Proposal for a

COUNCIL DECISION

**on the application of the provisions of the Schengen acquis in the area of Schengen
Information System in the Republic of Cyprus**

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

• Reasons for and objectives of the proposal

In line with Article 3(1) and (2) of the 2003 Act of Accession to the European Union¹ certain provisions of the Schengen *acquis* are already applicable in Cyprus from the date of accession, while other provisions only apply pursuant to a Council Decision to that effect after verification that the necessary conditions for the application of all parts of that *acquis* have been met. This verification is done in accordance with the relevant Schengen evaluation procedures.

Council Regulation (EU) No 1053/2013, establishing an evaluation and monitoring mechanism to verify the application of the Schengen *acquis*², provides for these Schengen evaluation procedures. On 28 May 2019, Cyprus declared its willingness and commitment to apply all parts of the Schengen *acquis* and to be subject to Schengen evaluations, to the extent possible considering the special circumstances of Cyprus as recognised in Protocol No 10 to the 2003 Act of Accession. In line with Council Regulation (EU) No 1053/2013, the Commission amended the annual³ and multiannual evaluation programmes⁴ on 15 October 2019 to include the evaluation of Cyprus in 2019 and 2020. The geographical scope of the Schengen evaluations in Cyprus takes into consideration the special circumstances of Cyprus.

The Schengen evaluation in the area of the Schengen Information System can only take place when the Schengen Information System has been put into operation in Cyprus. Therefore, it is required that the Council adopts a Decision on putting into effect the provisions of the Schengen *acquis* in the area of the Schengen Information System in Cyprus.

The Council is only able to take such Decision after Cyprus has made the necessary technical and legal arrangements, including relating to data protection, to process Schengen Information System data and exchange supplementary information. Accordingly, a Schengen evaluation to verify the level of data protection in Cyprus was carried out in November 2019. Following the positive opinion of the Schengen Committee⁵, on 5 November 2020 the Commission adopted, by means of Commission Implementing Decision⁶, the evaluation report confirming that a satisfactory level of data protection is met.

In the meantime, on-site teams have carried out Schengen evaluation visits in Cyprus in other areas of the Schengen *acquis*, notably on return (November 2020), police cooperation (February 2021) and external borders (February 2021).

In addition, on 3 December 2020, the Schengen Information System II Advisory Group⁷, based on the results from the Test Summary Report (2020-377) produced by the European

Agency for the operational management of large-scale IT systems in the area of freedom, security and justice, confirmed that from a technical point of view the national system of Cyprus is ready to integrate into the Schengen Information System and its national system is fit for purpose.

It is therefore now possible for the Council to set the date from which the Schengen *acquis* in the area of the Schengen Information System shall apply in Cyprus. The entry into force of this Decision should allow for Schengen Information System data to be transferred to Cyprus. The use of these data in Cyprus should allow the Commission to verify, in accordance with the Schengen evaluation procedures, that the provisions concerning the Schengen Information System are being applied correctly.

Certain restrictions on the use of the Schengen Information System in Cyprus will be imposed until the Council has decided on the full application of the Schengen *acquis* in Cyprus and on the lifting of checks at internal borders. Such Decision shall only be taken when it has been verified that the necessary conditions for the application of all parts of the relevant *acquis* have been met in Cyprus in accordance with Article 3(2) of the Act of Accession.

This proposal seeks to put into effect the existing provisions in the area of the Schengen Information System in Cyprus.

- **Consistency with other Union policies**

This proposal has links with the provisions of the Schengen *acquis* in the area of data protection and police cooperation.

- **Legal basis**

COUNCIL DECISION

on the application of the provisions of the Schengen acquis in the area of Schengen Information System in the Republic of Cyprus

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the 2003 Act of Accession, and in particular Article 3(2) thereof,

Having regard to the proposal from the European Commission,

Having regard to the opinion of the European Parliament⁸,

Whereas:

- (1) Article 3(2) of the 2003 Act of Accession sets out that the provisions of the Schengen *acquis* not referred to in Article 3(1) of that Act, is to apply in Cyprus only pursuant to a Council decision to that effect, after verification, in accordance with the applicable Schengen evaluation procedures, that the necessary conditions for the application of all parts of the relevant *acquis* have been met in Cyprus, including the effective application of all Schengen rules in accordance with the agreed common standards and with fundamental principles.
- (2) The applicable Schengen evaluation procedures are set out in Council Regulation (EU) No 1053/2013⁹. Such an evaluation, however, must take into consideration the special circumstances of Cyprus, as recognised in Protocol No. 10 of the 2003 Act of Accession. In addition, in its declaration of readiness, Cyprus reiterated its commitment once the evaluation is concluded, to be submitted to regular further Schengen evaluations on the aspects of the Schengen *acquis* that will be made applicable by the Council up to that time.
- (3) The Schengen evaluation relating to data protection was carried out in Cyprus in November 2019. An evaluation report adopted by Commission Implementing Decision C(2020)8150 in accordance with Article 14(5) of Regulation (EU) No 1053/2013 of 7 October 2013, confirmed that the necessary conditions for the application of the Schengen *acquis* relating to data protection have been met in Cyprus.
- (4) In accordance with Article 1(1) of Commission Implementing Decision (EU) 2015/450¹⁰ it has been verified that, from a technical point of view, the national system of Cyprus is ready to integrate into the Schengen Information System.

- (5) Cyprus thus having made the necessary technical and legal arrangements to process Schengen Information System data and exchange supplementary information, it is now possible for the Council to set the date from which the Schengen *acquis* relating to the Schengen Information System shall apply in Cyprus.
- (6) This Decision should allow for Schengen Information System data to be transferred to Cyprus. The concrete use of those data should allow the Commission to verify the correct application of the provisions of the Schengen *acquis* relating to the Schengen Information System in Cyprus. Once it has been verified that the necessary conditions for the application of all parts of the Schengen *acquis* have been met in Cyprus, the Council should decide on the lifting of checks at the internal borders.
- (7) A separate Council Decision should be adopted setting a date for the lifting of checks at internal borders with Cyprus. Until the date set out in that Decision, certain restrictions on the use of the Schengen Information System in Cyprus should be imposed.
- (8) As regards Iceland and Norway, this Decision constitutes a development of the provisions of the Schengen *acquis* within the meaning of the Agreement concluded by the Council of the European Union and the Republic of Iceland and the Kingdom of Norway concerning their association with the implementation, application and development of the Schengen *acquis*¹¹ which fall within the area referred to in point G of Article 1 of Council Decision 1999/437/EC.¹²
