative ceilings as and when the goods are entered with customs authorities for home use accompanied by a movement certificate in accordance with the rules contained in Protocol 3 to the Agreement.

Goods may be charged against the indicative ceiling only if the movement certificate has been submitted before the date on which customs duties are reimposed.

The extent to which a ceiling is used up shall be determined at Community level on the basis of the imports charged against it in the manner defined in the preceding subparagraphs.

The Member States shall periodically inform the Commission of imports effected in accordance with the above rules; such information shall be supplied under the conditions laid down in paragraph 4.

3. As soon as the ceilings have been reached, the Commission may adopt a Regulation reimposing until the end of the calendar year the customs duties provided for in Article 3 (f) of Protocol 1 to the Agreement.

4. Member States shall forward to the Commission not later than the 15th day of each month statements of the quantities charged during the preceding month. If the Commission so requests, they shall provide such statements for periods of 10 days and forward them within five clear days of the end of each 10-day period.

5. Where, for one of the products listed in Annex I, the customs duties of the Common Customs Tariff have been reimposed or the application of a ceiling is delayed, the Member States shall continue to forward to the Commission not later than the 15th day of each month statements of the imports of these goods effected during the preceding month under the conditions laid down in the first subparagraph of paragraph 2.

# Article 2

From 1 January to 31 December 1979, imports of the goods referred to in Annex II which originate in Finland shall be subject to Community supervision.

Member States shall forward to the Commission not later than the 15th day of each month statements of imports of the goods in question effected during the preceding month; to this end, only goods submitted to the customs authorities under cover of an entry for home use accompanied by a movement certificate in accordance with the rules contained in Protocol 3 to the Agreement shall be taken into consideration.

### Article 3

The Commission shall take all appropriate measures, in close cooperation with the Member States, for the purposes of applying this Regulation.

### Article 4

This Regulation shall enter into force on 1 January 1979.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

For the Council

The President

### ANNEX III

### DEFINITIONS

### Kraft liner

'Kraft liner' means machine-finished or machine-glazed paper or paperboard, in rolls, containing not less than 80% of chemical sulphate softwood pulp calculated on total fibre content, weighing more than 115 g/m<sup>2</sup> and having a Mullen burst ratio of not less than 35.

Kraft paper for large-capacity sacks

'Kraft paper for large-capacity sacks' means machine-finished paper, in rolls containing not less than 80% of chemical sulphate softwood pulp calculated on total fibre content, weighing not less than 60 g/m<sup>2</sup> but not more than 115 g/m<sup>2</sup>, having a Mullen burst ratio of not less than 38, and having a stretch factor of more than 4.5% in the cross direction and of more than 2% in the machine direction.

### Printing paper and writing paper, containing not more than 5% of mechanical wood pulp

'Other printing paper and other writing paper, not containing mechanical wood pulp or containing not more than 5% of mechanical wood pulp' means paper other than machine-glazed, used for printing or writing, which contains not more than 5% of mechanical wood pulp calculated on total fibre content.

Printing paper and writing paper, containing mechanical wood pulp

'Printing paper and writing paper containing mechanical wood pulp' means paper other than machine-glazed, used for printing and writing, containing more than 5% of mechanical wood pulp calculated on total fibre content.

### Semi-chemical fluting paper

'Semi-chemical fluting paper' means paper, in rolls, containing not less than 65% of unbleached semi-chemical hardwood pulp (pulp obtained from wood by light chemical treatment followed by mechanical treatment) calculated on total fibre content and having a CMT (Concora Medium Test) crash resistance exceeding 20 kgf.

### Sulphite wrapping and packaging paper

'Sulphite wrapping and packaging paper' means machine-glazed paper, containing more than 40% of chemical bisulphite wood pulp, calculated on total fibre content, having an ash content of not more than 8% and having a Mullen burst ratio of not less than 15.

riupusai

establishing indicative ceilings and Community supervision for imports of certain goods originating in Iceland (1979)

### THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas an Agreement (<sup>1</sup>) between the European Economic Community and the Republic of Iceland was signed on 22 July 1972;

Whereas Articles 1 and 2 of Protocol 1 annexed to that Agreement make provision for a specific timetable for the progressive abolition of customs duties in respect of the goods to which the Agreement applies; whereas under Article 3 of that Protocol the imports of these goods are limited to annual indicative ceilings above which the customs duties applicable to third countries may be reintroduced; whereas, however, under Article 3 (b), the Community has to suspend the application of certain ceilings; whereas in the light of the current situation of the trade in these, goods and its likely development in 1979, it does not seem desirable to establish indicative ceilings for this year;

Whereas the trend of imports should be followed for certain goods for which, under Article 3 of Protocol 1, the Community has suspended the application of ceilings; whereas it is therefore desirable that imports of such goods should be subject to supervision,

### HAS ADOPTED THIS REGULATION:

### Article 1

From 1 January to 31 December 1979, imports of goods originating in Iceland listed in the Annex to this Regulation shall be subject to Community supervision.

Member States shall forward to the Commission, not larer than the 15th day of each month, statements of imports of the goods in question effected during the preceding month; to this end, only goods submitted to the customs authorities under cover of an entry for home use accompanied by a movement certificate in accordance with to the rules contained in Protocol 3 to the Agreement shall be taken into consideration.

### Article 2

The Commission shall take all appropriate measures in close cooperation with the Member States, for the purposes of applying this Regulation.

### Article 3

This Regulation shall enter into force on 1 January 1979.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

### Proposal for a

COUNCIL REGULATION (EEC)

establishing indicative ceilings and Community supervision for imports of certain goods originating in Norway (1979)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas an Agreement (1) between the European Economic Community and the Kingdom of Norway was signed on 14 May 1973;

Whereas Articles 1, 2 / of Protocol 1 annexed to that Agreement make provision for a specific timetable for the progressive abolition of customs duties in respect of the goods to which the Agreement applies; whereas under Article 4 of that Protocol the imports of these goods are limited to annual indicative ceilings above which the customs duties applicable to third countries may be reintroduced; whereas, however, under Article 4 (b), the Community has to suspend the application of certain ceilings;

whereas, therefore, the ceilings to be applied in 1979 must be established; whereas in this situation it is also necessary that the Commission be regularly informed of the trend of the imports of the goods in question and, in consequence, it is necessary to subject these imports to supervision; G

51

(1) OJ No L 171, 27.6.1973, p. 2.

Whereas this objective may be achieved by means of an administrative procedure based on charging imports of the goods in question against the indicative ceilings at Community level, as and when these goods are entered with customs authorities for home use; whereas this administrative procedure must make provision for the possibility of Common Customs Tariff duties being reintroduced as soon as the ceilings are reached at Community level;

Whereas this administrative procedure requires close and particularly rapid cooperation between the Member States and the Commission and the latter must, in particular be able to follow the progress of quantities charged against the indicative ceilings and keep the Member States informed; whereas this cooperation has to be particularly close since the Commission must be able to take the appropriate measures to reintroduce Common Customs Tariff duties if one of the ceilings is reached;

Whereas the trend of imports should be followed for certain goods for which, under Article 3 of Protocol 1, the Community has suspended the application of ceilings and for goods which are not subject to the ceiling system; whereas it is therefore desirable that imports of such goods should be subject to supervision,

HAS ADOPTED THIS REGULATION :

Article 1

ह. अ ह. हा

> 1-11-2-11 [- 1

1. From 1 January to 31 December 1979, imports of goods originating in Norway listed in Annex I to this Regulation shall be subject to indicative ceilings and to Community supervision.

The description of the goods referred to in the first subparagraph, their tariff headings and statistical numbers and the levels of the indicative ceilings are given in Annex I. 2. Quantities shall be charged against the indicative ceilings as and when the goods are entered with customs authorities for home use accompanied by a movement certificate in accordance with the rules contained in Protocol 3 to the Agreement.

Goods may be charged against the indicative ceiling only if the movement certificate has been submitted before the date on which customs duties are reimposed.

The extent to which a ceiling is used up shall be determined at Community level on the basis of the imports charged against it in the manner defined in the preceding subparagraphs.

The Member States shall periodically inform the Commission of imports effected in accordance with the above rules; such information shall be supplied under the conditions laid down in paragraph 4.

3. As soon as the ceilings have been reached, the Commission may adopt a Regulation reimposing until the end of the calendar year the customs duties provided for in Article 4 (f) of Protocol 1 to the Agreement.

4. Member States shall forward to the Commission not later than the 15th day of each month statements of the quantities charged during the preceding month. If the Commission so requests, they shall provide such statements for periods of 10 days and forward them within five clear days of the end of each 10-day period.

5. Where, for one of the products listed in Annex I, the customs duties of the Common Gustoms Tariff have been reimposed or the application of a ceiling is delayed, the Member States shall continue to forward to the Commission not later than the 15th day of each month statements of the imports of these goods effected during the preceding month under the conditions laid down in the first subparagraph of paragraph 2.

7117

# Proposal for a COUNCIL REGULATION (EEC)

establishing indicative ceilings and Community supervision for imports of certain goods originating in Portugal (1979)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas an Agreement (1) between the European Economic Community and the Portuguese Republic was signed on 22 July 1972;

Whereas Articles 1 and 2 of Protocol 1 annexed to that Agreement make provision for a specific timetable for the progressive abolition of customs duties in respect of the goods to which the Agreement applies; whereas under Article <sup>2</sup> of that Protocol the imports of these goods are limited to annual indicative ceilings above which thereustoms duties applicable to third countries may be reintroduced; whereas, however, under Article <sup>2</sup> (2), the Community has to suspend the application of certain ceilings; whereas, therefore, the ceilings to be applied in 1979 must be established; whereas in this situation it is also necessary that the Commission be regularly informed of the trend of the imports of the goods in question and, in consequence, it is necessary to subject these imports to supervision;

01

(1) OJ No L 301, 31.12.1972, p. 10.

Whereas this objective may be achieved by means of an administrative procedure based on charging imports of the goods in question against the indicative ceilings at Community level, as and when these goods are entered with customs authorities for home use; whereas this administrative procedure must make provision for the possibility of Common Customs Tariff duties being reintroduced as soon as the ceilings are reached at Community level;

Whereas this administrative procedure requires close and particularly rapid cooperation between the Member States and the Commission and the latter must, in particular be able to follow the progress of quantities charged against the indicative ceilings and keep the Member States informed; whereas this cooperation has to be particularly close since the Commission must be able to take the appropriate measures to reintroduce Common Customs Tariff duties if one of the ceilings is reached;

Whereas the trend of imports should be followed for certain goods for which, under Article 3 of Protocol 1, the Community has suspended the application of ceilings and for goods which are not subject to the ceiling system; whereas it is therefore desirable that imports of such goods should be subject to supervision,

HAS ADOPTED THIS REGULATION :

### Article 1

11-1

ы. Кы

1. From 1 January to 31 December 1979, imports of goods originating in <u>Portugal</u> listed in Annex I to this Regulation shall be subject to indicative ceilings and to Community supervision. 10

The description of the goods referred to in the first subparagraph, their tariff headings and statistical numbers and the levels of the indicative ceilings are given in Annex I. 2. Quantities shall be charged against the indicative ceilings as and when the goods are entered with customs authorities for home use accompanied by a movement certificate in accordance with the rules contained in Protocol 3 to the Agreement.

Goods may be charged against the indicative ceiling only if the movement certificate has been submitted before the date on which customs duties are reimposed.

The extent to which a ceiling is used up shall be determined at Community level on the basis of the imports charged against it in the manner defined in the preceding subparagraphs.

The Member States shall periodically inform the Commission of imports effected in accordance with the above rules; such information shall be supplied under the conditions laid down in paragraph 4.

3. As soon as the ceilings have been reached, the Commission may adopt a Regulation reimposing until the end of the calendar year the customs duties provided for in Article 2(7) of Protocol 1 to the Agreement.

4. Member States shall forward to the Commission not later than the 15th day of each month statements of the quantities charged during the preceding month. If the Commission so requests, they shall provide such statements for periods of 10 days and forward them within five clear days of the end of each 10-day period.

5. Where, for one of the products listed in Annex I, the oustoms duties of the Common Customs Tariff have been reimposed or the application of a ceiling is delayed, the Member States shall continue to forward to the Commission not later than the 15th day of each month statements of the imports of these goods effected during the preceding month under the conditions laid down in the first subparagraph of paragraph 2.

Where, for one of the products listed in Annex I, the customs duties of the Common Customs Tariff have been reimposed or the application of a ceiling is delayed, the Member States shall continue to forward to the Commission not later than the 15th day of each month statements of the imports of these goods effected during the preceding month under the conditions laid down in the first subparagraph of paragraph 2.

#### Article 2

From 1 January to 31 December 1979, imports of the goods referred to in Annex II which originate in Sweden shall be subject to Community supervision.

Member States shall forward to the Commission not later than the 15th day of each month statements of imports of the goods in question effected during the preceding month; to this end, only goods submitted to the customs authorities under cover of an entry for home use accompanied by a movement certificate in accordance with the rules contained in Protocol 3 to the Agreement shall be taken into consideration.

#### Article 3

The Commission shall take all appropriate measures, in close cooperation with the Member States, for the purposes of applying this Regulation.

### Article 4

This Regulation shall enter into force on 1 January 1979.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

#### ANNEX III

#### DEFINITIONS

#### ex 48.01 C II

Kraft liner

'Kraft liner' means machine-finished or machine-glazed paper or paperboard, in rolls, containing not less than 80% of chemical sulphate softwood pulp calculated on total fibre content, weighing more than 115 g/m<sup>2</sup> and having a Mullen burst ratio of not less than 35.

#### Kraft paper for large-capacity sacks

<sup>6</sup>Kraft paper for large-capacity sacks' means machine-finished paper, in rolls, containing not less than 80% of chemical sulphate softwood pulp calculated on total fibre content, weighing not less than 60 g/m<sup>2</sup> but not more than 115 g/m<sup>2</sup>, having a Mullen burst ratio of not less than 38, and having a stretch factor of more than 4.5% in the cross direction and of more than 2% in the machine direction.

Printing paper and writing paper, containing not more than 5% of mechanical wood pulp

'Printing paper and writing paper, containing not more than 5% of mechanical wood pulp' means paper other than machine-glazed, used for printing or writing, which contains not more than 5% of mechanical wood pulp calculated on total fibre content.

Printing paper and writing paper, containing mechanical wood pulp

Printing paper and writing paper containing mechanical wood pulp' means paper other than machine-glazed, used for printing and writing, containing more than 5% of mechanical wood pulp calculated on total fibre content.

#### Semi-chemical fluting paper

Semi-chemical fluting paper' means paper, in rolls, containing not less than 65% of unbleached semi-chemical hardwood pulp (pulp obtained from wood by light chemical treatment followed by mechanical treatment) calculated on total fibre content and having a CMT (Concora Medium Test) crush resistance exceeding 20 kgf.

e li

1.3

r-

ិក្រ ភូទ

#### Sulphite wrapping and packaging paper

'Sulphite wrapping and packaging paper' means machine-glazed paper, containing more than 40% of chemical bisulphite wood pulp, calculated on total fibre content, having an ash content of not more than 8% and having a Mullen burst ratio of not less than 15.

#### Alloy steel, stainless or heat-resisting

"Alloy steel, stainless or heat-resisting' means alloy steel, containing by weight 12% or more of chromium, with or without other alloy elements, and less than 1% of carbon.

#### High-speed alloy steel

'High-speed alloy steel' means alloy steel containing, with or without other alloy elements, at least two of the following three elements: tungsten (wolfram), molybdenum and vanadium with a total content, by weight, of not less than 7% of these elements taken together, and containing more than 0.6% by weight, of carbon.

#### Proposal for a

#### COUNCIL REGULATION (EEC)

establishing indicative ceilings and Community supervision for imports of certain goods originating in Switzerland (1979)

#### THE COUNCIL OF THE EUROPEAN COMMUNITIES,

HAS ADOPTED THIS REGULATION:

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas an Agreement (1) between the European Economic Community and the Swiss Confederation was signed or: 22 July 1972;

Whereas Articles 1 and 2 of Protocol 1 annexed to that Agreement make provision for a specific timetable for the progressive abolition of customs duties in respect of the goods to which the Agreement applies; whereas under Article 3 of that Protocol the imports of these goods are limited to annual indicative ceilings above which the customs duties applicable to third countries may be reintroduced; whereas, however, under Article 3 (b), the Community has to suspend the application of certain ceilings; whereas in the light of the current situation of the trade in these goods and its likely development in 1979, it does not seem desirable to establish indicative ceilings for this year;

Whereas the ttend of imports should be followed for certain goods for which, under Article 3 of Protocol 1, the Community has suspended the application of ceilings; and for other goods not subject to ceilings; whereas it is therefore desirable that imports of such goods should be surbject to supervision.

#### Article 1

From 1 January to 31 December 1979, imports of /Switzerland goods originating in /- listed in the Switzerland Annex to this Regulation shall be subject to Community supervision.

Member States shall forward to the Commission, not later than the 15th day of each month, statements of imports of the goods in question effected during the preceding month; to this end, only goods submitted to the customs authorities under cover of an entry for home use accompanied by a movement certificate in accordance with to the rules contained in Protocol 3 to the Agreement shall be taken into consideration.

#### Article 2

The Commission shall take all appropriate measures in close cooperation with the Member States, for the purposes of applying this Regulation.

#### Article 3

This Regulation shall enter into force on 1 January 1979.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

For the Council The President

#### DRAFT OF A

#### DECISION

#### OF THE REPRESENTATIVES OF THE GOVERNMENTS OF THE MEMBER STATES OF THE EUROPEAN COAL AND STEEL COMMUNITY, MEETING WITHIN THE COUNCIL,

establishing supervision for imports of certain goods originating in Austria (1979)

THE REPRESENTATIVES OF THE GOVERNMENTS OF THE MEMBER STATES OF THE EUROPEAN COAL AND STEEL COMMUNITY, MEETING WITHIN THE COUN-CIL,

In agreement with the Commission,

HAVE DECIDED AS FOLLOWS:

#### Article 1

1. Imports of certain goods originating in Austria and indicated in Articles 1 and 2 of Protocol 1 to the Agreement between the Member States of the European Coal and Steel Community and the European Coal and Steel Community, of the one part, and the Republic of Austria, of the other part, shall be subject to annual indicative ceilings and to Community supervision from 1 January to 31 December 1979.

(1) See page\_\_\_of this Official Journal.

2. Quantities shall

be charged against the indicative ceilings as and when the goods are entered with customs authorities for home use accompanied by a movement certificate conforming to the rules contained in the Agreement referred to in paragraph 1.

#### charged

Goods shall be / against the indicative ceiling only if the movement certificate has been submitted before the date on which customs duties are reimposed.

The extent to which a ceiling is used up shall be determined at Community level on the basis of imports / against it in the manner defined in the preceding subparagraph.

The Member States shall periodically inform the Commission of imports effected in accordance with the above rules; such information shall be supplied under the conditions laid down in paragraph 4.

11

3. As soon as the ceilings have been reached, the Member States may, at the request of one of them or of the Commission, reimpose, until the end of the calendar year, each in respect of its own territory, the customs duties applicable to third countries, adjusted, where appropriate, by the percentages laid down in Article 2 (e) of Protocol 1 to the Agreement referred to in paragraph 1.

Within the framework of the provisions of the first subparagraph the Commission shall coordinate the

1 4

/charged

procedures for reintroducing customs duties applicable to third countries, in particular, by notifying the date common to the whole of the Community and directly applicable in each Member State. This notification shall be published in the Official Journal of the European Communities.

Member States shall forward to the Commission not later than the 15th day of each month statements of the quantities charged during the preceding month. If the Commission so requests, they shall provide such statements for periods of 10 days and forward them within fiveclear days of the end of each 10-day period.

#### DRAFT OF A

#### DECISION

#### OF THE REPRESENTATIVES OF THE GOVERNMENTS OF THE MEMBER STATES OF THE EUROPEAN COAL AND STEEL COMMUNITY, MEETING WITHIN THE COUNCIL,

#### establishing supervision for imports of certain goods originating in Sweden (1979)

THE REPRESENTATIVES OF THE GOVERNMENTS OF THE MEMBER STATES OF THE EUROPEAN COAL AND STEEL COMMUNITY, MEETING WITHIN THE COUN-CIL.

In agreement with the Commission,

HAVE DECIDED AS FOLLOWS:

#### Article 1

1. Imports of certain goods originating in Sweden and indicated in Articles 1 and 2 of Protocol 1 to the Agreement between the Member States of the European Coal and Steel Community and the European Coal and Steel Community, of the one part, and the Kingdom of Sweden, of the other part, shall be subject to annual indicative ceilings and to Community supervision from 1 January to 31 December 1979.

The description of the goods referred to in the preceding subparagraph, their tariff headings and statistic numbers and the levels of the indicative ceilings are given in Council Regulation (EEC) No \_\_\_\_\_ of \_\_\_\_ ---- establishing indicative ceilings and Community supervision for imports of certain goods originating in Sweden (1).

#### 2. Quantities shall

be charged against the indicative ceilings as and when the goods are entered with customs authorities for home use accompanied by a movement certificate conforming to the rules contained in the Agreement referred to in paragraph 1.

Goods shall be / against the indicative ceiling only if the movement certificate has been submitted before the date on which customs duties are reimposed.

The extent to which a ceiling is used up shall be determine shall be determined at Community level on the basis of imports / against it in the manner defined in the preceding subparagraph.

The Member States shall periodically inform the Commission of imports effected in accordance with the above rules; such information shall be supplied under the conditions laid down in paragraph 4.

3. As soon as the ceilings have been reached, the Member States may, at the request of one of them or of the Commission, reimpose, until the end of the calendar year, each in respect of its own territory, the customs duties applicable to third countries, adjusted, where appropriate, by the percentages laid down in Article 2 (e) of Protocol 1 to the Agreement referred to in paragraph 1.

> r .. c ri

# (1) See page ... of this Official Journal

Within the framework of the provisions of the first subparagraph, the Commission shall coordinate the procedures for reintroducing customs duties applicable to third countries, in particular, by notifying the date common to the whole of the Community and directly applicable in each Member State. This notification shall be published in the Official Journal of the European Communities.

4. Member States shall forward to the Commission not later than the 15th day of each month statements of the quantities charged during the preceding month.
