Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

on the financial rules applicable to the general budget of the Union (recast)

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

• Reasons for and objectives of the proposal

The Financial Regulation[1] lays down the principles and general financial rules for establishing and implementing the EU budget and controlling EU finances. The 2018 Financial Regulation is the result of a major revision, incorporating the previous Rules of Application into a single rulebook. The revision increased flexibility, simplified financial rules considerably and paved the way for the proposals under the 2021-2027 multiannual financial framework (MFF). These simpler rules need time to harness their full potential for the implementation of the 2021-2027 programmes and instruments, for example on the single audit approach, cross-reliance on audits and assessments, simplified cost options, reduced administrative burden, and the focus on results. Changing financial rules too often creates uncertainty for recipients of EU funds.

Therefore, the Commission is now proposing **a targeted amendment**, aiming to strike the right balance by focusing on changes that are really necessary. The main reason for this revision is the need to **align the Financial Regulation with the MFF package**, to maintain a **single rulebook** governing the expenditure of the Union, meaning that all general financial rules are included in the Financial Regulation. This will provide greater legal certainty for Union institutions and recipients of Union funds. The proposal also reflects declarations made by the EU institutions in the context of the MFF.

In addition, the proposal includes targeted improvements and simplifications. These have been identified since the entry into force of the 2018 Financial Regulation and some of them respond to recent events and trends. Improvements build on the lessons learned from the COVID-19 pandemic and focus on crisis management. They also aim to better protect EU financial interests (for example by making more use of digitalisation), better contribute to the achievement of the EU policy objectives and to achieve additional simplification for recipients of Union funds.

• Consistency with existing policy provisions in the policy area

This proposal comes after the adoption of the MFF package, to further improve the rules to be used in the implementation of the 2021-2027 programmes and instruments, and beyond.

The proposal reflects certain derogations to the current Financial Regulation that the Union legislator decided during the MFF negotiations, notably on sectoral legislation. Simplifying and improving EU financial rules should also increase the policies' impact and their results on the ground.

2. LEGAL BASIS, SUBSIDIARITY AND PROPORTIONALITY

• Legal basis

The proposal is based on Article 322(1) of the Treaty on the Functioning of the European Union (TFEU).

• Subsidiarity (for non-exclusive competence)

The adoption of EU general financial rules falls under the exclusive competence of the EU.

• Proportionality

This proposal aligns the Financial Regulation with the 2021-2027 MFF package and includes targeted improvements and simplifications. It does not contain rules that would not be necessary to achieve the objectives of the Treaty.

3. RESULTS OF EX-POST EVALUATIONS, STAKEHOLDER CONSULTATIONS AND IMPACT ASSESSMENTS

• Stakeholder consultations

A public consultation on the proposed amendment of the Financial Regulation was held from July to October 2021, receiving 38 contributions. The contributions came from a wide range of stakeholders, including the general public, Member State authorities, international organisations, non-governmental organisations (NGOs) and business associations.

On strengthening the protection of the Union financial interests, most respondents would support additional transparency and protection measures. They considered flexibility and proportionality to be necessary, and saw confidentiality, data protection and consistent use of existing tools as important. Participants generally welcomed possible improvements of the early-detection and exclusion system (EDES). There was general support for the Commission to perform appropriate due diligence to ensure that entrusted entities comply with applicable Union law and agreed international and Union standards. Finally, stakeholders wanted to strengthen the Financial Regulation's role in preventing conflicting professional interests of candidates or tenderers. However, internal guidelines to EU staff could also play a role in this.

The participants in the public consultation agreed on the importance of simplifying and clarifying certain rules on programme implementation to reduce administrative burden. Stakeholders welcomed measures for the following topics: (i) EU security and strategic autonomy; (ii) financial instruments, budgetary guarantees and financial assistance, where there is clear support for streamlining reporting obligations; and (iii) digital controls and audits, where stakeholders acknowledged that human oversight should be maintained.

On crisis management, participants in the consultation encouraged the approach of building on lessons learned from the COVID-19 crisis to improve procurement rules. Stakeholders elaborated on possible changes, for example additional flexibility to conclude contract amendments, the acceptance of electronic documents, and facilitating support to global initiatives and programmes.

The Commission has carefully considered this feedback and reflected most of it in the draft proposal.

- **Impact assessment**

In line with the Commission's statement on future revisions of the Financial Regulation[2], no impact assessment is required. The Financial Regulation provides the general rules and the toolbox for the implementation of EU spending programmes and instruments. Therefore, revisions of the legislation do not have any direct economic, environmental or social impacts which could effectively be analysed in an impact assessment. The value added of impact assessments comes when making policy choices on specific spending programmes and instruments, which have to comply with the regulatory framework provided by the Financial Regulation. Instead, the Commission has carried out a public consultation for this proposal, which is common practice. The Commission has also build on the operational experience and lessons learned, in particular to identify and analyse the issues to be addressed and the added value of Union involvement.

- **Regulatory fitness and simplification**

The revision of the Financial Regulation does not fall under the regulatory fitness and performance programme (REFIT). However, by responding to the need to simplify, improve and align EU financial rules with the 2021-2027 MFF package, the revision contributes significantly to the better regulation agenda. The proposed approach is fully in line with the better regulation framework and the Commission's work on simplification.

For example, the proposal includes a reference to digital audits and emerging technologies to encourage their wider use, while keeping flexibility. The proposal also includes lessons learned from COVID-19 on procurement (e.g. joint procurement, procurement on behalf of the Member States, use of a central purchasing body, multiple sourcing for the same type of goods or services, electronic invoicing and better rules on external experts). It also contains simplification measures for grants (e.g. simplified forms of grants, simpler rules for use of volunteers, simpler calculation to show compliance with the no-profit principle, and simpler process for granting humanitarian aid). The ultimate goal of all these measures is to reduce the administrative burden for applicants and recipients of EU funds, without creating additional risks for the sound financial management of the EU budget.

The proposal does not exempt micro-enterprises from its scope. Such enterprises can be beneficiaries of EU funds and must therefore be subject to the general financial rules. The rules for the 2021-2027 funding period already make it easier for micro-enterprises to participate. For example, the Commission recently used the Financial Regulation's rules on simplified forms of funding to adopt a decision allowing owners of micro-enterprises to declare their staff costs as predefined unit costs under any funding programme, without need to provide evidence for the rates declared. Moreover, in certain areas, the proposal reduces costs for businesses, which are often micro-, small and medium-sized enterprises (MSMEs). The proposal aims to strengthen the implementation of the principle of proportionality by inter alia relying on the due diligence of partners implementing the budget under indirect management. This would enable a more flexible approach to MSMEs. More generally, many of the targeted simplification measures should benefit all enterprises and thus also small to medium-sized enterprises.

- **Fundamental rights**

The proposal complies with the Charter of Fundamental Rights of the European Union.

4. BUDGETARY IMPLICATIONS

The proposal does not have budgetary implications.

5. OTHER ELEMENTS

- **Detailed explanation of the specific provisions of the proposal**

1.1. Alignment with the MFF and simplification

- **Alignment with the MFF (general):** some references to the basic acts of 2021-2027 and other legislation are added to the Financial Regulation. In addition, to ensure smooth implementation of the MFF Regulation[3], certain derogations from the budgetary principles set out in the sectoral basic acts are proposed to be reflected in the Financial Regulation in line with the single rulebook approach (Articles 12, 14, 15 and 18, Article 32(2), Article 41(2), Article 44(1) and (3), Article 48(2), Article 54, Article 96(1) and (2), Article 97(3), Article 106(1), Article 115(3), Article 214(3), Article 250(1)(b) and Article 253(1)(c) of the Financial Regulation). Moreover, to follow up on the joint declaration on the potential inclusion of the content of the General Conditionality Regulation[4], a reference to this Regulation is added under Title II on the principles from which sectoral legislation cannot derogate (Article 6).
- **Borrowing and lending:** the proposal aims to enhance reporting in line with the joint declaration 2020/C 444 I/06[5], in order to increase transparency and facilitate cooperation with the budgetary authority. The proposed amendment streamlines the reporting obligations for borrowing and lending operations. It codifies the current practice by including in the document annexed to the section of the budget relating to the Commission a comprehensive overview of the Commission's borrowing and lending operations (Article 52(1)).
- **Assigned revenue:** the proposal aims to increase the transparency and visibility of external assigned revenue in the documents accompanying the budget, in line with the joint declaration (Article 22(1) and Article 41(3) and (8)). It also aims to facilitate the management of additional contributions (including voluntary ones) from Member States (Article 21(2)), thus avoiding the need to request payments from Member States before actual payment needs arise.
- **Financial instruments and budgetary guarantees:** the proposal aims to enhancing legal clarity by: (i) addressing inconsistencies and redundancies in the current Financial Regulation; (ii) better reflecting the functioning of provisioning and of budgetary guarantees; and (iii) updating relevant rules (Article 2(9), new Article 2(15), new Article 2(33), new Article 212(3), Article 212(5), Article 213(4), Article 221 and Article 223(6), and new Article 213(5)).

3 Council Regulation (EU, Euratom) 2020/2093 of 17 December 2020 laying down the multiannual financial framework for the years 2021 to 2027, (OJ L 433I , 22.12.2020, p. 11).

4 Appendix to the Communication from the Commission to the European Parliament pursuant to Article 294(6) of the Treaty on the Functioning of the European Union concerning the position of the Council on the adoption of a Regulation of the European Parliament and of the Council on a general regime of conditionality for the protection of the Union budget (COM(2020) 843 final).

5 Joint declaration of the European Parliament, the Council and the Commission on reassessing the external assigned revenue and borrowing and lending provisions in the Financial Regulation (2020/C 444 I/06).

- In addition, the proposal streamlines reporting to avoid duplications and inconsistencies. It strengthens reporting obligations in a working document attached to the draft budget and the integrated financial report under Article 253(1). This streamlining also means that current Article 250 must be deleted. Finally, the proposal strengthens Article 218 by moving certain provisions of former Article 41(5) to Article 218. This move makes sure that it is not necessary to prepare two parallel reports on the common provisioning fund with similar content (new Article 41(5)(g), Article 210(3) and Article 218).
- The proposal also clarifies how the provisioning and budgetary guarantees interact with the definitions and rules on budgetary commitments, legal commitments, recipients and publication of information on recipients (Article 2(38) and (58), Article 7(4), Article 10(3), Article 38(3)(c), Article 112(2), Article 113(1)(a), Article 113(4), Article 115(2) and Article 163).

1.2. Crisis management, modernisation and simplification

- **Non-financial donations by EU institutions:** the proposal includes a new instrument reflecting current practice. It will provide a framework for the EU institutions to donate goods, services, supplies or works. It will also provide a stable legal basis in particular for future emergency situations, more transparency, accountability and legal certainty for recipients (Article 2(1), (2), (3), (38), (50) and (58), Article 133, Article 154(3) and new Article 244).
- **Prizes:** similar to the introduction of non-financial donations, the EU institutions should also be able to award prizes which are not financial, such as vouchers, tickets and trips. This is also important for example in order to allow contests among young people who do not have a bank account in their Member State, but who can easily receive their reward in a practical form. The introduction of this possibility requires small modifications in Articles 2(52), 210(4) and 211(1).
- **Procurement and experts**: the proposal adapts the procurement rules that apply in crisis management situations to enable EU institutions or bodies to procure on behalf of Member States or to act as a central purchasing body. This central purchasing body would be able to donate or resell supplies and services to Member States, and launch joint procurement procedures, although the EU institutions would not be acquiring services and supplies for themselves (Article 169(1) and (2), new Article 169(3), and point 11.1(f) and point 12.2(a) of Annex I). The proposal also updates the definition of crisis to include public and animal health, food safety emergency situations and global health threats such as pandemics (Article 2(22)).

  Other simplification measures and technical corrections and updates enable multi-sourcing contracts, correct inconsistencies and omissions, and clarify digitisation of procurement procedures (new Article 2(46), Article 2(76), Article 164(5), Article 168(3), Article 171(1), Article 173(1), Article 174(2) and (3), Article 175, and point 1.2, point 6.2, point 6.3, point 6.4, point 6.6, point 9.3, point 9.4, point 9.5, point 11.1(a) and (c), point 11.1(h)(iv), point 11.1(j) and (m), point 11.2, point 16.3(f) and (g), point 18.1, point 18.7, point 19.2, point 20.2, point 21.1, point 24.3, point 27, point 28.1, point 28.2, new point 29.4, point 30.2, point 31.1, new point 34, point 35.1 and point 39.3 of Annex I).

  The proposals further align the procurement rules of the Financial Regulation with Directive 2014/24/EU on public procurement and Directive 2014/55/EU on electronic invoicing. For example, the proposal clarifies time limits that apply to

dynamic purchasing systems, and includes the possibility to assess – as award criteria – qualifications and experience of staff assigned to perform the contract (Article 117(3), Article 176(2), new Article 176(4) and (5), and Article 179(1)).

The proposal also responds to the need for more flexible rules for Union delegations in third countries, factoring in local market conditions and practices of Member States. Therefore, the threshold for and the rules on market access are aligned with those that currently apply to external action procurement. In addition, Union delegations that award contracts on their own account would be allowed to accept, for example, submission of application documents by hand delivery (Article 153(5)).

It is also proposed to apply the measures taken under the International Procurement Instrument[6] (IPI, not yet adopted) to EU institutions' procurement. Contracting authorities will have to apply IPI measures (in a form of score adjustment to bids received from or an exclusion of economic operators established in certain third countries) in the same manner as contracting authorities and contracting entities of Member States once the IPI Regulation enters into force and IPI measures are adopted and published in the Official Journal – the EU institutions should lead by example and apply the same rules (Article 179(1), new , and point 14 of Annex I).

The proposal responds to the need for simplification of procurement procedures for buildings. Furthermore, the proposal excludes from the scope of the procurement rules of this Regulation the authentication services provided by notaries, includes the possibility of having negotiated procedures without prior publication for services provided by Member State organisations and extends the scope for the use of a negotiated procedure without prior publication of a contract notice following an unsuccessful competitive procedure with negotiation (Article 164 and point 6 of the Annex I).

Under current case-law[7], tenderers have to provide evidence of the selection and exclusion criteria they have used before they take a decision to award a tender. The proposal ensures that the Financial Regulation is aligned with case-law on this (Article 2(51) and point 18.4 of Annex I).

The recitals highlight current rules on green public procurement.

Finally, the proposal makes rules for experts more comprehensive and aligns them with market reality. This would enable Union institutions to compete with remunerations offered by other players on the market when contracting remunerated external experts. New rules would also enable the Commission to use lists of experts for a longer time (Article 242).

- **Grants:** the proposal includes technical updates, simplification, clarifications and corrections. It clarifies rules on simplified forms of grants (Article 184(3) and Article 187) and lays down that the 50% limit for volunteers' costs applies to the total financing of an action (Article 194(2)).

  Moreover, the proposal clarifies that an adversarial procedure is not systematically required to reject a participant from an award procedure (Article 135).

6 Amended proposal for a Regulation of the European Parliament and of the Council on the access of third-country goods and services to the Union's internal market in public procurement and procedures supporting negotiations on access of Union goods and services to the public procurement markets of third countries (COM(2016) 34 final – 2012/0060(COD)).

7 Judgment of 8 July 2020, T-661/18, Securitec v Commission, EU:T:2020:319.

The proposal also simplifies calculations under the no-profit principle (Article 196(4)) and the provision of financial support to third parties for special cases (Article 208, third subparagraph).

To increase transparency, a definition of NGOs is added, while grant applicants would need to declare their legal status and confirm whether they are NGOs (new Article 2(46) and Article 200(1)(a)).

Finally, the definition and use of 'public contracts' under Title VIII are corrected (Article 2(16) and Article 205(1) and (2)).

- **Donations to the EU institutions**: the proposal allows deciding faster whether to accept or reject donations when a rapid reaction is needed, in exceptional circumstances and with appropriate safeguards, where such donations are made for the purposes of humanitarian aid, emergency support, civil protection or crisis management aid (Article 25(3)).

- **Digitalisation:** the proposal supports the Commission's commitment to be digital by default. It increases the efficiency and quality of controls and audits with the help of digitalisation and emerging technologies such as data-mining, machine learning, robotic process automation and artificial intelligence. Giving these aspects more visibility should lead to wider and more consistent use of digital audits and controls. This, in turn, should increase the level of assurance, while decreasing the cost of audits and controls (Article 36, Article 63(4)(a), Article 74(5) and (6), Article 150(1)).

  The proposal also aims to improve the quality and interoperability of data on recipients of Union funding for controls and audits, including through the use of a single integrated IT system for data-mining and risk-scoring (further details under point 3 below).

  Certain rules and procedures on procurement and experts should be amended to reflect progress on digitalisation.

- **Green transition:** this proposal also aims to adjust the Financial Regulation to ensure that budget implementation effectively helps achieve the European Green Deal. To this end, an explicit reference to the do-no-significant-harm principle should be inserted in Article 33(2), in line with the Commission's commitment to sustainable financing and the green transition.

  Furthermore, to facilitate the greening of EU buildings, the possibility to use loans to finance building renovation is inserted in Article 271.

  Finally, when relevant, calls for tenders in public procurement procedures should include green award or selection criteria to incentivise economic operators to offer more sustainable options.

  In line with Article 6(4) of the Climate Law, the Commission considers that the proposals above are consistent with the climate-neutrality objective set out in Article 2(1) of the Climate law, as well as the Union 2030 and 2040 climate targets. These proposals are also consistent with ensuring progress on adaptation, as referred to in Article 5 of the Climate Law, and aligned with the objectives of the Climate law.

1.3. Enhanced protection of the EU's financial interests and indirect management

- **Early-detection and exclusion system:** it is proposed to strengthen the system by better targeting its application to funds under both shared management and direct

management where funds are disbursed as financial contributions to Member States, for instance under the Recovery and Resilience Facility[8]. The objective is to prevent Member State authorities from selecting fraudulent economic operators to carry out projects, and to better protect the Union budget against serious misconduct without waiting for the final outcome of national procedures. On the cross-territorial dimension of the implementation of projects, it is proposed that exclusion of entities and persons at Union level applies to all Union funding for project implementation across all Member States. Such exclusion would be subject to several limitations and safeguards. Its scope would be limited to an exhaustive list of the most serious forms of misconduct (e.g. corruption, fraud, money laundering and terrorism) found in: (i) a final Union audit, a report of the European Anti-Fraud Office (OLAF) or an investigation by the European Public Prosecutor's Office (EPPO); or (ii) a national audit, judgment or administrative decision (Article 138(2), Article 139(1) and Article 145(5)).

In addition to the above, autonomous grounds for exclusion are added, based on the refusal to cooperate in investigations, checks or audits carried out by an authorising officer, OLAF, EPPO or the Court of Auditors and on the incitement to hatred or discrimination (new Article 139(1)(i) and 139(1)(c)(vi), respectively). It is also proposed to explicitly mention the breach of conflict of interest as an autonomous ground of exclusion within the notion of grave professional misconduct (Article 139(1)(c)(iv)). An expedited procedure is proposed for cases whosenature or circumstances require it (new Article 139(6)). The proposal also includes the possibility to exclude beneficial owners and affiliated entities if the requirements to attribute liability are considered fulfilled (new Article 138(2)(h) and (i), Article 139(2) and new Article 139(5)). Other amendments address current shortcomings in the system, for example by creating a legal presumption of notification of the content of adversarial letters and administrative decisions (new Article 138(2)(g), Article 139(1), Article 139(1)(d)(i), Article 139(1)(e), Article 139(7), Article 140(1), Article 143, Article 145(5), Article 146(2), new Article 147, new Article 152(3), Article 152(2)(h), Article 153 and new Article 156(6)).

- **Single integrated IT system for data-mining and risk-scoring:** the proposal aims to improve the quality and interoperability of data on recipients of Union funding and on those ultimately benefitting, directly or indirectly, from Union funding. To effectively prevent, detect, investigate and correct frauds or remedy irregularities, it is necessary to be able to identify the natural persons who are the beneficial owners of the recipients and who ultimately profit from the misuse of Union funding. This is achieved by standardising the electronic recording and storage of data on the recipients of Union funding and their beneficial owners for control and audit purposes. Moreover, there would be an obligation to use a single integrated IT system for data-mining and risk-scoring (provided by the Commission) to access and analyse those data on the recipients of Union funding. This system would considerably facilitate the identification of risks of fraud, corruption, double funding, conflict of interest and other irregularities. The Commission would be responsible for the development, management and supervision of the single integrated IT system for data-mining and risk-scoring (Articles 36, 159 and 275). The rules on the recording,

[8] Regulation (EU) 2021/241 of the European Parliament and of the Council of 12 February 2021 establishing the Recovery and Resilience Facility (OJ L 57, 18.2.2021, p. 17).

storage, transfer and processing of data should comply with applicable data protection rules. Finally, the proposal applies Article 36 to cases where Member States receive and implement Union funding under direct management. The above obligations would apply to programmes adopted under and financed from the post-2027 MFF to allow enough time to adapt electronic data systems and to provide guidance and training. During the transition period, voluntary application will remain possible and will be encouraged. This proposal plays a key role in the actions for digitalisation explained in point 2 above.

- **Transparency:** the proposal aims to improve the information provided to the public on the use of the Union budget and on recipients of Union funding. This is achieved by requiring Member States implementing the Union budget under shared management, entities implementing the Union budget under indirect management, and other Union institutions and bodies to send information to the Commission on their recipients of Union funding at least once a year. The Commission would add to the above information the data it has on direct management and would be responsible for consolidating, centralising and publishing the information in a database on a single website, covering all methods of Union budget implementation, including by other Union institutions and bodies. The resulting single website would be an improved version of the Financial Transparency System currently in use for direct management (Articles 38, 159 and 275). Finally, the proposal applies Article 38 to cases where Member States receive and implement Union funding under direct management. The above obligations would apply to programmes adopted under and financed from the post-2027 MFF, to ensure a smooth transition and adapt electronic data systems.

- **Indirect management:** indirect management relies on the rules, systems and procedures of Union implementing partners to provide adequate protection of the EU's financial interests. The proposal aims to strengthen the application of proportionality as a general principle of law, notably when assessing partners and imposing contractual obligations. This would improve cooperation with Union implementing partners. It is also consistent with the rules recently agreed under the Neighbourhood, Development and International Cooperation Instrument. Unnecessary administrative burden should be avoided, in particular for final recipients that are MSMEs or comparable economic operators with equivalent turnover or balance sheet total. Relevant provisions need to be adjusted, and cross-references need to be updated. As a simplification, the proposal provides for the option to exempt managing authorities under shared management from pillar assessment, as their rules are already assessed under shared management. The current possibility for decentralised agencies to be exempted from pillar assessment would become an exemption by default and would be extended to fully self-financed agencies and CFSP missions. Finally, rules on transparency for recipients of EU funding are changed and technical clarifications are added (Article 62(1), Articles 158 and 159, Article 160(3), new Article 212(3) and Article 212(4)).

- **Union award procedures concerning security or public order:** this proposal aims to lay down specific conditions for the participation of third country entities in Union award procedures that concern security or public order. It also aims to apply these conditions in line with the international obligations of the Union, in particular in the area of public procurement. These rules concern award procedures for all kinds of budget implementation instruments: grants, procurement, prizes, indirect management, etc. (new Article 137).

- **Conflict of interest**: this proposal includes a clarification of the notion of applicable law, which includes national law on conflict of interest (Article 61).
- **Professional conflicting interests** that may negatively affect performance of a procurement contract. Following up on the European Ombudsman's investigation into the award of a contract[9] , it is proposed to add a definition and an explicit ground for rejecting participants from award procedures for such reasons (Article 144). In addition, all tenderers must submit a declaration on honour confirming that they do not have any professional conflicting interests, and provide relevant information when required (point 18.4 of Annex I). Finally, the proposal highlights the contracting authority's obligation to assess whether there are such interests (point 20.1 of Annex I).
- **Member States' assistance in the recovery of EU claims** must be ensured by extending the assistance mechanism already applied between Member States under Directive 2010/24/EU concerning mutual assistance for the recovery of claims relating to taxes, duties and other measures to also cover the Commission. In order to recover EU claims more effectively, the Commission's accounting officer must be able to rely on Member States' assistance to effectively notify debtors and identify debtors' assets (new Article 104).
- **Foreign subsidies:** the Commission proposal for a regulation on foreign subsidies[10] is currently being negotiated. Depending on how the proposals progress, the Financial Regulation may be aligned to that new regulation in the course of the negotiations.

1.4. Miscellaneous simplifications and technical updates

The following technical changes and updates to the Financial Regulation are proposed:

- addressing omissions and wrong cross-references in Article 49(1), Article 71, Article 114(4), Article 154(3), Article 163(4) and Article 253(1)(d) and (f);
- completing the list of working documents in Article 41(3)(e) by a document on building policy;
- amending Article 41(4)(j) to reflect the International Public Sector Accounting Standards;
- adjusting specific commitment rules for the European Agricultural Guarantee Fund in Article 114 to facilitate better alignment with standard accounting practices.This technical change also affects the specific rules for payments made in advance under Article 270 but has no impact on payments to Member States or to beneficiaries;
- inserting technical updates in Article 252 on advanced deadlines for consolidated accounts, and changing the dates for document submission in Article 271;
- updating references to repealed Union legislation.

The following other necessary changes to the Financial Regulation are proposed:

- ensuring an appropriate budgetary treatment and avoiding undue financial strain on the expenditure side of the Union budget, making it possible to deduct interests, and

any other charge due where a fine, other penalty or sanction has been cancelled or the amount has been reduced, including any negative return related to such fines, other penalties or sanctions from the revenue side of the Union budget (negative revenue), while also ensuring an adequate compensation in the event of the reimbursement of provisionally paid fines (Article 48(1) and new Article 48(2), Article 99(4), Article 108(2), Article 109(1), Article 109(2) and Article 109(4)). These changes integrate those already proposed by the Commission, on account of the urgency of the matter, in the stand-alone Commission proposal on the Financial Regulation amendment concerning the treatment of cancelled or reduced competition fines[11];

- simplifying the rules on imprest accounts to address issues encountered by EU delegations (Articles 88 and 89) and on treasury management, notably the use of credit cards and modern payment methods (Article 86).

(2) Following three years of implementation, further amendments should be made to the financial rules applicable to the general budget of the Union (the 'budget') in order to remove bottlenecks in implementation by increasing flexibility, to simplify delivery for the stakeholders and the services, to focus more on results, and to improve accessibility, transparency and accountability. Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council[16] should therefore be repealed and replaced by this Regulation.

(3) In order to reduce the complexity of the financial rules applicable to the budget and to include the relevant rules in one single regulation, the Commission should repeal Delegated Regulation (EU) No 1268/2012[17]. In the interest of clarity, the main rules from Delegated Regulation (EU) No 1268/2012 should be included in this Regulation, while other rules should be included in guidance for services.

(4) This Regulation should provide for the financial rules applicable to the general budget of the Union within the meaning of Article 322 TFEU and does not regulate or affect the implementation of restrictive measures adopted on the basis of the TFEU and the TEU, including in the framework of implementation of the Union budget.

(5) Taking into account the experience gained with the implementation of the financial rules applicable to the general budget of the Union (the 'budget') and following the adoption of Council Regulation (EU, Euratom) 2020/2093[18] which laid down the Multiannual Financial Framework from 2021 to 2027, certain targeted amendments should be made in order to align the general financial rules to the new legal framework, adapt them to the needs of efficient crisis management and enhance the protection of the Union's financial interests. Furthermore, targeted simplifications, technical updates and corrections should be made.

(6) Following the adoption of the Multiannual Financial Framework for 2021 to 2027, the references to basic acts, to Decision (EU, Euratom) 2020/2053[19], to Council Regulation (EU, Euratom) 2021/768 and to the Interinstitutional Agreement of 16

(8) In the interest of legal certainty, a number of cross-references should be corrected.

(9) It is necessary to better reflect the specific nature and functioning of the provisioning of financial liabilities and of the budgetary guarantees. Certain definitions and rules on budgetary guarantees, budgetary commitments, legal commitments, payment appropriations, recipients and publication of information on recipients should therefore be adjusted. A definition of the constitution phase of the provisioning of financial liabilities should be added. Additionally, definitions should be updated to reflect in particular amendments to procurement rules and the introduction of rules on non-financial donations.

(10) In order to enhance transparency on recipients of Union funds which are non-governmental organisations, there should be a definition of non-governmental organisations providing for criteria to identify them and grant applicants should declare their legal status, including whether they are non-governmental organisations.

(17) In the interest of simplification and in order to align better the timing of contributions from Member States with the corresponding payment needs, all additional financial contributions from Member States to Union's actions and programmes, including voluntary contributions, should be subject to the same treatment and be considered as external assigned revenue.

(18) In order to increase transparency in the presentation of assigned revenue, detailed information on the estimated amount of the external assigned revenue to be received, and the foreseen allocation to the relevant budget lines should be provided in an annex, which forms an integral part of the budget.

(19) The rules on transfers subject to special provisions should be updated to take into account the Solidarity and Emergency Aid Reserve established pursuant to Regulation (EU, Euratom) 2020/2093. In addition, adjustments should be made in order to reflect that draft amending budgets are no longer required for the mobilisation of the Solidarity and Emergency Aid Reserve.

(21) In order to allow a rapid reaction in exceptional circumstances, the Commission should be able to accept in-kind donations, irrespective of their value, where such donations are made for the purposes of humanitarian aid, emergency support, civil protection or crisis management aid. In order to ensure appropriate safeguards, the Commission should only accept such donations where acceptance is in accordance with the principles of sound financial management and transparency, does not give rise to conflicts of interest and does not harm the image of the Union. The donor should not be, at the moment of acceptance, in one of the exclusion situations under the early-detection and exclusion system and should not be registered as excluded in the corresponding database.

(22) A provision should be introduced to allow for in-kind sponsorship by a legal person of an event or activity for promotional or corporate social responsibility purposes.

↓ 2018/1046 recital 9

(23) The concept of performance as regards the budget should be clarified. Performance should be linked to the direct application of the principle of sound financial management. The principle of sound financial management should also be defined, and a link should be established between objectives set and performance indicators, results and economy, efficiency and effectiveness in the use of appropriations. For reasons of legal certainty, while avoiding conflicts with existing performance frameworks of the different programmes, performance terminology, in particular output and results, should be defined.

(24) Considering the importance of addressing climate and environmental challenges and in order to ensure that budget implementation contributes to the achievement of the European Green Deal[30], the concept of performance as regards the budget should be extended to include the implementation of programmes and activities in a sustainable way, which would not hinder the achievement of the environmental objectives of climate change mitigation, climate change adaptation, the sustainable use and protection of water and marine resources, the transition to a circular economy, pollution prevention and control and the protection and restoration of biodiversity and ecosystems.

(25) In accordance with the Interinstitutional Agreement of 13 April 2016 on Better Law-Making[31], Union legislation should be of high quality and should focus on areas where it has the greatest added value for citizens and is as efficient and effective as possible in delivering the common policy objectives of the Union. Making existing and new spending programmes and activities entailing significant spending subject to evaluation can help achieve those objectives.

(26) In order to implement the Commission's commitment to be digital by default and to foster more efficient and qualitative controls and audits by increasing the level of assurance while decreasing the cost, it is appropriate to introduce an explicit reference to the use of digital tools and emerging technologies such as machine learning, robotic process automation, data-mining and artificial intelligence.

(27) In order to enhance the protection of the Union budget against fraud, corruption, conflicts of interest, double funding and other irregularities, standardised measures to collect, compare and aggregate information on the recipients of Union funding should be introduced. In particular, in order to effectively prevent, detect, investigate and correct frauds or remedy irregularities, it is necessary to be able to identify the natural persons that ultimately benefit, directly or indirectly, from Union funding and who ultimately profit from the misuse of EU funding. The electronic recording and storage of data on the recipients of Union funding, including their beneficial owners as defined in Article 3, point (6), of Directive (EU) 2015/849 of the European Parliament and of the Council[32] and the regular making of those data available in a single integrated IT system for data-mining and risk-scoring provided by the Commission, should facilitate risk assessment for the purposes of selection, award, financial management, monitoring, investigation, control and audit and contribute to effective prevention, detection, correction and follow-up of fraud, corruption, conflicts of interest, double funding and other irregularities. The Commission should be responsible for the development, management and supervision of the single integrated IT system for data-mining and risk-scoring. The Commission, the Member States, the persons or entities implementing the budget, the European Anti-Fraud Office ('OLAF') and other Union investigative and control bodies should have the necessary access to those data within the exercise of their respective competences. The rules related to the recording, storage, transfer and processing of data should comply with applicable data protection rules.

🡻 2018/1046 recital 11

(28) In accordance with the principle of transparency enshrined in Article 15 of the Treaty on the Functioning of the European Union (TFEU), Union institutions are to conduct their work as openly as possible. With regard to budget implementation, the application of that principle implies that citizens should know where, and for what purpose, funds are spent by the Union. Such information fosters democratic debate, contributes to the participation of citizens in the Union's decision-making process, reinforces institutional control and scrutiny over Union expenditure, and contributes to boosting its credibility. Communication should be more targeted and should aim to increase the visibility of the Union contribution for citizens. Such objectives should be achieved by the publication, preferably using modern communication tools, of relevant information concerning all recipients of funds financed from the budget which takes

into account those recipients' legitimate interests of confidentiality and security and, as far as natural persons are concerned, their right to privacy and the protection of their personal data. Union institutions should therefore adopt a selective approach in the publication of information, in accordance with the principle of proportionality. Decisions to publish should be based on relevant criteria in order to provide meaningful information.

↓ 2018/1046 recital 12 (adapted)
⇨ new

(29) Without prejudice to the rules on the protection of personal data, the utmost transparency regarding information on recipients should be sought. The information on recipients of Union funds ~~implemented under direct management~~ should be published on a dedicated website of Union institutions, such as the Financial Transparency System~~.~~ ~~and~~ ⇨ Publication requirements should cover all methods of budget implementation, including by other Union institutions and bodies. To that end, Member States, persons and entities implementing the budget and other Union institutions and bodies should transmit to the Commission, at least on a yearly basis, information on their recipients of Union funding. That information ⇦ should include at least the name ⇨ , a unique identifier ⇦ and the locality of the recipient, the amount ~~legally~~ committed and the purpose of the measure. That information should take into account relevant criteria such as the periodicity, the type and the importance of the measure.

↓ 2018/1046 recital 13

(30) It should be possible for the Commission to implement the budget indirectly through Member State organisations. For reasons of legal certainty, it is therefore appropriate to define a Member State organisation as an entity established in a Member State as a public-law body, or as a body governed by private law entrusted with a public-service mission and provided with adequate financial guarantees by that Member State. Financial backing provided to such private-law bodies by a Member State in accordance with existing requirements set out in Union law, in a form decided by that Member State and not necessarily requiring a bank guarantee, should be considered as adequate financial guarantees.

↓ 2018/1046 recital 14

~~For prizes, grants and contracts awarded following the opening-up of a public procedure to competition, and in particular for contests, calls for proposals and calls for tenders, in order to respect the principles of the TFEU and in particular the principles of transparency, proportionality, equal treatment and non-discrimination, the name and locality of the recipients of Union funds should be published. Such publication should contribute to the control of the award procedures by the unsuccessful applicants in the competition.~~

↓ 2018/1046 recital 15

(31) Personal data referring to natural persons should not be publicly available for longer than the period during which the funds are being used by the recipient and should therefore be removed after two years. ~~The same should apply to personal data referring to legal persons whose official name identifies one or more natural persons.~~

↓ 2018/1046 recital 16

(32) In most of the cases covered by this Regulation, the publication concerns legal persons. Where natural persons are concerned, the publication of personal data should respect the principle of proportionality between the importance of the amount granted and the need to control the best use of the funds. In such cases, the publication of the region on level 2 of the common classification of territorial units for statistics (NUTS) is consistent with the objective of publication of information on recipients and ensures equal treatment between Member States of different sizes while respecting the recipients' right to private life and, in particular, the protection of their personal data.

(33) For reasons of legal certainty and in accordance with the principle of proportionality, the situations in which publication should not take place should be specified. For example, information should not be published with regard to scholarships or other forms of direct support paid to natural persons most in need, to certain contracts with a very low value or to financial support below a certain threshold provided through financial instruments ⇨ or budgetary guarantees ⇦ , or in cases where disclosure risks threatening the rights and freedoms of the individuals concerned as protected by the Charter of Fundamental Rights of the European Union or causing harm to the commercial interests of the recipients. For grants, however, there should be no special exemption from the obligation to publish information on the basis of a specific threshold, in order to maintain the current practice and to allow for transparency.

↓ 2018/1046 recital 18

(34) Where personal data of recipients is published for the purposes of transparency in relation to the use of Union funds and the control of award procedures, those recipients should be informed of such publication, as well as of their rights and the procedures applicable for exercising those rights, in accordance with Regulations (EU) 2018/1725 ~~(EC) No 45/2001~~[33] and (EU) 2016/679[34] of the European Parliament and of the Council.

(42) It is necessary to allow deducting from the revenue of the general budget of the Union any interest or other charge due, on the amounts of cancelled or reduced fines, other penalties or sanctions, including any negative return related to those amounts. In order to comply with the general principle of restoration to the prior state (restitutio in integrum) applicable to fines, other penalties or sanctions imposed by Union institutions that are later cancelled or reduced by the Court of Justice, it is necessary to provide that any negative return on the provisionally collected amount of such fines, other penalties or sanctions imposed by Union institutions is not deducted from the amount to be repaid. To compensate for the loss of enjoyment of monies from the date the undertaking provisionally paid the fine to the Commission until the date of repayment, the amount to be repaid should be increased by an interest at the rate applied by the European Central Bank to its principal refinancing operations increased by one and a half percentage points as an adequate compensation for the undertaking in such situations, which excludes the need to apply any other interest rate on that amount. Furthermore, that rate corresponds to the interest rate applicable in relation to the debtor when the debtor chooses to defer the payment of a fine, another penalty or a sanction, and provides a financial guarantee instead of payment. In order to secure sufficient cash flow to compensate the concerned third parties for the loss of enjoyment of monies in the cases referred to in Article 109(4), it is necessary to allow for the amounts received by way of fines, other penalties or sanctions and any accrued interest or other income generated by them to be entered in the budget by the end of the following financial year.

(43) In view of the increased volume of borrowing and lending operations carried out by the Commission on behalf of the Union to finance the recovery from the COVID-19 pandemic, transparency regarding those operations should be further enhanced. To address the increased complexity of those operations and in order to ensure better visibility of their content, a comprehensive overview of borrowing and lending operations carried out by the Commission should be added to the document annexed to the section of the budget relating to the Commission.

European offices should also have the possibility to conclude service-level agreements for the provision of services, supply of products or execution of works or of building contracts. It is appropriate to set out specific rules for the drawing-up of accounting records, provisions authorising the accounting officer of the Commission to delegate some of his or her tasks to staff in those offices and operating procedures for bank accounts which the Commission should be able to open in the name of a European office.

↓ 2018/1046 recital 25

(48) In order to improve the cost-effectiveness of executive agencies and in light of the practical experience gained with other Union bodies, it should be possible to entrust

the accounting officer of the Commission with all or part of the tasks of the accounting officer of the executive agency concerned.

↓ 2018/1046 recital 26

(49) For reasons of legal certainty, it is necessary to clarify that directors of executive agencies act as authorising officers by delegation when managing operational appropriations of programmes delegated to their agencies. To achieve the full effect of efficiency gains resulting from a global centralisation of certain support services, the possibility for executive agencies to implement administrative expenditure should be explicitly provided for.

↓ 2018/1046 recital 27

(50) It is necessary to establish rules on the powers and responsibilities of financial actors, in particular authorising officers and accounting officers.

↓ 2018/1046 recital 28

(51) The European Parliament, the Council, the Court of Auditors and the accounting officer of the Commission should be informed of the appointment or termination of the duties of an authorising officer by delegation, internal auditor and accounting officer within two weeks of such appointment or termination.

↓ 2018/1046 recital 29

(52) Authorising officers should be fully responsible for all revenue and expenditure operations executed under their authority, and for internal control systems, and should be held accountable for their actions, including, where necessary, through disciplinary proceedings.

↓ 2018/1046 recital 30

(53) The tasks, responsibilities and principles of the procedures to be observed by the authorising officers should also be laid down. Authorising officers by delegation should ensure that the authorising officers by subdelegation and their staff receive information and training concerning the control standards and the respective methods and techniques and that measures are taken in order to ensure the functioning of the control system. The authorising officer by delegation should report to his or her Union institution on the performance of the duties in the form of an annual report. That report should include the required financial and management information to support that officer's declaration of assurance on the performance of his or her duties, including the information on the overall performance of the operations carried out. The supporting documents relating to the operations carried out should be kept for at least five years. The various forms of negotiated procedure for the award of public contracts should be

the subject of a special report from the authorising officer by delegation to the Union institution concerned and of a report from that Union institution to the European Parliament and to the Council, since those procedures represent derogations from the usual award procedures.

↓ 2018/1046 recital 31

(54) The double role of Heads of Union delegations, and of their deputies in their absence, as authorising officers by subdelegation for the European External Action Service (EEAS) and, as regards operational appropriations, for the Commission should be taken into account.

↓ 2018/1046 recital 32

(55) The delegation of powers of budget implementation by the Commission concerning the operational appropriations of its own section of the budget to the deputy Heads of Union delegations should be restricted to situations where the performance of those tasks by the deputy Heads of Union delegations is strictly necessary in order to ensure business continuity during the absence of Heads of Union delegations. The deputy Heads of Union delegations should not be allowed to exercise those powers on a systematic basis or for reasons of internal work division.

↓ 2018/1046 recital 33

(56) The accounting officer should be responsible for the proper implementation of payments, the collection of revenue and the recovery of amounts receivable. The accounting officer should manage the treasury, bank accounts and third-party files, keep the accounts and be responsible for drawing up the financial statements of Union institutions. The accounting officer of the Commission should be the only person who is entitled to lay down the accounting rules and the harmonised charts of accounts, while the accounting officers of all other Union institutions should lay down accounting procedures applicable in their institutions.

↓ 2018/1046 recital 34

(57) The arrangements for the appointment and termination of the duties of the accounting officer should also be established.

↓ 2018/1046 recital 35

(58) The accounting officer should set up procedures to ensure that the accounts opened for the requirements of treasury management and imprest accounts are not in debit.

⇩ new

(59) It is appropriate to align the means of payment authorised for treasury management with modern payment methods, including credit cards and electronic wallets.

(60) Considering that payments by Union delegations through the standard rules for budgetary, treasury and accounting operations ("budgetary procedures") are increasingly executed through the central treasury and, as a consequence, the number of transactions and the amounts paid through imprest accounts decrease, it is appropriate to simplify the rules on the creation, administration and control of imprest accounts.

🡻 2018/1046 recital 36

(61) The conditions for the use of imprest accounts, a system of management which constitutes an exception to normal budgetary procedures and only concerns limited amounts, should be laid down, and the tasks and responsibilities of the imprest administrators, as well as those of the authorising officer and the accounting officer in connection with the control of imprest accounts, should be set out. ~~The Court of Auditors should be informed of any appointment of an imprest administrator.~~ For reasons of efficiency, imprest accounts should be set up in Union delegations for appropriations from both the sections of the budget relating to the Commission and to the EEAS. It is also appropriate to allow, under specific conditions, for the use of imprest accounts in the Union delegation for payments of limited amounts by budgetary procedures. As regards the appointment of imprest administrators, it should be possible to select them also from personnel employed by the Commission in the field of crisis-management aid and humanitarian aid operations whenever there is no available Commission staff covered by the Staff Regulations of Officials of the European Union and the Conditions of Employment of Other Servants of the Union, laid down in Council Regulation (EEC, Euratom, ECSC) No 259/68[36] ('Staff Regulations').

🡻 2018/1046 recital 37

(62) In order to take into account the situation in the field of crisis-management aid and humanitarian aid operations whenever there are no Commission staff covered by the Staff Regulations available and the technical difficulties to have all legal commitments signed by the authorising officer responsible, it should be allowed for the personnel employed by the Commission in that field to enter into legal commitments of a very low value up to EUR 2500 which are linked to the payments executed from imprest accounts, and for Heads of Union delegations or their deputies to enter into legal commitments on the instruction of the authorising officer responsible of the Commission.

↓ 2018/1046 recital 38

(63) Once the tasks and responsibilities of financial actors have been defined, it is only possible to hold them liable under the conditions laid down in the Staff Regulations. Specialised financial irregularities panels have been set up in Union institutions pursuant to Regulation (EU, Euratom) No 966/2012. However, due to the limited number of cases submitted to them and for reasons of efficiency, it is appropriate to transfer their functions to an interinstitutional panel established pursuant to this Regulation ('the panel'). The panel should be set up to assess requests and issue recommendations on the need to take decisions on exclusion and imposition of financial penalties referred to it by the Commission or other Union institutions and bodies, without prejudice to their administrative autonomy in respect of members of their staff. That transfer also aims to avoid duplication and to mitigate the risks of contradictory recommendations or opinions, in cases where both an economic operator and a member of staff of a Union institution or body are involved. It is necessary to maintain the procedure by which it is possible for an authorising officer to seek confirmation of an instruction which that officer considers to be irregular or contrary to the principle of sound financial management, and thus be released from any liability. The composition of the panel should be modified when it fulfils this role. The panel should have no investigative powers.

(72) In order to ensure sound financial management and to guarantee the efficient recovery of Union claims, it is necessary for the accounting officer of the Commission to be able to rely on the assistance from Member States for the notification and recovery of Union claims. Such assistance should be conducted in a similar way to the one between Member States for the notification and recovery of their claims pursuant to Council Directive 2010/24/EU[41]. The purpose of the assistance should not only be to allow to recover whenever the debtor has sizeable assets, but also to provide sufficient and reliable information to the accounting officer in cases of insolvency of the debtor so that a waiver decision to waive a recovery, can be adopted in cases where the debtor is insolvent or cannot be located. The assistance regarding notification to the debtor by the Member State should be done in accordance with the applicable national procedures. It should include not only the enforceable decisions pursuant to Article 299 of the Treaty on the Functioning of the European Union (TFEU) but also the preparatory acts prior to the adoption of such a decision, including the notification of debit notes, reminders and letters of formal notice and precautionary measures to safeguard the rights of the Union in cases where enforceable decisions have been adopted but either have not yet been notified or are waiting for the order for its enforcement to be appended pursuant to Article 299 TFEU. The details of such assistance should be laid down in an agreement between the Commission and Member States either bilaterally or multilaterally. Nevertheless, the obligation to provide such assistance shall exist even if no such agreement is signed.

(73) In order to secure the management of assets whilst also aiming at yielding a positive return, it is necessary to have amounts relating to fines, other penalties or sanctions imposed under the TFEU or the Euratom Treaty, such as competition fines which are being contested, provisionally collected and invested in financial assets, and to determine the assignment of the return on them. Since the Commission is not the only Union institution which is entitled to impose fines, other penalties or sanctions, it is necessary to lay down provisions concerning such fines, other penalties or sanctions imposed by other Union institutions and to lay down rules for their recovery which should be equivalent to those applicable to the Commission.

(74) In order to ensure that the Commission has all the necessary information for the adoption of financing decisions, it is necessary to lay down the minimum requirements for the contents of financing decisions on grants, procurement, Union trust funds for external actions ('Union trust funds'), prizes, financial instruments, blending facilities or platforms and budgetary guarantees. At the same time, in order to give a longer-term perspective to the potential recipients, it is necessary to allow for financing decisions to be adopted for more than one financial year while specifying that the implementation is subject to the availability of budget appropriations for the respective financial years. Furthermore, it is necessary to reduce the number of the elements required for the financing decision. In line with the aim of simplification, the financing decision should at the same time constitute an annual or multiannual work programme. Since contributions to the Union bodies referred to in Articles 70 and 71 are already established in the budget, there should be no requirement to adopt a specific financing decision in that respect.

🡻 2018/1046 recital 49

(75) As regards expenditure, the relationship between financing decisions, global budgetary commitments and individual budgetary commitments as well as the concepts of budgetary and legal commitment should be clarified in order to establish a clear framework for the different stages of budget implementation.

🡻 2018/1046 recital 50

(76) In order to take into account in particular the number of legal commitments entered into by Union delegations and Union representations and the exchange-rate fluctuations experienced by them, provisional budgetary commitments should be possible also in cases where the final payee and the amount are known.

⇩ new

(77) In order to align the European Agricultural Guarantee Fund (EAGF) with the general accounting and budgetary procedures as soon as it is technically possible, it should be allowed to proceed with individual budgetary commitments to make the payments, without the need to first make a global provisional commitment to make the payments followed by individual commitments within a period of up to two months, or, under certain conditions, a longer period. Furthermore, to be able to proceed with individual budgetary commitments and payments for the first month of the financial year in December, routine management expenditure for the EAGF should be added to the types of expenditure for which payments made in advance are authorised.

↓ 2018/1046 recital 51

(78) As regards the typology of payments which it is possible for authorising officers to make, clarification of the various types of payments should be provided, in accordance with the principle of sound financial management. The rules for clearing of pre-financing payments should further be clarified, in particular for situations where no interim clearing is possible. To that effect, appropriate provisions should be included in legal commitments entered into.

↓ 2018/1046 recital 52

(79) This Regulation should stipulate that payments are to be made within specified time limits and that, in the event of failure to respect such time limits, creditors will be entitled to default interests to be charged to the budget, except in the case of Member States, the European Investment Bank (EIB) and the European Investment Fund (EIF).

(80) The core elements of electronic invoices in public procurement should be based on the rules set out in Directive 2014/55/EU.

(81) For the sake of clarity, the definition of unsuitable tenders in public procurement should be revised to include tenders where the economic operator does not have access to procurement referred to in Articles 180,181 and 183.

(82) It is necessary to clarify that specific contracts under framework contracts concluded with a single economic operator may be awarded and modified within the limits of the terms foreseen in the framework contract.

(83) In order to take account of the specific characteristics of the real estate market and to simplify procurement procedures for buildings, the requirement of having a minimum number of candidates participating in the procedures should be removed.

(84) Considering that the *ex ante* publicity measures are the same for open, restricted and competitive procedures with negotiation, the use of a negotiated procedure without prior publication of a contract notice following an unsuccessful competitive procedure with negotiation should be allowed under certain conditions.

(85) It is necessary to exclude from the scope of the procurement rules of this Regulation the document certification and authentication services provided by notaries, provided that the procedures governing these services in the Member State concerned are not open to competition.

(86) It is appropriate to provide for the possibility of having negotiated procedures without prior publication for services provided by Member State organisations which cannot participate in competitive procedures.

(87) In order to ensure compliance with the case law of the Court of Justice (judgment of the General Court in Case T-661/18, *Securitec v Commission*), the authorising officer should request the evidence for exclusion and selection criteria to be submitted before the award decision.

↓ 2018/1046 recital 53

(88) It is appropriate to integrate the provisions concerning validation and authorisation of expenditure in one article and to introduce a definition of 'decommitments'. Since the transactions are carried out in computerised systems, the signing of a 'passed for payment' voucher in order to express the validation decision should be replaced by an electronically secured signature, except in a limited number of cases. It is also necessary to clarify that the validation of expenditure applies to all eligible costs, including, as is the case for the clearing of pre-financing, costs which are not associated with a payment request.

↓ 2018/1046 recital 54

(89) In order to reduce complexity, streamline existing rules and improve the readability of this Regulation, rules common to more than one budget implementation instrument should be established. For those reasons, certain provisions should be regrouped, the wording and scope of other provisions should be aligned and unnecessary repetitions and cross-referencing should be removed.

↓ 2018/1046 recital 55

(90) Each Union institution should establish an internal audit progress committee tasked with ensuring the independence of the internal auditor, monitoring the quality of the internal audit work and ensuring that internal and external audit recommendations are properly taken into account and followed up by its services. The composition of that internal audit progress committee should be decided by each Union institution, taking into account its organisational autonomy and the importance of independent expert advice.

↓ 2018/1046 recital 56

(91) More emphasis should be put on performance and results of projects financed from the budget. It is thus appropriate to define an additional form of financing not linked to costs of the relevant operations in addition to the forms of Union contribution already well established (reimbursement of the eligible costs actually incurred, unit cost, lump sums and flat-rate financing). The additional form of financing should be based on the fulfilment of certain conditions *ex ante* or on the achievement of results measured by reference to previously set milestones or through performance indicators.

↓ 2018/1046 recital 57

(92) Where the Commission carries out assessments of the operational and financial capacity of recipients of Union funds or of their systems and procedures, it should be able to rely on the assessments already conducted by itself, other entities or donors such as national agencies and international organisations, in order to avoid duplicating

assessments of the same recipients. The possibility for cross-reliance on assessments conducted by other entities should be used where such assessments were made in compliance with conditions equivalent to those set out in this Regulation for the applicable method of implementation. Therefore, in order to foster cross-reliance on assessments among donors, the Commission should promote the recognition of internationally accepted standards or international best practices.

↓ 2018/1046 recital 58

(93) It is also important to avoid situations in which recipients of Union funds are audited several times by different entities on the use of those funds. It should therefore be possible to rely on audits already carried out by independent auditors provided that there is sufficient evidence of their competence and independence and provided that the audit work is based on internationally accepted audit standards providing reasonable assurance, and that they have been conducted on the financial statements and reports setting out the use of the Union contribution. Such audits should then form the basis of the overall assurance on the use of Union funds. To that end, it is important to ensure that the report of the independent auditor and the related audit documentation is made available on request to the European Parliament, the Commission, the Court of Auditors and the audit authorities of Member States.

↓ 2018/1046 recital 59

(94) For the purpose of relying on assessments and audits and in order to reduce the administrative burden on persons and entities receiving Union funds, it is important to ensure that any information already available at Union institutions, managing authorities or other bodies and entities implementing Union funds, is reused to avoid multiple requests to recipients or beneficiaries.

↓ 2018/1046 recital 60

(95) In order to provide for a long-term cooperation mechanism with recipients, the possibility of signing financial framework partnership agreements should be provided for. Financial framework partnerships should be implemented through grants or through contribution agreements with persons and entities implementing Union funds. For that purpose, the minimum content of such contribution agreements should be specified. Financial framework partnerships should not unduly restrict access to Union funding.

↓ 2018/1046 recital 61

(96) The conditions and procedures for suspending, terminating or reducing a Union contribution should be harmonised across the different budget implementation instruments such as grants, procurement, indirect management, prizes, etc. The grounds for such suspension, termination or reduction should be defined.

↓ 2018/1046 recital 62

(97) This Regulation should establish standard periods for which documents relating to Union contributions should be kept by recipients so as to avoid divergent or disproportionate contractual requirements while still providing the Commission, the Court of Auditors and the European Anti-Fraud Office (OLAF) with sufficient time to obtain access to such data and documents and perform the *ex post* checks and audits. In addition, any person or entity receiving Union funds should be obliged to cooperate in the protection of the financial interests of the Union.

↓ 2018/1046 recital 63

(98) In order to provide adequate information to participants and recipients and to ensure that they have the possibility to exercise their right of defence, participants and recipients should be allowed to submit their observations before adoption of any measure adversely affecting their rights and they should be informed of the means of redress available to them for challenging such a measure.

⇩ new

(99) In the context of an award procedure, it is not necessary for the authorising officer responsible to provide an opportunity to a participant to submit observations where that participant has been rejected from an award procedure. In order to ensure legal certainty, this should also be specified in the provision on adversarial procedures and means of redress.

(100) Considering the increasingly challenging geopolitical environment with rapidly evolving hybrid and cyber threats, as well as the need for a digital transformation with its inherent exposure to technical vulnerabilities, the Union needs to ensure the protection of the security and the public order of the Union or its Member States, as reflected in public policy and law. This concerns the preservation of fundamental interests of society such as ensuring the security of energy supply, combating organized crime and fraud. Whilst respecting any international agreements of the Union, the award of Union funds in relation to strategic assets and interests, such as digital or space infrastructure, communication and information systems and services, may require the application of specific conditions to ensure such protection including for the integrity of communication and information systems, and related supply chains. The types of conditions and requirements for applying them should be clarified.

↓ 2018/1046 recital 64

(101) In order to protect the financial interests of the Union, a single early-detection and exclusion system should be set up by the Commission.

↓ 2018/1046 recital 65

(102) The early-detection and exclusion system should apply to participants, recipients, entities on whose capacity the candidate or tenderer intends to rely, subcontractors of a contractor, any person or entity receiving Union funds where the budget is implemented under indirect management, any person or entity receiving Union funds under financial instruments implemented under direct management, participants or recipients on which entities implementing the budget under shared management have provided information, and sponsors.

⇩ new

(103) In order to enhance the protection of the Union financial interests the early-detection and exclusion system should be reinforced. It is important to avoid that a person or entity in an exclusion situation is able to apply to, or to be selected for implementing funds, or to receive such funds under a programme in shared management. Where there is a final judgment or a final administrative decision, the authorising officer responsible should be able to exclude a person or entity, provided that the latter is in an exclusion situation and deemed as not reliable by having engaged in certain serious misconducts referred to in Article 139(1). In the absence of a final judgment or a final administrative decision, the authorising officer responsible should be able to exclude, on the basis of a preliminary classification in law made by the panel referred to in Article 146, having regard to facts and findings established in the context of audits or investigations carried out by European Anti-fraud Office (OLAF), European Public Prosecutor Office (EPPO), the European Court of Auditors (ECA) or any other check, audit or control performed under the responsibility of the authorising officer. Such exclusion should be registered in the early-detection and exclusion system database established under Article 138(1). Member States' authorities should take it into account by rejecting such persons or entities from being selected to implement Union funds or from receiving such funds. Payment applications from Member States under shared management, including expenditure related to a person or entity that has been excluded, should not be reimbursed. Where funds are disbursed to Member States under performance-based frameworks, specific rules shall apply, as set out in sector-specific legislation.

(104) It is important to underline that the EDES system should only apply in respect of Union funds disbursed to the Member States under direct management, such as those under Regulation (EU) 2021/241 of the European Parliament and of the Council[42], where Member States have the responsibility to take all the appropriate measures to protect the financial interests of the Union, to the extent that the Commission has relevant responsibilities under the respective legal framework and with due regard to the *sui generis* nature of the funds. Therefore, the responsibilities of the Commission should be limited to the obligation to refer a case to the panel for the purpose of excluding a person or entity if the authorising officer becomes aware of serious misconducts through final judgments and administrative decisions or facts and

[42] Regulation (EU) 2021/241 of the European Parliament and of the Council of 12 February 2021 establishing the Recovery and Resilience Facility (OJ L 57, 18.2.2021, p. 17).

findings established in the context of audits or investigations carried out concerning those funds by the European Anti-fraud Office (OLAF), the European Public Prosecutor Office (EPPO), the European Court of Auditors (ECA) or any other check, audit, or control performed under the responsibility of the authorising officer. Without prejudice to these responsibilities of the Commission, the Member States remain responsible to verify the information on decisions of exclusion registered in the EDES database, to enforce such decisions and to ensure that no payment application is submitted related to a person or entity that is in such an exclusion situation.

↓ 2018/1046 recital 66

(105) It should be clarified that, where a decision to register a person or entity in the early-detection and exclusion system database is taken on the basis of an exclusion situation relating to a natural or legal person that is a member of the administrative, management or supervisory body of that person or entity, or that has powers of representation, decision or control with regard to that person or entity, or to a natural or legal person that assumes unlimited liability for the debts of that person or entity or to a natural person who is essential for the award or for the implementation of the legal commitment, the information registered in the database is to include the information concerning those persons.

↓ 2018/1046 recital 67

(106) The decision on the exclusion of a person or entity from participation in award procedures or the imposition of a financial penalty on a person or entity and the decision on the publication of the related information should be taken by the authorising officers responsible, in light of their autonomy in administrative matters. In the absence of a final judgment or final administrative decision and in cases related to a serious breach of contract, the authorising officers responsible should take their decision on the basis of a preliminary classification in law, having regard to the recommendation of the panel. The panel should also assess the duration of an exclusion in cases where the duration has not been set by the final judgment or the final administrative decision.

↓ 2018/1046 recital 68

(107) The role of the panel should be to ensure the coherent operation of the exclusion system. The panel should be composed of a standing chair, two representatives of the Commission and a representative of the requesting authorising officer.

⇩ new

(108) In order to align the early-detection and exclusion system to public procurement rules and to enhance its effectiveness, attempting to influence the award of Union funds or unduly obtaining Union funds including in relation to conflicts of interests should be explicitly included as a specific situation of exclusion under the ground of grave

professional misconduct with a proportionate penalty, consistent with the seriousness of the misconduct.

(109) Having due regard to the principle of proportionality, the authorising officer responsible should exclude a person or entity when it has shown lack of integrity by having engaged in any wrongful conduct that is incompatible with the values enshrined in Article 2 of the Treaty on European Union and the Charter of fundamental rights of the European Union, such as incitement to discrimination, hatred or violence against a group of persons or a member of a group, where the conduct may negatively affect the performance of the contract.

(110) An autonomous ground of exclusion with a proportionate penalty, consistent with the seriousness of the misconduct, should be added in the case of unjustified lack of cooperation in the context of investigations, checks or audits carried out by an authorising officer, OLAF, EPPO or the European Court of Auditors as this may have severe implications on the protection of the Union's financial interests.

↓ 2018/1046 recital 69

(111) The preliminary classification in law does not prejudge the final assessment of the conduct of the person or entity concerned by the competent authorities of Member States under national law. (113) When taking a decision on the exclusion of a person or entity, or the imposition of a financial penalty on a person or entity, and on the publication of the related

information, the authorising officer responsible should ensure compliance with the principle of proportionality, in particular by taking into account the seriousness of the situation, its budgetary impact, the time which has elapsed since the relevant conduct, the duration of the conduct and its recurrence, whether the conduct was intentional or the degree of negligence shown and the degree of collaboration of the person or entity with the relevant competent authority and the contribution of that person or entity to the investigation.

↓ 2018/1046 recital 72

(114) The authorising officer responsible should also be able to exclude a person or entity where a natural or legal person assuming unlimited liability for the debts of the economic operator is bankrupt or in a similar situation of insolvency or where that natural or legal person fails to comply with its obligations to pay social security contributions or taxes, where such situations have an impact on the financial situation of that economic operator.

(115) In order to further enhance the protection of the Union's financial interests, it should be possible for the authorising officer to exclude or impose a financial penalty on beneficial owners and affiliated entities of the excluded entity that were involved in the misconduct of the excluded entity. The possibility to exclude beneficial owners and affiliated entities is intended to prevent that a person or entity that has been excluded from being selected to implement Union's funds could continue to participate in procurement and award procedures, through a new company or existing affiliated entities.

(116) In order to increase its effectiveness, the early-detection and exclusion system should also apply to natural persons who are deemed responsible for the misconduct of an entity, so that they are unable to participate in award procedures or selected to implement Union funds either in a personal capacity or through a new corporate identity, without prejudice to the right to be heard.

(117) At the request of the authorising officer, the panel of the early-detection and exclusion system should have the ability to issue its recommendations by means of an expedited procedure, without prejudice to the right to be heard. Such procedure should be used when the circumstances or the nature of the case requires so, for instance where a final judgment or a final administrative decision has been issued by a Member State's authority but the duration of the exclusion is not set; or a final judgment or a final administrative decision has been issued by a third country; or a sanction equivalent to an exclusion has been already imposed on the person or entity by virtue of a decision of international organisations.

↓ 2018/1046 recital 73

(118) A person or entity should not be subject to a decision on exclusion when it has taken remedial measures, thus demonstrating its reliability. That possibility should not apply in cases of the most severe criminal activities.

↓ 2018/1046 recital 74

(119) In light of the principle of proportionality, a distinction should be made between cases where it is possible to impose a financial penalty as an alternative to exclusion, on the one hand, and cases where the gravity of the conduct of the recipient concerned in respect of attempting to unduly obtain Union funds justifies the imposition of a financial penalty in addition to the exclusion so as to ensure a deterrent effect, on the other. The maximum amount of the financial penalty which can be imposed by the contracting authority should also be defined.

↓ 2018/1046 recital 75

(120) A financial penalty should only be imposed on a recipient and not on a participant given that the amount of the financial penalty to be imposed is calculated on the basis of the value of the legal commitment at stake.

↓ 2018/1046 recital 76

(121) The possibility to take decisions on exclusion or to impose financial penalties is independent from the possibility to apply contractual penalties, such as liquidated damages.

↓ 2018/1046 recital 77

(122) The duration of an exclusion should be limited in time, as is the case under Directive 2014/24/EU, and should be in accordance with the principle of proportionality.

↓ 2018/1046 recital 78

(123) It is necessary to determine the commencement date and the duration of the limitation period for taking decisions on exclusion or imposing financial penalties.

↓ 2018/1046 recital 79

(124) It is important to be able to reinforce the deterrent effect achieved by the exclusion and the financial penalty. In that regard, the deterrent effect should be reinforced by the possibility to publish the information related to the exclusion and/or to the financial

penalty in a manner that satisfies the data-protection requirements set out in Regulations (EU) 2018/1725 ~~(EC) No 45/2001~~ and (EU) No 2016/679. Such publication should contribute to ensuring that the same conduct is not repeated. For reasons of legal certainty and in accordance with the principle of proportionality it should be specified in which situations a publication should not take place. In its assessment, the authorising officer responsible should have regard to any recommendation of the panel. As far as natural persons are concerned, personal data should only be published in exceptional circumstances justified by the seriousness of the conduct or its impact on the financial interests of the Union.

↓ 2018/1046 recital 80

(125) Information related to an exclusion or to a financial penalty should only be published in certain cases such as grave professional misconduct, fraud, a significant deficiency in complying with the main obligations of a legal commitment financed by the budget, or an irregularity, or where an entity is created in a different jurisdiction with the intent to circumvent fiscal, social or any other legal obligations.

↓ 2018/1046 recital 81

(126) The criteria for exclusion should be clearly separated from the criteria leading to a possible rejection from an award procedure.

↓ 2018/1046 recital 82

(127) The information on the early detection of risks and on decisions on exclusion and the imposition of financial penalties on a person or entity should be centralised. For that purpose, related information should be stored in a database set up and operated by the Commission as the owner of the centralised system. That system should operate in compliance with the right to privacy and the protection of personal data.

↓ 2018/1046 recital 83

(128) While the setting-up and the operation of the early-detection and exclusion system should be the responsibility of the Commission, other Union institutions and bodies, as well as all persons and entities implementing Union funds under direct, shared and indirect management, should participate in that system by transmitting relevant information to the Commission. The authorising officer responsible and the panel should guarantee the right of defence of the person or entity. The same right should be given to a person or entity, in the context of an early detection, where an act envisaged by an authorising officer could adversely affect the rights of the person or entity concerned. In cases of fraud, corruption or any other illegal activity affecting the financial interests of the Union which are not yet subject to a final judgment, it should be possible for the authorising officer responsible to defer the notification of the person or entity and for the panel to defer the right of the person or entity to submit its observations. Such deferral should only be justified where there are compelling

legitimate grounds to preserve the confidentiality of the investigation or of national judicial proceedings.

↓ 2018/1046 recital 84

(129) The Court of Justice of the European Union should be given unlimited jurisdiction with regard to decisions on exclusion and financial penalties imposed pursuant to this Regulation, in accordance with Article 261 TFEU.

(130) In order to address attempts by entities to elude possible adverse consequences of their misconduct, rules of notification should be established under precise conditions in the context of early detection and exclusion procedures. Furthermore, the use of electronic exchanges system should apply to such procedures.

↓ 2018/1046 recital 85

(131) In order to facilitate the protection of the financial interests of the Union across all methods of budget implementation, it should be possible for the persons and entities involved in budget implementation under shared and indirect management to take into account, as appropriate, exclusions decided upon by the authorising officers at Union level.

↓ 2018/1046 recital 86

(132) This Regulation should foster the objective of e-government, in particular the use of electronic data in the exchange of information between Union institutions and third parties.

↓ 2018/1046 recital 87

(133) Progress towards the electronic exchange of information and the electronic submission of documents, including e-procurement, where appropriate, which constitute a major simplification measure, should be accompanied by clear conditions for the acceptance of the systems to be used, so as to establish a legally sound environment while preserving flexibility in the management of Union funds for the participants, recipients and the authorising officers as provided for in this Regulation.

(134) In order to improve governance and quality of interoperable digital public services, the Union institutions, the executive agencies and the Union bodies, such as those referred

to in Articles 70 and 71 should follow and apply to the greatest possible extent the European Interoperability Framework.

↓ 2018/1046 recital 88

(135) Rules on the composition and tasks of the committee in charge of evaluating application documents in procurement procedures, grant award procedures and in contests for prizes should be laid down. It should be possible for the committee to include external experts where that possibility is provided for in the basic act.

↓ 2018/1046 recital 89

(136) In line with the principle of good administration, the authorising officer should request clarifications or missing documents while respecting the principle of equality of treatment and without substantially changing the application documents. The authorising officer should have the possibility to decide not to do so only in duly justified cases. In addition, the authorising officer should be able to correct an obvious clerical error or request the participant to correct it.

↓ 2018/1046 recital 90

(137) Sound financial management should require that the Commission protects itself by requesting guarantees at the time of paying pre-financing. The requirement for contractors and beneficiaries to lodge guarantees should not be automatic, but should be based on a risk analysis. Where, in the course of implementation, the authorising officer discovers that a guarantor is not or is no longer authorised to issue guarantees in accordance with the applicable national law, the authorising officer should be able to require replacement of the guarantee.

↓ 2018/1046 recital 91

(138) The different sets of rules for direct and indirect management, in particular as regards the concept of 'budget implementation tasks', have created confusion and entailed risks of errors of qualification both for the Commission and for its partners and should thus be simplified and harmonised.

(139) The provisions on the *ex ante* pillar assessment of persons and entities implementing Union funds under indirect management should be revised to enable the Commission to rely as much as possible on the systems, rules and procedures ⇨ , including due diligence, ⇦ of those persons and entities which have been deemed equivalent to the ones used by the Commission. In addition, it is important to clarify that, where the assessment reveals areas in which the procedures in place are not sufficient to protect

the financial interests of the Union, the Commission should be able to sign contribution agreements while taking appropriate supervisory measures. It is also important to clarify in which cases it is possible for the Commission to decide not to require an *ex ante* pillar assessment in order to sign contribution agreements.

(140) In order to ensure efficient implementation of the Union budget, it is appropriate to further clarify the application of the principle of proportionality to indirect management. While the principle of proportionality cannot affect the nature of the obligations imposed by the relevant applicable legal framework, it should be systematically used in the cooperation with Union implementing partners, in order to strike the right balance between protection of the Union's financial interests and preserving the Union's ability to implement its policies. Certain adjustments and restructuring of the relevant provisions should be made. This should not be interpreted as limiting in practice the necessary rights and access required for the authorising officer responsible, for EPPO in respect of those Member States participating in enhanced cooperation pursuant to Regulation (EU) 2017/1939, for OLAF, for the Court of Auditors, and, where appropriate, for the relevant national authorities, to comprehensively exert their respective competences.

(141) In line with the principle of proportionality, it is necessary to provide for an application of the obligations provided for by this Regulation to the final recipients receiving support from the Union budget under financial instruments or budgetary guarantees. This application should take into due consideration and be commensurate to the nature of the final recipients and of the action, and the financial risks involved. Unnecessary administrative burden should be avoided in particular where final recipients are Micro, Small and Medium Enterprises and comparable economic operators with equivalent turnover or balance sheet total.

(142) The proportionality principle also needs to be applied to the assessment of rules, systems and procedures of entities that have already been successfully assessed, such as entities using rules established by the Commission, which shall be exempted from ex ante assessment. It should also be possible to exempt from ex ante assessment Member States organisations entrusted with the implementation of Union funds under shared management.

(143) It is necessary to clarify that when entities are selected to work under indirect management as a result of a call for expression of interest, the principles of equal treatment and non-discrimination apply.

🡻 2018/1046 recital 93

(144) Remuneration of persons and entities implementing the budget should, where relevant and possible, be performance-based.

⇩ new

(145) To ensure the integrity of the Union budget when implemented under indirect management, it is appropriate to request from implementing partners that they inform the Commission of suspected cases of fraud, corruption or any other illegal activity and to include such obligation in agreements that they concluded with third parties under indirect management.

🡻 2018/1046 recital 94

(146) The Commission enters into partnerships with third countries by means of financing agreements. It is important to clarify the content of such financing agreements, in particular for those parts of an action that are implemented by the third country under indirect management.

🡻 2018/1046 recital 95

(147) It is important to recognise the specific nature of blending facilities or platforms where the Commission blends its contribution with that of finance institutions and to clarify the application of the provisions on financial instruments and budgetary guarantees.

🡻 2018/1046 recital 96

(148) Procurement rules and principles applicable to public contracts awarded by Union institutions on their own account should be based on the rules set out in Directive 2014/23/EU of the European Parliament and of the Council[43] and Directive 2014/24/EU.

⇩ new

(149) Experience has shown that the application of the rules on procurement under this Regulation is not appropriate for the award of public contracts for financial services directly related to the issue, sale, purchase or transfer of securities or other financial instruments within the meaning of Directive 2014/65/EU of the European Parliament and of the Council, used by the Commission in the context of its borrowing and lending, asset management and treasury operations. This includes services provided by central banks, the European Stability Mechanism, the European Investment Bank and other international financial institutions, and national entities entrusted with the issuance and management of sovereign debt. For that reason and in accordance with Article 10 of Directive 2014/24/EU the rules on procurement laid down in this Regulation should not apply to those services.

(150) In light of the Covid-19 pandemic, it is appropriate to modify the definition of crisis, which applies in particular to the common provisions and to procurement in the field of external actions and covers public and animal health, food safety emergencies and global health threats. In order to allow the flexibility needed to ensure a rapid response to unforeseen circumstances of extreme urgency resulting from a crisis, the contracting authority should be allowed to apply simplified procurement rules, such as use of negotiated procedure without prior publication of a contract notice applicable to crisis situations and acceptance of evidence on exclusion and selection criteria from the presumed successful tenderer after the award decision but in any case before the signature of the contract. The contracting authority should also have flexibility to exceptionally modify a contract or a framework contract, beyond the thresholds referred to in Article 176(3), without a procurement procedure in order to respond to a crisis. A declaration of crisis should be required in line with the relevant internal rules prior to having recourse to such simplified rules, except for procurement in the field of external action where such declaration is not required. In addition, the authorising officers responsible should justify case-by-case the extreme urgency resulting from the declared crisis.

🡻 2018/1046 recital 97

(151) In the case of mixed contracts, the methodology of the contracting authorities for determining the applicable rules should be clarified.

🡻 2018/1046 recital 98

(152) The *ex ante* and *ex post* publicity measures necessary to launch a procurement procedure should be clarified for contracts equal to or greater than the thresholds set out in Directive 2014/24/EU, for contracts below those thresholds and for contracts falling outside the scope of that Directive.

🡻 2018/1046 recital 99

(153) This Regulation should include an exhaustive list of all the procurement procedures available to Union institutions regardless of the thresholds.

🡻 2018/1046 recital 100

(154) In the interests of administrative simplification and in order to encourage the participation of small and medium-sized enterprises (SMEs), negotiated procedures for middle-value contracts should be provided for.

(155) Where necessary, it should be possible to carry out a joint procurement between, on the one hand, one or more contracting authorities from Member States and, on the

other hand, Union institutions and bodies referred to in Articles 70 and 71 or executive agencies referred to in Article 69, without those institutions, bodies or agencies being bound to acquire works, supplies or services. In order to allow contracting authorities to fully benefit from the potential of the internal market in terms of economies of scale and risk-benefit sharing, the possibilities for Union institutions, Union bodies or executive agencies to purchase supplies or services on behalf of Member States should be extended. A Union institution, Union body or an executive agency should be able to conduct the relevant procurement procedure on behalf or in the name of Member States based on an agreement between the parties, or act as a wholesaler, by buying, stocking and reselling or donating supplies and services, including rentals, to Member States or partner organisations it has selected.

↓ 2018/1046 recital 101

(156) As is the case in Directive 2014/24/EU, this Regulation should allow for market consultation prior to the launch of a procurement procedure. In order to ensure that an innovation partnership is used only when the desired works, supplies and services do not exist on the market or as a near-to-market development activity, an obligation to carry out such preliminary market consultation before using an innovation partnership should be laid down in this Regulation.

↓ 2018/1046 recital 102

(157) The contribution of contracting authorities to the protection of the environment and the promotion of sustainable development, while ensuring that they obtain the best value for money for their contracts, in particular through requiring specific labels or through the use of appropriate award methods, should be clarified.

(158) In line with the objectives of the Communication on the European Green Deal, progress towards implementation of greening aspects should be ensured by including, when relevant, for the calls for tenders, green selection or award criteria, which will incentivise the economic operators to offer more sustainable options.

↓ 2018/1046 recital 103

(159) In order to ensure that, when executing contracts, economic operators comply with the applicable environmental, social and labour law obligations established by Union law, national law, collective agreements or the international social and environmental conventions listed in Annex X to Directive 2014/24/EU, such obligations should be part of the minimum requirements defined by the contracting authority and should be integrated in the contracts signed by the contracting authority.

↓ 2018/1046 recital 104

(160) It is appropriate that different cases usually referred to as situations of conflict of interests be identified and treated distinctly. The notion of a 'conflict of interests' should be solely used for cases where a person or entity with responsibilities for budget implementation, audit or control, or an official or an agent of a Union institution or national authorities at any level, is in such a situation. Attempts to unduly influence an award procedure or obtain confidential information should be treated as grave professional misconduct which can lead to the rejection from the award procedure and/or exclusion from Union funds. In addition, economic operators might be in a situation where they should not be selected to implement a contract because of a professional conflicting interest. For instance, a company should not evaluate a project in which it has participated or an auditor should not be in a position to audit accounts it has previously certified.

⇩ new

(161) In order to ensure the absence of professional conflicting interests that may affect or risk affecting the capacity to perform the contract in an independent, impartial and objective manner, it is necessary to clarify the obligations of the contracting authority and of the candidates or tenderers. On the one hand, the candidates, tenderers, and, where appropriate, entities on whose capacity they rely as well as envisaged subcontractors should declare the absence of such conflicting interests, and to provide related information where requested. On the other hand, the contracting authority should assess the existence of such professional conflicting interests when declared or on the basis of additional information. Where such professional conflicting interests are established, this should lead to rejection from the award.

↓ 2018/1046 recital 105

(162) In accordance with Directive 2014/24/EU, it should be possible to verify whether an economic operator is excluded, to apply selection and award criteria, as well as to verify compliance with the procurement documents in any order. As a result, it should be possible to reject tenders on the basis of award criteria without a prior check of the corresponding tenderer with regard to exclusion or selection criteria.

↓ 2018/1046 recital 106

(164) In the interests of legal certainty, it is necessary to clarify that the selection criteria are strictly linked to the evaluation of candidates or tenderers and that the award criteria are strictly linked to the evaluation of the tenders. ⇨ In order to align Union procurement rules with Directive 2014/24/EU of the European Parliament and of the Council, contracting authorities should also be allowed to use as an award criterion the organisation, qualification and experience of the staff assigned to perform the contract, where they can significantly affect the quality of contract performance and, as a result, the economic value of the tender. Contracting authorities which make use of any of those award criteria should ensure, by appropriate contractual means, that the staff assigned to contract performance effectively fulfil the specified quality standards. The contracting authorities should give their consent to any replacement of such staff and should verify whether replacing staff affords an equivalent level of quality as the replaced staff. Furthermore, it should be ensured that there is no overlap and double evaluation of the same element under the selection and award criteria. ⇦ ~~In particular, the qualifications and experience of staff assigned to perform the contract should only be used as a selection criterion and not as an award criterion, as this would introduce a risk of overlap and double evaluation of the same element. Furthermore, if such qualifications and experience were used as an award criterion, any change in the staff assigned to perform the contract, even where justified through illness or a change in position, would call into question the conditions under which the contract was awarded and thereby create legal uncertainty.~~

(165) It is necessary to simplify the rules governing dynamic purchasing systems to enable contracting authorities to take full advantage of the possibilities afforded by that purchasing method. In particular, the systems should be operated in the form of a restricted procedure, thus allowing for any economic operator that submits a request to participate and meets the exclusion and selection criteria to take part in procurement procedures carried out through the dynamic purchasing system over its period of validity, which should not be limited to four years. Tenders may also be presented in the form of an electronic catalogue particularly for off-the-shelf products or services generally available on the market. Moreover, in order to reduce the administrative burden given the dynamic nature of the systems, the requirement to appoint an opening and evaluation committee should be waived for specific procurements under a dynamic purchasing system. Considering the progress in digitalisation of procurement procedures, it should be clarified that public openings for open procedures may be organised remotely via video conferences.

(166) In order to simplify and align with the rules applicable to procurement by Union institutions on their own account, the obligation to publish the list of selected candidates to be invited to submit a tender on the Commission's website should be removed in the field of external actions.

↓ 2018/1046 recital 108

(167) Union procurement should ensure that Union funds are used in an effective, transparent and appropriate way, while reducing administrative burden on recipients of Union funds. In that regard, e-procurement should contribute to the better use of Union funds and enhance access to contracts for all economic operators. All Union institutions conducting procurement should publish clear rules on their websites regarding acquisition, expenditure and monitoring, as well as all contracts awarded, including the value thereof.

⇩ new

(168) In electronic procurement, the electronic exchange of information with participants should rely to the largest extent possible on existing standards, such as the European Single Procurement Document and e-Invoicing standards mandated respectively by Commission Implementing Regulation (EU) 2016/7 and by Directive 2014/55/EU of the European Parliament and of the Council on electronic invoicing in public procurement.

↓ 2018/1046 recital 109

(169) The existence of an opening phase and an evaluation for any procedure should be clarified. An award decision should always be the outcome of an evaluation.

(172) It should also be clarified that tenderers rejected on the basis of Article 144 or any other grounds for rejection should not have access to such information.

↓ 2018/1046 recital 112

(173) For framework contracts with reopening of competition, there should be no obligation to provide information on the characteristics and the relative advantages of the successful tender to an unsuccessful contractor, on the basis that the receipt of such information by parties to the same framework contract each time a competition is reopened might prejudice fair competition between them.

↓ 2018/1046 recital 113

(174) A contracting authority should be able to cancel a procurement procedure before the contract is signed, without the candidates or tenderers being entitled to claim compensation. This should be without prejudice to situations where the contracting authority has acted in such a way that it is possible to hold it liable for damages in accordance with the general principles of Union law.

⇩ new

(175) In the case of procedures awarded in lots or through multiple sourcing, a contracting authority should be able to partially cancel a procurement procedure, before the contract is signed, without the candidates or tenderers being entitled to claim compensation. This should be without prejudice to situations where the contracting authority has acted in such a way that it is possible to hold it liable for damages in accordance with the general principles of Union law.

(176) The award of contracts following multiple sourcing procurement, should be allowed in duly justified cases, in particular, in order to avoid the over-reliance on a single provider, for critical equipment and services, taking into account the objectives of technological independence and continuity of services.

↓ 2018/1046 recital 114

(177) As is the case in Directive 2014/24/EU, it is necessary to clarify the conditions under which it is possible to modify a contract during its performance without a new procurement procedure. In particular, a new procurement procedure should not be required in the event of administrative changes, universal succession and application of clear and unequivocal revision clauses or options that do not alter the minimum requirements of the initial procedure. A new procurement procedure should be required in the case of material modifications to the initial contract, in particular to the scope and content of the mutual rights and obligations of the parties, including as regards the distribution of intellectual property rights. Such modifications demonstrate the parties' intention to renegotiate the essential terms or conditions of that contract, in particular if the modifications would have had an influence on the outcome of the procedure had the modified terms or conditions been part of the initial procedure.

⇩ new

(178) Experience gained has shown that it is necessary to clarify in which cases a modification is considered altering the subject matter of the contract.

(179) It is necessary to provide for the option of requiring a performance guarantee in relation to works, supplies and complex services in order to guarantee compliance with substantial contractual obligations and to ensure proper performance throughout the duration of the contract. It is also necessary to provide for the option of requiring a retention money guarantee to cover the contract liability period, in line with customary practice in the sectors concerned.

🡻 2018/1046 recital 116

(180) In order to determine the applicable thresholds and procedures, it is necessary to clarify whether Union institutions, executive agencies and Union bodies are deemed to be contracting authorities. They should not be deemed to be contracting authorities in cases where they purchase from a central purchasing body. In addition, Union institutions form a single legal entity and their departments cannot conclude contracts, but only service-level agreements, between themselves.

⇩ new

(184) In order to better adapt procedures to market conditions outside the Union, this Regulation should include specific provisions under which Union delegations award contracts on their own account in third countries. Therefore, it is appropriate to revise the thresholds for awarding contracts applied by the Union delegations in third countries and align them to those applied for awarding contracts in the field of external actions.

🡻 2018/1046 recital 119

(185) It is necessary to clarify the conditions of application of the standstill period to be observed before signing a contract or framework contract.

(190) In duly justified cases, where the contract is to be awarded in a third country, the authorising officer responsible should be allowed to open access to the procurement procedure to natural or legal persons established in a third country that does not have a special agreement with the Union in the field of procurement. This flexibility should be provided in particular where there are no natural or legal persons established in countries that have access to the procurement under a special agreement with the Union in the field of procurement who can provide the required work, supplies or services. The rules on access to procurement, applicable both at the time of tender submission and during contract implementation, should include the conditions laid down in implementing acts (International Procurement Instrument measures) adopted under Regulation 20xx/xxx [IPI Regulation].

↓ 2018/1046 recital 123

(191) In order to achieve a balance between the need for transparency and greater coherence of procurement rules on the one hand, and the need to provide flexibility on certain technical aspects of those rules on the other, the technical rules on procurement should be set out in an annex to this Regulation and the power to adopt acts in accordance with Article 290 TFEU should be delegated to the Commission in respect of amendments to that Annex.

↓ 2018/1046 recital 124

(192) It is necessary to clarify the scope of the Title on grants, particularly with regard to the type of action or body eligible for a grant, as well as with regard to legal commitments that can be used to cover grants. In particular, grant decisions should be phased out due to their limited use and the progressive introduction of e-grants. The structure should be simplified by moving the provisions on instruments which are not grants to other parts of this Regulation. The nature of bodies which can receive operating grants should be clarified by no longer referring to bodies pursuing an aim of general Union interest since those bodies are covered by the notion of bodies having an objective forming part of and supporting a Union policy.

🡻 2018/1046 recital 125

(193) In order to simplify procedures and improve the readability of this Regulation, provisions related to the content of the grant application, of the call for proposals and of the grant agreement should be simplified and streamlined.

🡻 2018/1046 recital 126

(194) In order to facilitate the implementation of actions financed by multiple donors where the overall financing of the action is not known at the time of commitment of the Union contribution, it is necessary to clarify the way the Union contribution is defined and the method of verifying its use.

🡻 2018/1046 recital 127

(195) Experience gained in the use of lump sums, unit costs or flat-rate financing has shown that such forms of financing significantly simplify administrative procedures and substantially reduce the risk of error. Regardless of the field of Union intervention, lump sums, unit costs and flat rates are suitable forms of financing, in particular for standardised and recurrent actions, such as mobility or training activities. Moreover, as institutional cooperation between public administrations of Member States and of beneficiary or partner countries (institutional twinning) is implemented by Member State institutions, the use of simplified cost options is justified and should foster their engagement. In the interest of increased efficiency, Member States and other recipients of Union funds should be able to make more frequent use of simplified cost options. In this context, the conditions for using lump sums, unit costs and flat rates should be made more flexible. It is necessary to provide explicitly for the establishment of single lump sums covering the entire eligible costs of the action or the work programme. In addition, in order to foster focus on results, priority should be given to output-based funding. Input-based lump sums, unit costs and flat rates should remain an option where output-based ones are not possible or appropriate.

⇩ new

(196) In order to ensure legal certainty, it is necessary to clarify that, where a grant takes the form of financing not linked to costs, the provisions on an estimated budget, co-financing and no double funding do not apply since they cannot be applied in a case where the amount to be reimbursed is linked to defined conditions or results and is decoupled from the underlying costs.

🡻 2018/1046 recital 128

(197) The administrative procedures for authorising lump sums, unit costs and flat rates should be simplified by vesting the power for such authorisation in the authorising officers responsible. Where appropriate, such authorisation can be given by the

Commission in light of the nature of the activities or of the expenditure or in light of the number of authorising officers concerned.

↓ 2018/1046 recital 129

(198) In order to bridge the gap in the availability of data used to establish lump sums, unit costs and flat rates, the use of an expert judgement should be allowed.

↓ 2018/1046 recital 130

(199) While the potential of more frequent use of simplified forms of financing should be realised, compliance with the principle of sound financial management, and in particular the principles of economy, efficiency and no double funding, should be ensured. For that purpose, simplified forms of financing should ensure that the resources employed are adequate to the objectives to be achieved, that the same costs are not financed more than once from the budget, that the co-financing principle is respected and that overall overcompensation of recipients is avoided. Therefore, simplified forms of financing should be based on statistical or accounting data, similar objective means or expert judgement. In addition, suitable checks, controls and periodic assessments should continue to apply.

↓ 2018/1046 recital 131

(200) The scope of checks and controls as opposed to the periodic assessments of lump sums, unit costs or flat rates should be clarified. Those checks and controls should focus on the fulfilment of the conditions triggering the payment of lump sums, unit costs or flat-rates, including, where required, the achievement of outputs and/or results. Those conditions should not require reporting on the costs actually incurred by the beneficiary. Where the amounts of lump sums, unit costs or flat-rate financing have been determined *ex ante* by the authorising officer responsible or by the Commission they should not be challenged by *ex post* controls. This should not prevent the reduction of a grant in the event of poor, partial or late implementation or of irregularity, fraud or a breach of other obligations. In particular, a grant should be reduced where the conditions triggering the payment of lump sums, unit costs or flat rates have not been fulfilled. The frequency and scope of the periodic assessment should depend on the evolution and the nature of the costs, in particular taking into account substantial changes in market prices and other relevant circumstances. The periodic assessment could lead to adjustments of the lump sums, unit costs or flat rates applicable to future agreements, but should not be used for questioning the value of the lump sums, unit costs or flat rates already agreed upon. The periodic assessment of lump sums, unit costs or flat rates might require access to the accounts of the beneficiary for statistical and methodological purposes and such access is also necessary for fraud-prevention and detection purposes.

⇩ new

(201) Where a grant takes the form of a flat rate, unit cost or lump sum and there is thus no *ex post* verification of the underlying costs, it is not possible to check that the eligible costs were incurred during the lifetime of the action. In order to ensure legal certainty, it should be clarified that *ex post* checks and controls on beneficiaries will verify that the fulfilment of the conditions triggering the payment of the flat rate, unit costs, or lump sum was achieved during the implementation period.

🡻 2018/1046 recital 132

(202) In order to facilitate the participation of small organisations in the implementation of the Union policies in an environment of limited availability of resources, it is necessary to recognise the value of the work provided by volunteers as eligible costs. As a result, such organisations should be able to rely to a greater extent on volunteers' work for the sake of providing co-financing to the action or the work programme. Without prejudice to the maximum co-financing rate specified in the basic act, in such cases, the Union grant should be limited to the estimated eligible costs other than those covering volunteers' work. As volunteers' work is a work provided by third parties without a remuneration being paid to them by the beneficiary, the limitation avoids reimbursing costs which the beneficiary did not incur. In addition, the value of the volunteers' work should not exceed 50 % of the in-kind contributions and any other co-financing.

⇩ new

(203) To ensure legal certainty, it should be clarified that, where in-kind contributions from third parties in the form of volunteers' work are presented as eligible costs in the estimated budget, the co-financing to which the 50% limit is applied should include all the sources of financing, that is the Union grant, in-kind contributions and other sources of financing.

🡻 2018/1046 recital 133

(204) In order to protect one of the fundamental principles of public finances, the no-profit principle should be retained in this Regulation.

⇩ new

(205) To ensure legal certainty when calculating the Union contribution in the case of a profit in a grant funded by the Union budget, it should be clarified that the recovery of the percentage of the profit corresponding to the Union contribution to the eligible costs should not differentiate between actually incurred costs and simplified costs.

🡻 2018/1046 recital 134

(206) In principle, grants should be awarded following a call for proposals. Where exceptions are allowed, they should be interpreted and applied restrictively in terms of scope and duration. The exceptional possibility to award grants without a call for proposals to bodies with a de facto or de jure monopoly should only be used where the bodies concerned are the only ones capable of implementing the relevant types of activities or have been vested with such a monopoly by law or by a public authority.

🡻 2018/1046 recital 135

(207) In the framework of moving towards e-grants and e-procurement, applicants and tenderers should be asked to provide a proof of their legal status and financial viability only once within a specific period and should not be required to resubmit supporting documents in each award procedure. It is therefore necessary to align the requirements for the number of years for which documents will be requested under grant award procedures and procurement procedures.

⇩ new

(208) A beneficiary of a grant can provide financial support to a third party based on the fulfilment of certain conditions, and the amount paid to any third party should not exceed EUR 60 000. That amount may only be exceeded where achieving the objectives of the action would otherwise be impossible or overly difficult. In order to allow more flexibility for implementing the budget in crisis and emergency situations, it should also be possible to exceed EUR 60 000 without case-by-case justification in the cases of humanitarian aid, emergency support operations, civil protection operations or crisis management aid.

(209) Where the implementation of an action or a work programme requires a beneficiary to carry out procurement, it should be clarified that any beneficiary may use its own purchasing practices provided they ensure best value for money, or as appropriate, lowest price, irrespective of whether the beneficiary awards a public contract and is a contracting authority within the meaning of this Regulation. The definition of "contract" should be amended accordingly.

🡻 2018/1046 recital 136

(210) As a valuable type of financial support not related to predictable costs, the use of prizes should be facilitated and the applicable rules should be clarified. Prizes should be seen as complementing, not substituting, other funding instruments such as grants.

🡻 2018/1046 recital 137

(211) In order to allow for the more flexible implementation of prizes, the obligation under Regulation (EU, Euratom) No 966/2012 to publish contests for prizes with a unit value

of EUR 1000000 or more in the statements accompanying the draft budget should be replaced by an obligation to submit prior information to the European Parliament and to the Council and to explicitly mention such prizes in the financing decision.

↓ 2018/1046 recital 138

(212) Prizes should be awarded in accordance with the principles of transparency and equal treatment. In that context, the minimum characteristics of contests should be laid down, in particular the arrangements for paying the prize to the winners after its award, and the appropriate means of publication It is also necessary to establish a clearly defined award procedure, from submission of the applications to the provision of information to applicants and notification of the winning applicant, which mirrors the grant award procedure.

↓ 2018/1046 recital 139

(213) This Regulation should lay down the principles and conditions applicable to financial instruments, budgetary guarantees and financial assistance and the rules on the limitation of the financial liability of the Union, the fight against fraud and money laundering, the winding down of financial instruments and reporting.

↓ 2018/1046 recital 140

(214) In recent years the Union has increasingly used financial instruments that allow a higher leverage of the budget to be achieved but, at the same time, they generate a financial risk for the budget. Those financial instruments include not only the financial instruments covered by Regulation (EU, Euratom) No 966/2012, but also other instruments, such as budgetary guarantees and financial assistance, that previously have been governed only by the rules established in their respective basic acts. It is important to establish a common framework to ensure the homogeneity of the principles applicable to that set of instruments and to regroup them under a new Title in this Regulation, comprising sections on budgetary guarantees and on financial assistance to Member States or third countries in addition to the existing rules applicable to financial instruments.

↓ 2018/1046 recital 141

(215) Financial instruments and budgetary guarantees can be valuable in multiplying the effect of Union funds when those funds are pooled with other funds and include a leverage effect. Financial instruments and budgetary guarantees should only be implemented if there is no risk of distortion of competition in the internal market or inconsistency with State aid rules.

🡻 2018/1046 recital 142

(216) Within the framework of the annual appropriations authorised by the European Parliament and by the Council for a given programme, financial instruments and budgetary guarantees should be used on the basis of an *ex ante* evaluation demonstrating that they are effective for the achievement of the policy objectives of the Union.

🡻 2018/1046 recital 143

(217) Financial instruments, budgetary guarantees and financial assistance should be authorised by means of a basic act. Where in duly justified cases financial instruments are established without a basic act, they should be authorised by the European Parliament and by the Council in the budget.

🡻 2018/1046 recital 144

(218) The instruments that potentially fall under Title X, such as loans, guarantees, equity investments, quasi-equity investment and risk-sharing instruments, should be defined. The definition of 'risk-sharing instruments' should allow for the inclusion of credit enhancements for project bonds, covering the debt service risk of a project and mitigating the credit risk of bond holders through credit enhancements in the form of a loan or a guarantee.

🡻 2018/1046 recital 145

(219) Any repayment from a financial instrument or budgetary guarantee should be used for the instrument or guarantee which produced the repayment with a view to enhancing the efficiency of that instrument or guarantee, unless otherwise specified in the basic act, and should be taken into account when proposing future appropriations to that instrument or guarantee.

(223) For consistency and in order to take account of the Multiannual Financial Framework for 2021 to 2027, for financial instruments and budgetary guarantees, it is necessary to clarify certain provisions on reporting by the persons or entities entrusted with the implementation of Union funds in accordance with Article 62(1)(c), on the application of Title X in case of combination thereof with ancillary support from the budget, including grants, and on combination with funds implemented under shared management.

↓ 2018/1046 recital 148

(224) It should be clarified that, where financial instruments or budgetary guarantees are combined with ancillary forms of support from the budget, the rules on financial instruments and budgetary guarantees should apply to the whole measure. Such rules should be complemented, where applicable, by specific requirements set out in the sector-specific rules.

↓ 2018/1046 recital 149

(225) The implementation of financial instruments and budgetary guarantees financed by the budget should adhere to the Union policy on non-cooperative jurisdictions for tax purposes, and updates thereto, as laid down in relevant legal acts of the Union and in Council conclusions, in particular the Council conclusions of 8 November 2016 on the criteria for and process leading to the establishment of the EU list of non-cooperative jurisdictions for tax purposes[45] and the Annex thereto, as well as the Council conclusions of 5 December 2017 on the EU list of non-cooperative jurisdictions for tax purposes[46] and the Annexes thereto.

Regulation provides a stronger protection of the financial interests of the Union and a clearer framework for their authorisation, management and accounting.

↓ 2018/1046 recital 151

(227) The Union has recently launched important initiatives based on budgetary guarantees such as the European Fund for Strategic Investments (EFSI) or the European Fund for Sustainable Development (EFSD). The characteristics of those instruments are that they generate a contingent liability for the Union and imply the provisioning of funds to make available a liquidity cushion that allows the budget to respond in an orderly manner to the payment obligations that might arise from those contingent liabilities. In order to guarantee the credit rating of the Union and, hence, its capacity to deliver effective financing, it is essential that the authorisation, provisioning and monitoring of contingent liabilities follow a robust set of rules that should be applied to all budgetary guarantees.

↓ 2018/1046 recital 152

(228) The contingent liabilities arising from budgetary guarantees can cover a wide range of financing and investment operations. The possibility of a budgetary guarantee being called cannot be scheduled with full certainty on a yearly basis as in the case of loans that have a defined schedule for repayment. It is, therefore, indispensable to set up a framework for the authorisation and monitoring of contingent liabilities ensuring full respect, at any moment, for the ceiling for annual payment appropriations set out in ~~Council~~ Decision (EU, Euratom) 2020/2053~~2014/335/EU, Euratom~~[47].

↓ 2018/1046 recital 153

(229) That framework should also provide for management and control, including regular reporting on the financial exposure of the Union. The rate of provisioning of financial liabilities should be set on the basis of a proper risk assessment of the financial risks arising from the related instrument. The sustainability of the contingent liabilities should be assessed annually in the context of the budgetary procedure. An early warning mechanism should be established to avoid a shortage of provisions to cover financial liabilities.

↓ 2018/1046 recital 154

(230) The increasing use of financial instruments, budgetary guarantees and financial assistance requires a significant volume of payment appropriations to be mobilised and provisioned. In order to deliver leverage while ensuring an adequate level of protection against financial liabilities, it is important to optimise the amount of provisioning required and to achieve efficiency gains by pooling those provisions into

a common provisioning fund. In addition, the more flexible use of those pooled provisions permits an effective global provisioning rate that delivers the protection requested with an optimised amount of resources.

↓ 2018/1046 recital 155

(231) In order to ensure the proper functioning of the common provisioning fund for the post-2020 programming period, the Commission should, by 30 June 2019, submit an independent external evaluation of the advantages and disadvantages of entrusting the financial management of the assets of the common provisioning fund to the Commission, to the EIB, or to a combination of the two, taking into account the relevant technical and institutional criteria used in comparing asset management services, including the technical infrastructure, comparison of costs for the services given, institutional set-up, reporting, performance, accountability and expertise of each institution and the other asset management mandates for the budget. The evaluation should be accompanied, where appropriate, by a legislative proposal.

↓ 2018/1046 recital 156

(232) The rules applicable to provisioning and to the common provisioning fund should provide a solid internal control framework. The guidelines applicable to the management of the resources in the common provisioning fund should be established by the Commission after having consulted the accounting officer of the Commission. The authorising officers of the financial instruments, budgetary guarantees or financial assistance should actively monitor the financial liabilities under their responsibility and the financial manager of the resources of the common provisioning fund should manage the cash and the assets in the fund following the rules and procedures set out by the accounting officer of the Commission.

↓ 2018/1046 recital 157

(233) Budgetary guarantees and financial assistance should follow the same set of principles established for financial instruments. Budgetary guarantees, in particular, should be irrevocable, unconditional and on demand. They should be implemented under indirect management or, only in exceptional cases, under direct management. They should only cover financing and investment operations and their counterparts should contribute their own resources to the operations covered.

↓ 2018/1046 recital 158

(234) Financial assistance to Member States or third countries should take the form of a loan, of a credit line or any other instrument deemed appropriate to ensure the effectiveness of the support. To that end, the Commission should be empowered in the relevant basic act to borrow the necessary funds on the capital markets or from financial institutions, avoiding the involvement of the Union in any transformation of maturities that would expose it to an interest risk or to any other commercial risk.

↓ 2018/1046 recital 159

(235) The provisions related to financial instruments should apply as soon as possible in order to achieve the simplification and effectiveness sought. The provisions related to the budgetary guarantees and to financial assistance, as well as to the common provisioning fund, should apply as from the post-2020 multiannual financial framework. That calendar will allow a thorough preparation of the new tools for managing contingent liabilities. It will also permit an alignment between the principles set out in Title X and, on the one hand, the proposal for the post-2020 multiannual financial framework and, on the other hand, the specific programmes related to that framework.

(236) Regulation (EU, Euratom) No 1141/2014 of the European Parliament and of the Council[48] lays down rules for, inter alia, the funding of political parties and political foundations at European level, in particular with regard to funding conditions, the award and distribution of funding, donations and contributions, financing of campaigns for elections to the European Parliament, reimbursable expenditure, the prohibition of certain funding, accounts, reporting and audit, implementation and control, penalties, cooperation between the Authority for European political parties and foundations, the Authorising Officer of the European Parliament and Member States, and transparency.

(238) The financial support given to European political parties should take the form of a specific contribution, to match the specific needs of those parties.

↓ 2018/1046 recital 163

(239) Although financial support is awarded without an annual work programme being required, European political parties should justify *ex post* the sound use of Union funding. In particular, the authorising officer responsible should verify if the funding has been used to pay reimbursable expenditure as established in the call for contributions within the time limits laid down in this Regulation. European political parties should be spent by the end of the financial year following that of their award, after which, any unspent funding should be recovered by the authorising officer responsible.

↓ 2018/1046 recital 164

(240) Union funding awarded to finance the operating costs of European political parties should not be used for other purposes than those established in Regulation (EU, Euratom) No 1141/2014, in particular to directly or indirectly finance third parties such as national political parties. European political parties should use the contributions to pay a percentage of current and future expenditure and not expenditure or debts incurred before the submission of their applications for contributions.

↓ 2018/1046 recital 165

(241) The award of contributions should also be simplified and adapted to the specificities of European political parties, in particular by the absence of selection criteria, the establishment of a single full pre-financing payment as a general rule, and by the possibility to use lump sums, flat-rate financing and unit costs.

↓ 2018/1046 recital 166

(242) The contributions from the budget should be suspended, reduced or terminated if European political parties infringe Regulation (EU, Euratom) No 1141/2014.

↓ 2018/1046 recital 167

(243) Penalties that are based both on this Regulation and on Regulation (EU, Euratom) No 1141/2014 should be imposed in a coherent way and should respect the principle of *ne bis in idem*. In accordance with Regulation (EU, Euratom) No 1141/2014, administrative and/or financial penalties provided for by this Regulation are not to be imposed in one of the cases for which penalties have already been imposed on the basis of Regulation (EU, Euratom) No 1141/2014.

↓ 2018/1046 recital 168

(244) This Regulation should establish a general framework under which budget support can be used as an instrument in the field of external actions including the obligation for the third country to provide the Commission with adequate and timely information to evaluate the fulfilment of the agreed conditions and provisions ensuring the protection of the financial interests of the Union.

↓ 2018/1046 recital 169

(245) In order to reinforce the role of the European Parliament and of the Council, the procedure for establishing Union trust funds should be clarified. It is also necessary to specify the principles applicable to the contributions to Union trust funds, in particular the importance of securing contributions from other donors which justify their establishment with regard to added value. It is also necessary to clarify the responsibilities of the financial actors and of the board of the Union trust fund and to define rules ensuring a fair representation of the participating donors on the board of the Union trust fund and a mandatory vote in favour by the Commission for the use of the funds. It is also important to set out in more detail the reporting requirements applicable to Union trust funds.

(246) The Union should be able to participate in global initiatives, when such participation contributes to the achievement of Union policy objectives. In order to provide a suitable legal framework for Union participation in global initiatives, Union contribution to such initiatives should be included as a new budget implementation instrument. The use of this new financial vehicle would be subject to conditions and limited to cases where other instruments provided in the Financial Regulation do not enable the achievement of the respective EU policy objectives with the same scale and impact.

(247) In order to adapt to the progress on digitalisation, the lists of external experts drawn up following a call for expression of interest should be valid longer than the duration of the multiannual programme provided a rotation of the experts is ensured and new experts are able to express their interest. In addition, it is necessary to allow Union institutions to attract highly skilled external experts in order to ensure the evaluation process and the specific opinions and advice provided by the experts is of high quality. In order to successfully compete with other actors on the market, the Union institutions should be allowed to offer more competitive remuneration in exceptional and duly justified cases. Finally, in the interest of legal certainty, the rules applicable to remunerated external experts should be clarified to mirror the different steps of the award procedure.

(248) In order to provide a clear legal framework for the Union institutions to donate services, supplies or works, non-financial donations should be included as a new budget implementation instrument. This instrument should not be confused with the general framework of support provided by the Union to third countries which is of a broader nature but can include non-financial donations. In light of the COVID-19 pandemic, such an instrument should provide a stable legal basis in particular for future crisis and emergency situations and ensure that the Union institutions have the appropriate budget support tools to help Member States, other persons and entities when support is most needed. That instrument should be implemented under direct management. Related provisions, such as definitions, suspension, termination and reduction, and evaluation committee should be adjusted accordingly.

(249) Similar to the introduction of non-financial donations, the EU institutions should also be able to award prizes which are not financial. This is also important in order to allow

contests among young people who do not have a bank account in their Member State, but who can easily receive their reward in a practical form. For this purpose, the definition and the provisions on 'prizes' should be adjusted accordingly.

↓ 2018/1046 recital 170

(250) In line with the streamlining of the existing rules and in order to avoid undue repetition, the special provisions set out in Part Two of Regulation (EU, Euratom) No 966/2012, applicable to the EAGF, to research, to external actions and to specific Union funds, should only be introduced in the relevant parts of this Regulation, provided that the provisions are still used and relevant.

(253) The manner in which Union institutions currently report on building projects to the European Parliament and to the Council should be improved. Union institutions should be allowed to finance new building projects with the revenue received for buildings already sold. Consequently, a reference to the provisions on internal assigned revenue should be introduced in the provisions on building projects. This would allow meeting the changing needs in the building policy of Union institutions, while saving costs and introducing more flexibility.

(254) In its Communication on the European Green Deal, the Commission encourages the renovation of buildings in order to reduce their emissions and make them more energy efficient. Taking into account the rapid evolution of the market for energy efficient buildings, there is an acute need for the Union institutions to incorporate the Green Deal commitments in their own building policy and to renovate their buildings. In addition, the recent development of working methods accelerated by the Covid-19 pandemic requires adapting the institutions' office stock in order to develop a dynamic office policy. As a consequence, financing of structural renovations by loans should be

allowed. The interpretation of the concept of new building projects should be broadened and, in particular, include any project concerning structural renovation.

(255) In order to adapt the rules applicable to certain Union bodies, the detailed rules on procurement and the detailed conditions and the minimum ratio for the effective provisioning rate, the power to adopt acts in accordance with Article 290 TFEU should be delegated to the Commission in respect of the framework financial regulation for bodies set up under the TFEU and the Euratom Treaty, the model financial regulation for public-private partnership bodies, amendments to Annex I to this Regulation, the detailed conditions and methodology for the calculation of the effective provisioning rate and the amendment of the defined minimum ratio of the effective provisioning rate, which should not be set at a level lower than 85 %. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level, and that those consultations be conducted in accordance with the principles laid down in the Interinstitutional Agreement of 13 April 2016 on Better Law-Making. In particular, to ensure equal participation in the preparation of delegated acts, the European Parliament and the Council receive all documents at the same time as Member States' experts, and their experts systematically have access to meetings of Commission expert groups dealing with the preparation of delegated acts.

~~In order to ensure that the European Union Programme for Employment and Social Innovation (EaSI), established by Regulation (EU) No 1296/2013 of the European Parliament and of the Council[49], swiftly provides adequate resources to support changing political priorities, the indicative shares for each of the three axes and the minimum percentages for each of the thematic priorities within each axis should allow for a greater flexibility, while maintaining an ambitious deployment rate for EURES cross-border partnerships. This should improve the management of EaSI and allow for the focusing of budgetary resources on actions that produce better employment and social results.~~

~~With a view to facilitating the implementation of operations under Regulation (EU) No 1303/2013 of the European Parliament and of the Council[53], the scope of potential beneficiaries should be enlarged. ~~Many Member States have established publicly-owned banks or institutions that operate under a public policy mandate to promote economic development activities. Such publicly-~~

~~owned banks or institutions have specific characteristics which differentiate them from private commercial banks in relation to their ownership, their development mandate and the fact that they do not primarily focus on maximising profits. The primary role of such publicly-owned banks or institutions is to mitigate market failures where in certain regions or for certain policy areas or sectors financial services are underprovided by commercial banks. Those publicly-owned banks or institutions are well-placed to promote access to the ESI Funds while maintaining competitive neutrality. Their specific role and characteristics can allow Member States to increase the use of financial instruments in order to maximise the impact of the ESI Funds in the real economy. Such an outcome would be in line with the Commission policy to facilitate the role of such publicly-owned banks or institutions as fund managers both in the implementation of ESI Funds as well as in the combination of the ESI Funds with EFSI financing, as set out in particular in the Investment Plan for Europe. Without prejudice to contracts already awarded for the implementation of financial instruments in compliance with applicable law, it is justified to clarify that it is possible for managing authorities to award contracts directly to such publicly-owned banks or institutions. Nevertheless, in order to ensure that the possibility of direct award remains consistent with the principles of the internal market, strict conditions to be fulfilled by publicly-owned banks or institutions should be laid down.~~

> ~~Such conditions should include that there is to be no direct private-capital participation, with the exception of non-controlling and non-blocking forms of private-capital participation in line with the requirements set out in Directive 2014/24/EU. Moreover, and strictly limited to the scope of application of Regulation (EU) No 1303/2013, a publicly-owned bank or institution should also be allowed to implement financial instruments where the private-capital participation confers no influence on decisions regarding the day-to-day management of the financial instrument supported by the ESI Funds.~~

At the same time, the conditions for application of such a differentiated treatment when implementing the ESI Funds should be laid down.~~

↓ 2018/1046 recital 200 (adapted)

~~Due to the late adoption of Regulation (EU) No 508/2014 of the European Parliament and of the Council[56] and the fact that aid intensity levels have been established by that Regulation, it is necessary to set out certain exemptions in Regulation (EU) No 1303/2013 for the EMFF as regards revenue-generating operations. As those exemptions provide more favourable conditions for certain revenue-generating operations for which amounts or rates of support are defined in Regulation (EU) No 508/2014, it is necessary to establish a different date of application for those exemptions to ensure equal treatment of operations supported on the basis of Regulation (EU) No 1303/2013.~~

~~In order to reduce the administrative burden of the implementation of projects by beneficiaries, a new simplified cost option for financing based on conditions others than the costs of the operations should be introduced.~~

↓ 2018/1046 recital 205 (adapted)

~~In order to simplify the rules governing the use of funds and to reduce the associated administrative burden, Member States should increasingly make use of simplified cost options.~~

↓ 2018/1046 recital 206 (adapted)

~~Taking into account the fact that, in accordance with Article 71 of Regulation (EU) No 1303/2013, the obligation to ensure the durability of investment operations applies from the final payment to the beneficiary, and that, when the investment consists in the lease purchase of a new machinery and equipment, the final payment occurs at the end of the contract period, that obligation should not apply to that type of investment.~~

↓ 2018/1046 recital 207 (adapted)

~~In order to ensure a broad application of simplified cost options, an obligatory use of standard scales of unit costs, lump sums or flat rates should be set out for operations or projects forming part of an operation receiving support from the ERDF and the ESF below a certain threshold, subject to relevant transitional provisions. The managing authority, or the monitoring committee for the programmes under the European territorial cooperation goal, should be given the possibility to extend the transitional period for a period it considers appropriate if it considers that such obligation creates a disproportionate administrative burden. Such obligation should not apply to operations receiving support within the framework of State aid that does not constitute de minimis aid. For such operations, all forms of grants and repayable assistance should continue to be an option. At the same time, the use of draft budgets as an additional methodology for determining simplified costs should be introduced for all ESI Funds.~~

↓ 2018/1046 recital 208 (adapted)

~~In order to facilitate earlier and more targeted application of simplified cost options, the power to adopt acts in accordance with Article 290 TFEU should be delegated to the Commission in respect of supplementing Regulation (EU) No 1303/2013 with additional specific rules on the role, liabilities and responsibility of bodies implementing financial instruments, related selection criteria and products that it is possible to deliver through financial instruments, supplementing the provisions of Regulation (EU) No 1303/2013 on the standard scales of unit costs or the flat-rate financing, the fair, equitable and verifiable calculation method on which they might be established, and by specifying detailed modalities concerning the financing based on the fulfilment of conditions related to the realisation of progress in implementation or the achievement of objectives of programmes rather than on costs and their application. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level, and that those consultations be conducted in accordance with the principles laid down in the Interinstitutional Agreement of 13 April 2016 on Better Law-Making. In particular, to ensure equal participation in the preparation of delegated acts, the European Parliament and the Council receive all documents at the same time as Member States' experts, and their experts systematically have access to meetings of Commission expert groups dealing with the preparation of delegated acts.~~

↓ 2018/1046 recital 209 (adapted)

~~In order to reduce the administrative burden, the use of flat rates which do not require a methodology to be established by Member States should be increased. Two additional flat rates should therefore be introduced: one for calculating direct staff costs and the other one for calculating the remaining eligible costs based on staff costs. In addition, further clarification should be provided on the methods to calculate staff costs.~~

↓ 2018/1046 recital 210 (adapted)

~~With a view to improving the effectiveness and impact of operations, implementation of operations which cover the whole territory of a Member State or operations covering different programme areas should be facilitated and possibilities for expenditure outside the Union for certain investments should be increased.~~

↓ 2018/1046 recital 211 (adapted)

~~In order to encourage Member States to make use of appraisals of major projects by independent experts, the declaration of expenditure relating to the major project to the Commission prior to the positive appraisal by the independent expert should be allowed once the Commission has been informed about the submission of the relevant information to the independent expert.~~

↓ 2018/1046 recital 212 (adapted)

~~In order to promote the use of joint action plans which will reduce administrative burden for beneficiaries, it is necessary to reduce regulatory requirements linked to the setting-up of a joint action plan while maintaining an appropriate focus on horizontal principles, including gender equality and sustainable development, which have generated important contributions to the effective implementation of the ESI Funds.~~

↓ 2018/1046 recital 213 (adapted)

~~In order to avoid unnecessary administrative burden for beneficiaries, the rules on information, communication and visibility should respect the principle of proportionality. Accordingly, it is important to clarify the scope of application of those rules.~~

~~With a view to reducing the administrative burden and ensuring the effective use of technical assistance across the ERDF, the ESF and the Cohesion Fund and across categories of regions, flexibility for the calculation and monitoring of the respective limits applicable to technical assistance of Member States should be increased.~~

↓ 2018/1046 recital 215 (adapted)

~~With a view to streamlining implementation structures, it should be clarified that the possibility for the managing authority, certifying authority and the audit authority to be part of the same public body is also available to programmes under the European territorial cooperation goal.~~

~~In order to ensure that beneficiaries can fully benefit from the simplification potential of e-governance solutions in the implementation of the ESI Funds and the Fund for European Aid to the Most Deprived (FEAD), especially with a view to facilitating full electronic document management, it is necessary to clarify that a paper trail is not necessary if certain conditions are met.~~

↓ 2018/1046 recital 218 (adapted)

~~In order to increase proportionality of controls and to ease the administrative burden resulting from overlapping controls, especially for small beneficiaries, without undermining the principle of sound financial management, the single audit principle for the ERDF, the ESF, the Cohesion Fund and the EMFF should prevail and the thresholds below which an operation is not to be subject to more than one audit should be doubled.~~

CEF blending facilities should be established by the multiannual and/or annual work programmes and adopted in accordance with Articles 17 and 25 of Regulation (EU) No 1316/2013. The Commission should ensure transparent and timely reporting to the European Parliament and to the Council on the implementation of any CEF blending facility.~~

↓ 2018/1046 recital 228 (adapted)

~~The objective of CEF blending facilities should be to facilitate and streamline one application for all forms of support, including Union grants from the CEF and private sector finance. Such blending facilities should aim to optimise the application process for project promoters by providing a single evaluation process, from the technical and financial points of view.~~

↓ 2018/1046 recital 229 (adapted)

~~CEF blending facilities should increase flexibility for submitting projects and simplify and streamline the process of project identification and financing. They should also increase the ownership and commitment of the financial institutions involved, thereby mitigating risks associated with the projects.~~

↓ 2018/1046 recital 230 (adapted)

~~CEF blending facilities should result in enhanced coordination, exchange of information and cooperation between Member States, the Commission, the EIB, national promotional banks and private investors with the aim of generating and supporting a healthy pipeline of projects pursuing CEF policy objectives.~~

↓ 2018/1046 recital 231 (adapted)

~~CEF blending facilities should aim to enhance the multiplier effect of Union spending by attracting additional resources from private investors, thus ensuring a maximum degree of private investor involvement. In addition, they should ensure that the actions supported become economically and financially viable and help to avoid a lack of investment leverage. They should contribute to the achievement of the Union objectives on meeting the targets set at the Paris Climate Conference (COP 21), job creation and cross-border connectivity. It is~~

~~important that, when the CEF and the EFSI are both used for financing actions, the Court of Auditors examine whether the financial management has been sound in accordance with Article 287 TFEU and with Article 24(2) of Regulation (EU) No 1316/2013.~~

Article 16

Rules applicable in the event of late adoption of the budget

1. If the budget has not been definitively adopted at the beginning of the financial year, the procedure set out in the first paragraph of Article 315 TFEU (the provisional twelfths regime) shall apply. Commitments and payments may be made within the limits laid down in paragraph 2 of this Article.

2. Commitments may be made per chapter up to a maximum of one quarter of the total appropriations authorised in the relevant chapter of the budget for the preceding financial year plus one twelfth for each month which has elapsed.

The limit of the appropriations provided for in the draft budget shall not be exceeded.

Payments may be made monthly per chapter up to a maximum of one twelfth of the appropriations authorised in the relevant chapter of the budget for the preceding financial year. That sum shall not, however, exceed one twelfth of the appropriations provided for in the same chapter of the draft budget.

3. The appropriations authorised in the relevant chapter of the budget for the preceding financial year, as referred to in paragraphs 1 and 2, shall be understood as referring to the appropriations voted in the budget, including by amending budgets, and after adjustment for the transfers made during that financial year.

4. If the continuity of Union action and management needs so require, the Council, acting by qualified majority on a proposal from the Commission, may authorise expenditure in excess of one provisional twelfth but not exceeding a total of four provisional twelfths, except in duly justified cases, both for commitments and for payments over and above those automatically made available in accordance with paragraphs 1 and 2. The Council shall without delay forward its decision on authorisation to the European Parliament.

The decision referred to in the first subparagraph shall enter into force 30 days after its adoption unless the European Parliament takes any of the following actions:

(a) acting by a majority of its component members, decides to reduce the expenditure before the expiry of the 30 days, in which case the Commission shall submit a new proposal;

(b) informs the Council and the Commission that it does not wish to reduce the expenditure, in which case the decision shall enter into force before the expiry of the 30 days.

The additional twelfths shall be authorised in full and shall not be divisible.

5. If, for a given chapter, the authorisation of four provisional twelfths granted in accordance with paragraph 4 is not sufficient to cover the expenditure necessary to avoid a break in continuity of Union action in the area covered by the chapter in question, authorisation may exceptionally be given to exceed the amount of the appropriations entered in the corresponding chapter of the budget for the preceding financial year. The European Parliament and the Council shall act in accordance with the procedures provided for in paragraph 4. However, the overall total of the appropriations available in the budget of the preceding financial year or in the draft budget, as proposed, shall in no circumstances be exceeded.

CHAPTER 3

2. The estimates of the revenue or payment appropriations referred to in paragraph 1 of this Article shall be entered in the budget during the budgetary procedure and in a letter of amendment submitted pursuant to Article 42 of this Regulation. The estimates shall be drawn up in accordance with Article 1 of Council Regulation (EU, Euratom) 2021/768[65] ~~No 608/2014~~[66].

3. After the presentation of the provisional accounts for each financial year, any discrepancy between those accounts and the estimates shall be entered in the budget for the following financial year through an amending budget devoted solely to that discrepancy. In such a case, the Commission shall submit the draft amending budget simultaneously to the European Parliament and to the Council within 15 days of submission of the provisional accounts.

2. Without prejudice to specific provisions laid down in sector-specific rules, or in specific contracts, grant agreements, contribution agreements and financing agreements, conversion by the authorising officer responsible shall be made using the daily euro exchange rate published in the C series of the *Official Journal of the European Union* of the day on which the payment order or recovery order is drawn up by the authorising department.

If no such daily rate is published, the authorising officer responsible shall use the one referred to in paragraph 3.

3. For the purposes of the accounts provided for in Articles 82, 83 and 84, conversion between the euro and another currency shall be made using the monthly accounting exchange rate of the euro. That accounting exchange rate shall be established by the accounting officer of the Commission by means of any source of information regarded as reliable, on the basis of the exchange rate on the penultimate working day of the month preceding that for which the rate is established.

4. Currency conversion operations shall be carried out in such a way as to avoid having a significant impact on the level of the Union co-financing or a detrimental impact on the budget. Where appropriate, the rate of conversion between the euro and other currencies may be calculated using the average of the daily exchange rate in a given period.

The limits referred to in Articles 29, 30 and 31 shall be calculated at the time the request for transfer is made and with reference to the appropriations provided in the budget, including amending budgets.

The amount to be taken into consideration for the purposes of calculating the limits referred to in Articles 29, 30 and 31 shall be the sum of the transfers to be made on the budget line from which transfers are being made, after adjustment for earlier transfers made. The amount corresponding to the transfers which are carried out autonomously by the Commission, or by any other Union institution concerned without a decision of the European Parliament and of the Council, shall not be taken into consideration.

Proposals for transfers and all information for the European Parliament and for the Council concerning transfers made under Articles 29, 30 and 31 shall be accompanied by appropriate and detailed supporting documents showing the most recent information available for the implementation of appropriations and estimates of requirements up to the end of the financial year, both for the budget lines to which the appropriations are to be transferred and for those from which they are to be taken.

Article 29

Transfers by Union institutions other than the Commission

1. Any Union institution other than the Commission may, within its own section of the budget, transfer appropriations:

(a) from one title to another up to a maximum of 10 % of the appropriations for the financial year shown on the budget line from which the transfer is made;

(b) from one chapter to another without limit.

2. Without prejudice to paragraph 4 of this Article, three weeks before making a transfer, as referred to in paragraph 1, the Union institution shall inform the European Parliament and the Council of its intention to do so. In the event that duly justified objections are raised

within that period by either the European Parliament or the Council, the procedure laid down in Article 31 shall apply.

3. Any Union institution other than the Commission may propose to the European Parliament and to the Council, within its own section of the budget, transfers from one title to another exceeding the limit referred to in point (a) of paragraph 1 of this Article. Those transfers shall be subject to the procedure laid down in Article 31.

4. Any Union institution other than the Commission may, within its own section of the budget, make transfers within articles without informing the European Parliament and the Council beforehand.

Article 30

Transfers by the Commission

1. The Commission may, within its own section of the budget, autonomously:

(a) transfer appropriations within each chapter;

(b) with regard to expenditure on staff and administration which is common to several titles, transfer appropriations from one title to another up to a maximum of 10 % of the appropriations for the financial year shown on the budget line from which the transfer is made, and up to a maximum of 30 % of the appropriations for the financial year shown on the budget line to which the transfer is made;

(c) with regard to operational expenditure, transfer appropriations between chapters within the same title up to a maximum of 10 % of the appropriations for the financial year shown on the budget line from which the transfer is made;

(d) with regard to research and technological development appropriations implemented by the JRC, within the title of the budget relating to the 'Direct research' policy area, transfer appropriations between chapters of up to a maximum of 15 % of the appropriations on the budget line from which the transfer is made;

(g) transfer appropriations from the budgetary item of a budgetary guarantee to the budgetary item of another budgetary guarantee, in the exceptional cases when the provisioned resources in the common provisioning fund of the latter are insufficient to pay a guarantee call and subject to the subsequent restoring of the amount transferred in accordance with the procedure set out in Article 216~~212~~(4).

The expenditure referred to in point (b) of the first subparagraph of this paragraph shall cover, for each policy area, the items referred to in Article 47(4).

Where the Commission transfers EAGF appropriations pursuant to the first subparagraph after 31 December, it shall take its decision by 31 January of the following financial year. The Commission shall inform the European Parliament and the Council within two weeks after its decision on those transfers.

Three weeks before making the transfers referred to in point (b) of the first subparagraph of this paragraph, the Commission shall inform the European Parliament and the Council of its intention to do so. In the event that duly justified objections are raised within that period by the European Parliament or by the Council, the procedure laid down in Article 31 shall apply.

By way of derogation from the fourth subparagraph, the Commission may, during the last two months of the financial year, autonomously transfer appropriations concerning expenditure on staff, external personnel and other agents from one title to another within the total limit of 5 % of the appropriations for that year. The Commission shall inform the European Parliament and the Council within two weeks after its decision on those transfers.

2. The Commission may, within its own section of the budget, decide on the following transfers of appropriations from one title to another, provided it immediately informs the European Parliament and the Council of its decision:

(a) transfer of appropriations from the 'provisions' title referred to in Article 49 of this Regulation, where the only condition for lifting the reserve is the adoption of a basic act pursuant to Article 294 TFEU;

(b) in duly justified exceptional cases such as international humanitarian disasters and crises occurring after 1 December of the financial year, transfer of unused appropriations for that year still available in the titles falling under the heading of the multiannual financial framework dedicated to Union external action to the titles concerning crisis management aid and humanitarian aid operations.

Transfer proposals submitted to the European Parliament and to the Council by Union institutions

1. Each Union institution shall submit its transfer proposals simultaneously to the European Parliament and to the Council.

2. The Commission may submit proposals for transfers of payment appropriations to the funds implemented under shared management with the exception of the EAGF to the European Parliament and to the Council by 10 January of the following financial year. The transfer of the payment appropriations may be made from any budgetary item. In such cases, the six-week period referred to in paragraph 4 shall be reduced to three weeks.

If the transfer is not approved or only partially approved by the European Parliament and by the Council, the corresponding part of the expenditure referred to in point (b) of Article 10(5) shall be charged to the payment appropriations of the following financial year.

3. The European Parliament and the Council shall take decisions on transfers of appropriations in accordance with paragraphs 4 to 8.

4. Except in urgent circumstances, the European Parliament and the Council, the latter acting by qualified majority, shall deliberate upon each transfer proposal within six weeks of its receipt by both institutions. In urgent circumstances, the European Parliament and the Council shall deliberate within three weeks of receipt of the proposal.

5. Where the Commission intends to transfer EAGF appropriations in accordance with this Article, it shall submit transfer proposals to the European Parliament and to the Council by 10 January of the following financial year. In such cases, the six-week period referred to in paragraph 4 shall be reduced to three weeks.

6. A transfer proposal shall be approved or considered to be approved, if, within the six-week period, any of the following occurs:

(a) the European Parliament and the Council approve it;

(b) either the European Parliament or the Council approves it and the other institution refrains from acting;

(c) neither the European Parliament nor the Council takes a decision to amend or refuse the transfer proposal.

7. Unless either the European Parliament or the Council requests otherwise, the six-week period referred to in paragraph 4 shall be reduced to three weeks in the following cases:

(b) the transfer concerns only payment appropriations and the overall amount of the transfer does not exceed EUR 100000000.

8. If either the European Parliament or the Council has amended the amount of the transfer while the other institution has approved it or refrains from acting, or if the European Parliament and the Council have both amended the amount of the transfer, the lesser of the two amounts shall be deemed approved, unless the Union institution concerned withdraws its transfer proposal.

Article 32

EEAS, they shall apply the EEAS internal rules for budget implementation and shall be subject to the same duties, obligations and accountability as any other authorising officer by subdelegation of the EEAS.

3. For the purposes of paragraph 1, a conflict of interests exists where the impartial and objective exercise of the functions of a financial actor or other person, as referred to in paragraph 1, is compromised for reasons involving family, emotional life, political or national affinity, economic interest or any other direct or indirect personal interest.

Article 63

Shared management with Member States

1. Where the Commission implements the budget under shared management, tasks relating to budget implementation shall be delegated to Member States. The Commission and Member States shall respect the principles of sound financial management, transparency and non-discrimination and shall ensure the visibility of the Union action when they manage Union funds. To that end, the Commission and Member States shall fulfil their respective control and audit obligations and assume the resulting responsibilities laid down in this Regulation. Complementary provisions shall be laid down in sector-specific rules.

2. When executing tasks relating to budget implementation, Member States shall take all the necessary measures, including legislative, regulatory and administrative measures, to protect the financial interests of the Union, namely by:

(a) ensuring that actions financed from the budget are implemented correctly and effectively and in accordance with the applicable sector-specific rules;

(b) designating bodies responsible for the management and control of Union funds in accordance with paragraph 3, and supervising such bodies;

In order to protect the financial interests of the Union, Member States shall, while respecting the principle of proportionality, and in compliance with this Article and the relevant sector-specific rules, carry out *ex ante* and *ex post* controls including, where appropriate, on-the-spot checks on representative and/or risk-based samples of transactions. They shall also recover funds unduly paid and bring legal proceedings where necessary in that regard.

Member States shall impose effective, dissuasive and proportionate penalties on recipients where provided for in sector-specific rules or in specific provisions in national law.

As part of its risk assessment and in accordance with sector-specific rules, the Commission shall monitor the management and control systems established in Member States. The Commission shall, in its audit work, respect the principle of proportionality and shall take into account the level of risk assessed in accordance with sector-specific rules.

3. In accordance with the criteria and procedures laid down in sector-specific rules, Member States shall, at the appropriate level, designate bodies to be responsible for the management and control of Union funds. Such bodies may also carry out tasks not related to the management of Union funds and may entrust certain of their tasks to other bodies.

When deciding on the designation of bodies, Member States may base their decision on whether the management and control systems are essentially the same as those already in place for the previous period and whether they have functioned effectively.

If audit and control results show that the designated bodies no longer comply with the criteria set out in sector-specific rules, Member States shall take the measures necessary to ensure that deficiencies in the implementation of the tasks of those bodies are remedied, including by ending the designation in accordance with sector-specific rules.

Sector-specific rules shall define the role of the Commission in the process set out in this paragraph.

6. The accounts referred to in point (a) of paragraph 5 shall include pre-financing and sums for which recovery procedures are ongoing or have been completed. They shall be accompanied by a management declaration confirming that, in the opinion of those in charge of the management of the funds:

(a) the information is properly presented, complete and accurate;

(b) the expenditure was used for its intended purpose, as defined in sector-specific rules;

(c) the control systems put in place ensure the legality and regularity of the underlying transactions.

7. The accounts referred to in point (a) of paragraph 5 and the summary referred to in point (b) of that paragraph shall be accompanied by an opinion of an independent audit body, drawn up in accordance with internationally accepted audit standards. That opinion shall establish whether the accounts give a true and fair view, whether expenditure for which reimbursement has been requested from the Commission is legal and regular, and whether the control systems put in place function properly. The opinion shall also state whether the audit work puts in doubt the assertions made in the management declaration referred to in paragraph 6.

The deadline of 15 February set out in paragraph 5 may exceptionally be extended by the Commission to 1 March, upon communication by the Member State concerned.

Member States may, at the appropriate level, publish the information referred to in paragraphs 5 and 6 and in this paragraph.

In addition, Member States may provide to the European Parliament, to the Council and to the Commission declarations signed at the appropriate level based on the information referred to in paragraphs 5 and 6 and in this paragraph.

The Commission shall end all or part of the interruption of payment deadlines or suspension of payments after a Member State has presented its observations and as soon as it has taken any necessary measures. The annual activity report referred to in Article 74(9) shall cover all the obligations under this paragraph.

9. Sector-specific rules shall take account of the needs of European Territorial Cooperation programmes as regards, in particular, the content of the management declaration, the process set out in paragraph 3 and the audit function.

10. The Commission shall compile a register of bodies responsible for management, certification and audit activities under sector-specific rules.

11. Member States may use resources allocated to them under shared management in combination with operations and instruments carried out under Regulation (EU) 2015/1017 in accordance with the conditions set out in the relevant sector-specific rules.

2. For the purposes of this Title, 'staff' means persons covered by the Staff Regulations.

3. Each Union institution shall, in compliance with the conditions in its rules of procedure, delegate the duties of authorising officer to staff at an appropriate level. 2. For the purposes of paragraph 1 of this Article, the authorising officer by delegation shall, in accordance with Article 36 and the minimum standards adopted by each Union institution and having due regard to the risks associated with the management environment and the nature of the actions financed, put in place the organisational structure and the internal control systems suited to the performance of his or her duties. If the member of staff does so in writing, the hierarchical superior shall reply in writing. If the hierarchical superior fails to take action or confirms the initial decision or instruction and the member of staff believes that such confirmation does not constitute a reasonable response to his or her concern, the member of staff shall inform the authorising officer by delegation in writing. If that officer does not reply within a reasonable time given the circumstances of the case and in any event within a month, the member of staff shall inform the relevant panel referred to in Article 146~~143~~.

9. The authorising officer by delegation shall report to his or her Union institution on the performance of his or her duties in the form of an annual activity report containing financial and management information, including the results of controls, declaring that, except as otherwise specified in any reservations related to defined areas of revenue and expenditure, he or she has reasonable assurance that:

(b) the resources assigned to the activities described in the report have been used for their intended purpose and in accordance with the principle of sound financial management; and

(c) the control procedures put in place give the necessary guarantees concerning the legality and regularity of the underlying transactions.

The annual activity report shall include information on the operations carried out, by reference to the objectives and performance considerations set in the strategic plans, the risks associated with those operations, the use made of the resources provided and the efficiency and effectiveness of internal control systems. The Commission shall prepare a summary of the annual activity reports for the preceding year.

The annual activity reports for the financial year of the authorising officers and, where applicable, authorising officers by delegation of Union institutions, Union bodies, European offices and agencies shall be published by 1 July of the following financial year on the website of the respective Union institution, Union body, European office or agency in an easily accessible way, subject to duly justified confidentiality and security considerations.

10. 3. Heads of Union delegations acting as authorising officers by subdelegation in accordance with Article 60(2) shall report to their authorising officer by delegation so that the latter can integrate their reports in his or her annual activity report referred to in Article 74(9). The reports of Heads of Union delegations shall include information on the efficiency and effectiveness of internal control systems put in place in their delegation, as well as on the management of operations subdelegated to them, and provide the assurance referred to in the third subparagraph of Article 92(5). Those reports shall be annexed to the annual activity report of the authorising officer by delegation, and shall be made available to the European Parliament and to the Council having due regard, where appropriate, to their confidentiality.

Heads of Union delegations shall fully cooperate with Union institutions involved in the discharge procedure and provide, as appropriate, any necessary additional information. Heads of Union delegations acting as authorising officers by subdelegation in accordance with Article 60(2) shall reply to any request by the authorising officer by delegation of the Commission at the Commission's own request or, in the context of discharge, at the request of the European Parliament.

The Commission shall ensure that the subdelegating of powers to Heads of Union delegations is not detrimental to the discharge procedure under Article 319 TFEU.

4. Paragraphs 1, 2 and 3 shall also apply to deputy Heads of Union delegations when they act as authorising officers by subdelegation in the absence of Heads of Union delegations.

(b) omits to draw up a document establishing an amount receivable, neglects to issue a recovery order or is late in issuing it or is late in issuing a payment order, thereby rendering the Union institution liable to civil action by third parties.

3. An authorising officer by delegation or sub-delegation who receives a binding instruction which he or she considers to be irregular or contrary to the principle of sound financial management, in particular because the instruction cannot be carried out with the resources allocated to him or her, shall inform the authority from which he or she received the delegation or subdelegation about that fact in writing. If the instruction is confirmed in writing and that confirmation is received in good time and is sufficiently clear, in that it refers explicitly to the points which the authorising officer by delegation or subdelegation has challenged, the authorising officer by delegation or subdelegation shall not be held liable. He or she shall carry out the instruction, unless it is manifestly illegal or constitutes a breach of the relevant safety standards.

The same procedure shall apply in cases where an authorising officer considers that a decision, which is his or her responsibility to take, is irregular or contrary to the principle of sound financial management or where an authorising officer learns, in the course of acting on a binding instruction, that the circumstances of the case could give rise to such a situation.

Any instructions confirmed in the circumstances referred to in this paragraph shall be recorded by the authorising officer by delegation responsible and mentioned in his or her annual activity report.

4. In the event of subdelegation within his or her service, the authorising officer by delegation shall continue to be responsible for the efficiency and effectiveness of the internal management and control systems put in place and for the choice of the authorising officer by subdelegation.

Before submitting a request or any additional information to the panel, the appointing authority or the authorising officer, as appropriate, shall give the member of staff involved the opportunity to submit its observations, after having notified to him or her the supporting documents referred to in the first subparagraph, insofar as that notification does not seriously undermine the pursuit of further investigations.

3. In the cases referred in paragraph 1 of this Article, the panel referred to in Article 146~~143~~ shall be competent to assess whether, on the basis of the elements submitted to it pursuant to paragraph 2 of this Article and any additional information received, a financial irregularity has occurred. On the basis of the opinion of the panel, the Union institution, Union body, European office or body or person concerned shall decide on the appropriate follow-up actions in accordance with the Staff Regulations. 6. Where the panel considers that the case is a matter for OLAF, it shall in accordance with paragraph 1 transmit the file to the relevant appointing authority without delay and inform OLAF immediately.

7. The Member States shall fully support the Union in the enforcement of any liability, under Article 22 of the Staff Regulations, of temporary staff to whom point (e) of Article 2 of the Conditions of Employment of Other Servants of the European Union applies.

2. Any amount receivable that is identified as being certain, of a fixed amount and due shall be established by a recovery order by which the authorising officer responsible instructs the accounting officer to recover the amount. It shall be followed by a debit note sent to the debtor, except for the cases where a waiver procedure is carried out immediately in accordance with the second subparagraph of paragraph 4. Both the recovery order and the debit note shall be drawn up by the authorising officer responsible.

(e) the accounting officer may in exceptional circumstances effect recovery by offsetting before the deadline referred to in point (b), where it is necessary to protect the financial interests of the Union when he or she has justified grounds to believe that the amount due to the Union would be lost, after the debtor has been informed of the reasons and date of the recovery by offsetting;

(f) if, after taking all the steps set out in points (a) to (e) of this subparagraph, the amount has not been recovered in full, the Union institution will effect recovery by enforcement of a decision secured either in accordance with Article 100(2) or by legal action.

Where following the verification of the particulars of the debtor or on the basis of other relevant information available at the time, it is clear that the debt falls under the cases referred to in point (a) or (b) of the first subparagraph of Article 101(2), or that the debit note has not been sent in accordance with paragraph 2 of this Article, the authorising officer shall, after having established the amount receivable, decide to directly waive recovery in accordance with Article 101 without sending a debit note, in agreement with the accounting officer.

Article 99

Default interest

1. Without prejudice to any specific provisions deriving from the application of specific regulations, any amount receivable not repaid on the deadline referred to in point (b) of the first subparagraph of Article 98(4) shall bear interest in accordance with paragraphs 2 and 3 of this Article.

2. Except in the case referred to in paragraph 4 of this Article, the interest rate for amounts receivable not repaid on the deadline referred to in point (b) of the first subparagraph of Article 98(4) shall be the rate applied by the European Central Bank to its principal

refinancing operations, as published in the C series of the *Official Journal of the European Union*, in force on the first calendar day of the month in which the deadline falls, increased by:

(a) eight percentage points where the obligating event is a supply contract or a service contract;

(b) three and a half percentage points in all other cases.

3. Interest shall be calculated from the calendar day following the deadline referred to in point (b) of the first subparagraph of Article 98(4) up to the calendar day on which the debt is repaid in full.

The recovery order corresponding to the amount of the default interest shall be issued when that interest is actually received.

4. In the case of fines, ~~or~~ other penalties ⇨ or sanctions ⇦ , the interest rate for amounts receivable not paid ⇨ or covered by a financial guarantee acceptable to the accounting officer of the Commission ⇦ within the deadline ~~referred to in point (b) of the first subparagraph of Article 98(4)~~ ⇨ set in the decision of the Union institution imposing a fine, other penalty or sanction ⇦ shall be the rate applied by the European Central Bank to its principal refinancing operations, as published in the C series of the *Official Journal of the European Union*, in force on the first calendar day of the month in which the decision imposing a fine, ~~or~~ other penalty ⇨ or sanction ⇦ has been adopted, increased by:

~~(a) one and a half percentage points where the debtor provides a financial guarantee which is accepted by the accounting officer instead of payment;~~

~~(b)~~ three and a half percentage points ~~in all other cases~~.

Where the Court of Justice of the European Union, in the exercise of its competence under Article 261 TFEU, increases the amount of a fine or other penalty, interest on the amount of the increase shall run from the date of the judgment of the Court.

5. In cases where the overall interest rate would be negative it shall be set at zero percent.

SECTION 4

AUTHORISATION OF RECOVERY

Article 100

Authorisation of recovery

1. The authorising officer responsible shall, by issuing a recovery order, instruct the accounting officer to recover an amount receivable which that authorising officer responsible has established (‘the authorisation of recovery’).

2. A Union institution may formally establish an amount as being receivable from persons other than Member States by means of a decision which shall be enforceable within the meaning of Article 299 TFEU.

If the efficient and timely protection of the financial interests of the Union so requires, other Union institutions may, in exceptional circumstances, request the Commission to adopt such an enforceable decision for their benefit with respect to claims arising in relation to staff or in relation to members or former members of a Union institution, provided that those institutions have agreed with the Commission on the practical modalities for the application of this Article.

Such exceptional circumstances shall be deemed to exist when there is no prospect of recovery of the debt by the Union institution concerned by means of a voluntary payment or by means of offsetting as provided for in Article 101(1) and the conditions for waiving the recovery under Article 101(2) and (3) are not met. In all cases, the enforceable decision shall specify that the amounts claimed shall be entered in the section of the budget relating to the Union institution concerned, which shall act as authorising officer. The revenue shall be entered as general revenue except if it constitutes assigned revenue as provided for in Article 21(3).

The requesting Union institution shall inform the Commission of any event likely to alter the recovery and shall intervene in support of the Commission in the event of an appeal against the enforceable decision.

SECTION 5

RECOVERY

Article 101

Rules on recovery

1. The accounting officer shall act on recovery orders for amounts receivable duly established by the authorising officer responsible. The accounting officer shall exercise due diligence to ensure that the Union receives its revenue and shall ensure that the Union's rights are safeguarded.

Partial reimbursement by a debtor who is subject to several recovery orders shall first be posted on the oldest entitlement unless otherwise specified by the debtor. Any partial payments shall first cover the interest.

The accounting officer shall recover amounts due to the budget by offsetting them in accordance with Article 102.

2. The authorising officer responsible may waive recovery of all or part of an established amount receivable only in the following cases:

(a) where the foreseeable cost of recovery would exceed the amount to be recovered and the waiver would not harm the image of the Union;

(b) where the amount receivable cannot be recovered in view of its age, of delay in the dispatch of the debit note in the terms defined in Article 98(2), of the insolvency of the debtor, or of any other insolvency proceedings;

(c) where recovery is inconsistent with the principle of proportionality.

Where the authorising officer responsible plans to waive or partially waive recovery of an established amount receivable, he or she shall ensure that the waiver is in order and is in accordance with the principles of sound financial management and proportionality. The decision to waive recovery shall be substantiated. The authorising officer may delegate the power to take that decision.

3. In the case referred to in point (c) of the first subparagraph of paragraph 2, the authorising officer responsible shall act in accordance with predetermined procedures established within his or her Union institution and shall apply the following criteria which are compulsory and applicable in all circumstances:

(a) the facts, having regard to the gravity of the irregularity giving rise to the establishment of the amount receivable (fraud, repeated offence, intent, diligence, good faith, manifest error);

(b) the impact that waiving recovery would have on the operation of the Union and its financial interests (amount involved, risk of setting a precedent, undermining of the authority of the law).

4. Depending on the circumstances of the case, the authorising officer responsible shall, where appropriate, take the following additional criteria into account:

(a) any distortion of competition that would be caused by the waiving of recovery;

(b) the economic and social damage that would be caused were the debt to be recovered in full.

5. Each Union institution shall send to the European Parliament and to the Council each year a report on the waivers granted by it pursuant to paragraphs 2, 3 and 4 of this Article. Information on waivers below EUR 60000 shall be provided as a total amount. In the case of the Commission, that report shall be annexed to the summary of the annual activity reports referred to in Article 74(9).

6. The authorising officer responsible may cancel an established amount receivable in full or in part. The partial cancellation of an established amount receivable does not imply the waiver of the remaining established Union entitlement.

In the event of a mistake, the authorising officer responsible shall cancel totally or partially the established amount receivable and include adequate reasons.

Each Union institution shall in its internal rules lay down the conditions and procedure for delegating the power to cancel an established amount receivable.

7. Member States shall have primary responsibility for carrying out controls and audits and for recovering amounts unduly spent, as provided for in sector-specific rules. To the extent that Member States detect and correct irregularities on their own account, they shall be exempt from financial corrections by the Commission concerning those irregularities.

8. The Commission shall make financial corrections on Member States in order to exclude expenditure incurred in breach of applicable law from Union financing. The Commission shall base its financial corrections on the identification of amounts unduly spent, and the financial implications for the budget. Where such amounts cannot be identified precisely, the Commission may apply extrapolated or flat-rate corrections in accordance with sector-specific rules.

The Commission shall, when deciding on the amount of a financial correction, take account of the nature and gravity of the breach of applicable law and the financial implications for the budget, including deficiencies in management and control systems.

The criteria for establishing financial corrections and the procedure to be followed may be laid down in sector-specific rules.

9. The methodology for applying extrapolated or flat-rate corrections shall be laid down in accordance with sector-specific rules with a view to enabling the Commission to protect the financial interests of the Union.

Article 102

Recovery by offsetting

1. Where the debtor has a claim on the Union, or on an executive agency when it implements the budget, that is certain within the meaning of point (a) of Article 98(3), of a fixed amount and due relating to a sum established by a payment order, the accounting officer shall, after expiry of the deadline referred to in point (b) of the first subparagraph of Article 98(4), recover established amounts receivable by offsetting.

In exceptional circumstances, where it is necessary to safeguard the financial interests of the Union and where the accounting officer has justified grounds to believe that the amount due to the Union would be lost, the accounting officer may recover by offsetting before the expiry of the deadline referred to in point (b) of the first subparagraph of Article 98(4).

The accounting officer may also recover by offsetting before the expiry of the deadline referred to in point (b) of first subparagraph of Article 98(4) when the debtor agrees.

2. Before proceeding with any recovery in accordance with paragraph 1 of this Article, the accounting officer shall consult the authorising officer responsible and inform the debtors concerned, including of the means of redress in accordance with Article 135~~133~~.

Where the debtor is a national authority or one of its administrative entities, the accounting officer shall also inform the Member State concerned of his or her intention to resort to recovery by offsetting at least 10 working days in advance of proceeding with it. However, in agreement with the Member State or administrative entity concerned, the accounting officer may proceed with the recovery by offsetting before that deadline has passed.

3. The offsetting referred to in paragraph 1 shall have the same effect as a payment and discharge the Union for the amount of the debt and, where appropriate, of the interest due.

⇩ new

4. The opening of insolvency proceedings shall not affect the right of the accounting officer to proceed with a recovery by means of offsetting as referred to in paragraph 1.

Article 103

Recovery procedure failing voluntary payment

1. Without prejudice to Article 102, if the full amount has not been recovered by the deadline referred to in point (b) of the first subparagraph of Article 98(4), the accounting officer shall inform the authorising officer responsible and shall without delay launch the procedure for effecting recovery by any means offered by the law, including, where appropriate, by enforcement of any guarantee lodged in advance.

2. Without prejudice to Article 102, where the recovery method referred to in paragraph 1 of this Article cannot be used and the debtor has failed to pay in response to a letter of formal notice sent by the accounting officer, the accounting officer shall effect recovery by enforcement of a decision secured either in accordance with Article 100(2) or by legal action.

Article 104

Assistance from Member States in the notification and recovery of Union claims

1. The accounting officer of the Commission may require the competent authorities of the Member States as defined by Article 4(1) of Directive 2010/24/EU to provide assistance for the notification and recovery of any financial claim of the Union, or of an executive agency when it implements the budget, or of claims pursuant to Article 100(2), the second subparagraph of this Regulation.

2. Such claims, including the interests related to them, shall include in particular:

(a) financial claims stemming from any public procurement contract, grant agreement or from grant decisions awarded by the Commission or an executive agency, or claims pursuant to Article 100(2), the second subparagraph;

(b) financial claims stemming from sanctions, administrative measures of recovery and fines or penalty payments imposed by the Union.

3. The requested Member State shall assist the accounting officer of the Commission by providing information on the identity, solvency and known domicile or registered address of the debtor, beneficial owners in case of legal persons, any assets of the debtor and any other relevant information. Upon request, it shall also notify any necessary documents to debtors, and proceed to seizures and recoveries of the claims and take the necessary precautionary measures.

4. A Member State shall not be obliged to grant assistance if the total amount of the claims for which the assistance is requested is below the threshold foreseen in Article 18(3) of Directive 2010/24/EU.

5. Member States may only proceed to the recovery or the adoption of precautionary measures concerning claims under paragraph 1 further to a Decision enforceable pursuant to Article 299 TFEU.

6. Upon request of the accounting officer of the Commission, and on the basis of a Decision enforceable pursuant to Article 299 TFEU, the requested Member State authority shall:

(a) take precautionary measures as soon as the Decision has been adopted, if allowed by its national law and in accordance with its administrative practices, to ensure recovery.

(b) enforce recovery of the claim, which shall be treated as if it was a claim of the requested Member State of the same nature.

The requested Member State authority shall recover the claim in its own currency. Conversions to euro shall be done in accordance with the provisions of Article 19 of this Regulation.

7. The requested Member State authority shall make use of the powers and procedures provided under its national laws, regulations or administrative provisions applying to claims of the same nature, including provisions allowing the debtor additional time to pay or authorising payment in instalments.

8. Matters of procedure shall be governed by the applicable law of the requested Member State. Any substantive matters that may arise shall be governed by the substantive Union law and, if applicable, national law applicable to the claim. Questions concerning periods of limitation including the suspension, interruption or prolongation of periods of limitation, shall be governed solely by the provisions of this Regulation.

9. The Commission and the Member States may conclude an agreement covering further arrangements on matters such as the payment by the Commission of fees and costs to the Member State, means of communications or the disclosure of information and the language to be used.

(a) the debtor undertakes to pay interest at the rate specified in Article 99 for the entire additional period allowed, starting from the deadline referred to in point (b) of the first subparagraph of Article 98(4);

(b) in order to safeguard the rights of the Union, the debtor lodges a financial guarantee covering the debt outstanding in both the principal sum and the interest, which is accepted by the accounting officer of the Union institution.

The guarantee referred to in point (b) of the first paragraph may be replaced by a joint and several guarantee by a third party approved by the accounting officer of the Union institution.

In exceptional circumstances, following a request by the debtor, the accounting officer may waive the requirement of a guarantee referred to in point (b) of the first paragraph when, on the basis of his or her assessment, the debtor is willing and able to make the payment in the additional time period but is not able to lodge such guarantee and is in a situation of financial distress.

The limitation period for entitlements of third parties in respect of the Union shall begin to run on the date on which the payment of the third party's entitlement is due according to the corresponding legal commitment.

3. The limitation period for entitlements of the Union in respect of third parties shall be interrupted by any act of a Union institution or a Member State acting at the request of a Union institution, notified to the third party and aiming at recovering the debt.

6. Where the accounting officer allows the debtor additional time for payment in accordance with Article 105~~104~~, this shall be considered as an interruption of the limitation period. A new limitation period of five years shall begin to run on the day following the expiry of the extended time for payment.

1. A budgetary commitment shall be preceded by a financing decision adopted by the Union institution or by the authority to which powers have been delegated by the Union institution. The financing decisions shall be annual or multiannual.

The first subparagraph of this paragraph shall not apply in the case of appropriations for the operations of each Union institution under its administrative autonomy that can be implemented without a basic act in accordance with point (e) of Article 58(2), of administrative support expenditure and of contributions to the Union bodies referred to in Articles 70 and 71.

The financing decision shall at the same time constitute the annual or multiannual work programme and shall be adopted, as appropriate, as soon as possible after the adoption of the draft budget and in principle no later than 31 March of the year of implementation. Where the relevant basic act provides for specific modalities for the adoption of a financing decision or a work programme or both, those modalities shall be applied to the part of the financing decision constituting the work programme, in compliance with the requirements of that basic act. The part which constitutes the work programme shall be published on the website of the Union institution concerned immediately after its adoption and prior to its implementation. At the end of the periods referred to in Article 115~~114~~, the unused balance of budgetary commitments shall be decommitted.

When executing operations, the authorising officer responsible shall ensure that the expenditure is in compliance with the Treaties, the budget, this Regulation, and other acts adopted pursuant to the Treaties as well as with the principle of sound financial management.

2. Budgetary commitments shall be made and legal commitments entered into by the same authorising officer, except in duly justified cases. In particular, in the field of crisis management aid and humanitarian aid operations, legal commitments may be entered into by Heads of Union delegations, or in their absence by their deputies, on the instruction of the authorising officer responsible of the Commission who remains fully responsible, however, for the underlying transaction. For that purpose, the authorising officer responsible shall:

(a) verify the existence of the creditor's entitlement;

(b) determine or verify the reality and the amount of the claim through the endorsement 'certified correct';

(c) verify the conditions according to which payment is due.

Notwithstanding the first subparagraph, the validation of expenditure shall also apply to interim or final reports not associated with a payment request in which case the impact on the accounting system is limited to the general accounts.

(c) for interim and balance payments in grants: that the action or work programme carried out by the beneficiary is in all respects in compliance with the grant agreement, including, where applicable that the costs declared by the beneficiary are eligible.

In the case referred to in point (c) of the second subparagraph, cost estimates shall not be deemed to comply with the eligibility conditions set out in Article 190~~186~~(3). The same principle shall also apply to interim and final reports not associated to a payment request.

5. In order to authorise the expenditure, the authorising officer responsible shall, after having verified that the appropriations are available, issue a payment order to instruct the accounting officer to pay the amount of expenditure which was previously validated.

Where periodic payments are made with regard to services rendered, including rental services, or goods delivered, the authorising officer may, subject to that officer's risk analysis, order the application of a direct debit system from an imprest account. The application of such a system may also be ordered if it is specifically authorised by the accounting officer in accordance with Article 86(3).

Article 113~~112~~

Types of budgetary commitments

(b) global: when at least one of the elements necessary to identify the individual commitment is still not known;

(c) provisional: to cover routine management expenditure for the EAGF as referred to in Article 11(2), and routine administrative expenditure where either the amount or the final payees are not definitively known.

Notwithstanding point (c) of the first subparagraph, routine administrative expenditure relating to Union delegations and Union representations may be covered by provisional budgetary commitments also when the amount and final payee are known.

2. Budgetary commitments for actions extending over more than one financial year may be broken down over several years into annual instalments only where the basic act so provides or where they relate to administrative expenditure.

3. A global budgetary commitment shall be made on the basis of a financing decision.

The global budgetary commitment shall be made at the latest before the decision on the recipients and amounts is taken and, where implementation of the appropriations concerned involves the adoption of a work programme, at the earliest after that programme has been adopted.

4. A global budgetary commitment shall be implemented ~~either~~ by the conclusion of a financing agreement~~,~~ ~~itself~~ providing for the subsequent entering into one or more legal commitments, ~~or~~ by entering into one or more legal commitments ⇨ , or by provisioning of financial liabilities referred to in Article 215 ⇦ .

Financing agreements in the field of direct financial assistance to third countries, including budget support, which constitute legal commitments may give rise to payments without entering into other legal commitments.

Where the global budgetary commitment is implemented by the conclusion of a financing agreement, the second subparagraph of paragraph 3 shall not apply.

5. Each individual legal commitment entered into following a global budgetary commitment shall, prior to signature, be registered by the authorising officer responsible in the central budgetary accounts and booked to the global budgetary commitment.

6. Provisional budgetary commitments shall be implemented by entering into one or more legal commitments giving rise to an entitlement to subsequent payments. However, in cases relating to expenditure on staff management, expenditure on members or former members of a Union institution or expenditure on communication engaged in by Union institutions for the coverage of Union events, or in the cases referred to in point 14.5 of Annex I, they may be implemented directly by payments without entering into prior legal commitments.

Regarding the exclusion situations referred to in points (c) to (f) of Article 139~~136~~(1), the financial penalty may be imposed as an alternative to a decision to exclude a recipient, where such an exclusion would be disproportionate on the basis of the criteria referred to in Article 139(4)~~136(3)~~.

Regarding the exclusion situations referred to in points (c), (d) and (e) of Article 139~~136~~(1), the financial penalty may be imposed in addition to an exclusion where this is necessary to protect the financial interests of the Union, due to the systemic and recurrent conduct engaged in by the recipient with the intention to unduly obtain Union funds.

Notwithstanding the first, second and third subparagraphs of this paragraph, a financial penalty shall not be imposed on a recipient who in accordance with Article 140~~137~~ has disclosed that it is in an exclusion situation.

2. The amount of the financial penalty shall not exceed 10 % of the total value of the legal commitment. 2. The limitation period for excluding and/or imposing financial penalties on a person or entity referred to Article 138~~135~~(2) shall be five years calculated from any of the following:

(b) the date of the final judgment of a national jurisdiction or of the final administrative decision in the cases referred to in points (b), (c), (d), (g) and (h) of Article 139~~136~~(1).

146~~143~~ of this Regulation or of any entity involved in budget implementation, if such an act is notified to the person or entity referred to in Article 138~~135~~(2) of this Regulation and is relating to investigations or judicial proceedings. Where the conduct of a person or entity referred to in Article 138~~135~~(2) of this Regulation concerned qualifies under several of the grounds listed in Article 139~~136~~(1) of this Regulation, the limitation period applicable to the most serious of those grounds shall apply.

Where a financial penalty has been imposed, the publication shall also indicate whether that penalty has been paid.

That decision shall take effect three months after its notification to the person or entity concerned, as referred to in Article 138~~135~~(2).

The information published shall be removed as soon as the exclusion has come to an end. In the case of a financial penalty, the publication shall be removed six months after payment of that penalty.

Where personal data are concerned, the authorising officer responsible shall in accordance with Regulation (EU) 2018/1725~~(EC) No 45/2001~~ inform the person or entity concerned, as referred to in Article 138~~135~~(2) of this Regulation, of their rights under the applicable data protection rules and of the procedures available for exercising those rights.

The early-detection and exclusion system

1. Information exchanged within the early-detection and exclusion system referred to in Article 138~~135~~ shall be centralised in a database set up by the Commission ('the database')

Information on cases of early detection, exclusion and/or financial penalties shall be entered in the database by the authorising officer responsible after notifying the person or entity concerned, as referred to in Article 138~~135~~(2). In carrying out that verification, the authorising officer responsible shall exercise his or her powers as set out in Article 74 and shall not go beyond what is foreseen in the terms and conditions of the award procedure and legal commitments.

The retention period for the information related to the early detection transmitted in accordance with paragraph 3 of this Article shall not exceed one year. If, during that period, the authorising officer responsible requests the panel to issue a recommendation in a case concerning exclusion or financial penalties, the retention period may be extended until such time as the authorising officer responsible has taken a decision.

(a) the modification introduces or supresses significant conditions which, had they been part of the initial procurement procedure, would have allowed for the admission of other tenderers than those initially selected or for the acceptance of a tender other than that originally accepted, or would have attracted additional participants in the procurement procedure, or would not have led to the selection of the winning tenderer;

(b) the modification significantly changes the economic balance of the contract or the framework contract in favour of the contractor in a manner which was not provided for in the initial contract or framework contract;

(c) the modification significantly extends the scope of the contract or framework contract.

Where the grant takes the form of financing not linked to costs pursuant to point (a) of the first subparagraph of Article 126~~125~~(1):

5. The JRC may receive funding charged to appropriations other than research and technological development appropriations in respect of its participation in grant award procedures financed in whole or in part from the budget. In such cases, Article 202~~198~~(4), as far as financial capacity is concerned, and points (a) to (d) of Article 200~~196~~(1) shall not apply.

Article 185~~181~~

Lump sums, unit costs and flat-rate financing

1. Where the grant takes the form of lump sums, unit costs or flat-rate financing as referred to in point (c), (d) or (e) of the first subparagraph of Article 126~~125~~(1), this Title shall apply, with the exception of the provisions or parts of the provisions related to the verification of eligible costs actually incurred.

2. Where possible and appropriate, lump sums, unit costs or flat rates shall be determined in such a way as to allow their payment upon achievement of concrete outputs and/or results.

3. Unless otherwise provided in the basic act, the use of lump sums, unit costs or flat-rate financing shall be authorised by a decision of the authorising officer responsible, who shall act in accordance with the internal rules of the Union institution concerned.

(b) identification of the costs or categories of costs covered by lump sums, unit costs or flat-rate financing, which shall be considered eligible in accordance with points (c), (e) and (f) of Article 190~~186~~(3) and Article 190~~186~~(4), and which shall exclude ineligible costs under the applicable Union rules;

(c) description of the methods for determining lump sums, unit costs or flat-rate financing. Those methods shall be based on one of the following:

(i) statistical data, similar objective means or an expert judgement provided by internally available experts or procured in accordance with the applicable rules; or

(ii) beneficiary-by-beneficiary approach, by reference to certified or auditable historical data of the beneficiary or to its usual cost accounting practices;

(d) where possible, the essential conditions triggering the payment, including, where applicable, the achievement of outputs and/or results;

(e) where lump sums, unit costs and flat rates are not output based and/or result based, a justification on why an output based and/or result based approach is not possible or appropriate.

The methods referred to in point (c) of the first subparagraph shall ensure:

(a) the respect for the principle of sound financial management, in particular the appropriateness of the respective amounts with regard to the required outputs and/or results taking into account foreseeable revenue to be generated by the actions or work programmes;

(b) reasonable compliance with the principles of co-financing and no double funding.

5. The authorisation decision shall apply for the duration of the programme or programmes unless otherwise provided in that decision.

The authorisation decision may cover the use of lump sums, unit costs or flat rates applicable to more than one specific funding programme where the nature of the activities or of the expenditure allow for a common approach. In such cases, the authorising decision may be adopted by the following:

(a) the authorising officers responsible where all activities concerned fall under their responsibility;

(b) the Commission where this is appropriate in view of the nature of the activities or of the expenditure or in view of the number of authorising officers concerned.

6. The authorising officer responsible may authorise or impose, in the form of flat-rates, funding of the beneficiary's indirect costs up to a maximum of 7 % of total eligible direct costs for the action. A higher flat rate may be authorised by a reasoned Commission decision. The authorising officer responsible shall report in the annual activity report referred to in Article 74(9) on any such decision taken, the flat rate authorised and the reasons leading to that decision.

7. SME owners and other natural persons who do not receive a salary may declare eligible personnel costs for the work carried out by themselves under an action or work programme, on the basis of unit costs authorised in accordance with paragraphs 1 to 6.

2. In accordance with Article 185~~181~~(4), single lump sums may be determined on the basis of the estimated budget of the action or work programme. Such estimated budget shall comply with the principles of economy, efficiency and effectiveness. The compliance with those principles shall be verified *ex ante* at the time of evaluation of the grant application.

3. When authorising single lump sums the authorising officer responsible shall comply with Article 185~~181~~.

Checks and controls on beneficiaries related to lump sums, unit costs and flat rates

1. The authorising officer responsible shall check, at the latest before the payment of the balance~~,~~:

In addition, the fulfilment of those conditions may be subject to *ex post* controls.

The amounts of lump sums, unit costs or flat-rate financing determined *ex ante* by application of the method authorised by the authorising officer responsible or the Commission in accordance with Article 185~~181~~ shall not be challenged by *ex post* controls. This is without prejudice to the right of the authorising officer responsible to check that the conditions triggering the payment as referred to in the first subparagraph of this paragraph are fulfilled, and to reduce the grant in accordance with Article 133~~131~~(4) where those conditions are not fulfilled or in the event of irregularity, fraud or a breach of other obligations. Where lump sums, unit costs or flat rates are established on the basis of the usual cost accounting practices of the beneficiary Article 189~~185~~(2) shall apply.

2. The frequency and scope of checks and controls may depend, inter alia, upon the nature of the action or the beneficiary, including past irregularities or fraud attributable to that beneficiary.

3. The conditions triggering the payment of lump sums, unit costs or flat-rates shall not require reporting on the costs actually incurred by the beneficiary.

4. Payment of the grant on the basis of lump sums, unit costs or flat-rate financing shall not affect the right of access to the statutory records of the beneficiaries for the purposes referred to in Articles 130~~129~~ and 188~~184~~.

The frequency and scope of assessments shall depend on the evolution and the nature of the costs, in particular taking into account substantial changes in market prices and other relevant circumstances.

Article 189~~185~~

Usual cost accounting practices of the beneficiary

1. Where recourse to the usual cost accounting practices of the beneficiary is authorised, the authorising officer responsible may assess compliance of those practices with the conditions set out in Article 185~~181~~(4). That assessment may be carried out *ex ante* or by using an appropriate strategy for *ex post* controls.

2. If the compliance of the beneficiary's usual cost accounting practices with the conditions set out in Article 185~~181~~(4) has been established *ex ante*, the amounts of lump sums, unit costs or flat-rate financing determined by application of those practices shall not be challenged by *ex post* controls. This shall not affect the right of the authorising officer responsible to reduce the grant in accordance with Article 133~~131~~(4).

3. The authorising officer responsible may consider that the usual cost accounting practices of the beneficiary comply with the conditions set out in Article 185~~181~~(4) if they are accepted by national authorities under comparable funding schemes.

Article 190~~186~~

Eligible costs

1. Grants shall not exceed an overall ceiling expressed in terms of an absolute value ('maximum grant amount') which shall be established on the basis of:

(b) estimated eligible costs, where possible, in the case referred to in point (b) of the first subparagraph of Article 126~~125~~(1);

(c) the overall amount of the estimated eligible costs clearly defined in advance in the form of lump sums, unit costs or flat rates as referred to in points (c), (d) and (e) of the first subparagraph of Article 126~~125~~(1).

Without prejudice to the basic act, grants may in addition be expressed as a percentage of the estimated eligible costs, where the grant takes the form specified in point (b) of the first subparagraph, or as a percentage of the lump sums, unit costs or flat rate financing referred to in point (c) of the first subparagraph.

Where the grant takes the form specified in point (b) of the first subparagraph of this paragraph and where, due to specificities of an action, the grant can only be expressed in

terms of an absolute value, the verification of the eligible costs shall be done in accordance with Article 159~~155~~(4) and, where applicable, Article 159(7)~~155(5)~~.

2. Without prejudice to the maximum co-financing rate specified in the basic act:

(a) the grant shall not exceed the eligible costs;

(b) where the grant takes the form specified in point (b) of the first subparagraph of paragraph 1 and where the estimated eligible costs include costs for volunteers' work referred to in Article 185~~181~~(8), the grant shall not exceed the estimated eligible costs other than the costs for volunteers' work.

3. Eligible costs actually incurred by the beneficiary, as referred to in point (b) of the first subparagraph of Article 126~~125~~(1), shall meet all of the following criteria:

(a) they are incurred during the duration of the action or of the work programme, with the exception of costs relating to final reports and audit certificates;

(b) they are indicated in the estimated overall budget of the action or work programme;

(c) they are necessary for the implementation of the action or of the work programme which is the subject of the grant;

(d) they are identifiable and verifiable, in particular being recorded in the accounting records of the beneficiary and determined according to the applicable accounting standards of the country where the beneficiary is established and according to the usual cost accounting practices of the beneficiary;

(e) they comply with the requirements of applicable tax and social legislation;

(f) they are reasonable, justified, and comply with the principle of sound financial management, in particular regarding economy and efficiency.

4. Calls for proposals shall specify the categories of costs considered as eligible for Union funding.

Unless provided otherwise in the basic act and in addition to paragraph 3 of this Article, the following categories of costs shall be eligible where the authorising officer responsible has declared them as such under the call for proposals:

(a) costs relating to a pre-financing guarantee lodged by the beneficiary, where that guarantee is required by the authorising officer responsible pursuant to Article 156~~152~~(1);

(b) costs relating to certificates on the financial statements and operational verification reports, where such certificates or reports are required by the authorising officer responsible;

(c) VAT, where it is not recoverable under the applicable national VAT legislation and is paid by a beneficiary other than a non-taxable person within the meaning of the first subparagraph of Article 13(1) of Council Directive 2006/112/EC[90];

(d) depreciation costs, provided they are actually incurred by the beneficiary;

[90] Council Directive 2006/112/EC of 28 November 2006 on the common system of value added tax (OJ L 347, 11.12.2006, p. 1).

(e) salary costs of the personnel of national administrations to the extent that they relate to the cost of activities which the relevant public authority would not carry out if the project concerned were not undertaken.

For the purposes of point (c) of the second subparagraph:

(a) VAT shall be considered as not recoverable if according to national law it is attributable to any of the following activities:

(i) exempt activities without right of deduction;

(ii) activities which fall outside the scope of VAT;

(iii) activities, as referred to in point (i) or (ii), in respect of which VAT is not deductible but refunded by means of specific refund schemes or compensation funds not referred to in Directive 2006/112/EC, even if that scheme or fund is established by national VAT legislation;

(b) VAT relating to the activities listed in Article 13(2) of Directive 2006/112/EC shall be regarded as paid by a beneficiary other than a non-taxable person within the meaning of the first subparagraph of Article 13(1) of that Directive, regardless of whether those activities are regarded by the Member State concerned as activities engaged in by bodies governed by public law acting as public authorities.

Article 191~~187~~

Affiliated entities and sole beneficiary

1. For the purpose of this Title, the following entities shall be considered as entities affiliated to the beneficiary:

(a) entities forming the sole beneficiary in accordance with paragraph 2;

(b) entities that satisfy the eligibility criteria and that do not fall within one of the situations referred to in Articles 139~~136~~(1) and 144~~141~~(1) and that have a link with the beneficiary, in particular a legal or capital link, which is neither limited to the action nor established for the sole purpose of its implementation.

Section 2 of Chapter 2 of Title V shall apply also to affiliated entities.

2. Where several entities satisfy the criteria for being awarded a grant and together form one entity, that entity may be treated as the sole beneficiary, including where the entity is specifically established for the purpose of implementing the action to be financed by the grant.

3. Unless otherwise provided in the call for proposals, entities affiliated to a beneficiary may participate in the implementation of the action, provided that both of the following conditions are fulfilled:

(a) the entities concerned are identified in the grant agreement;

(b) the entities concerned abide by the rules applicable to the beneficiary under the grant agreement with regard to:

(i) eligibility of costs or conditions triggering the payment;

(ii) rights of checks and audits by the Commission, OLAF and the Court of Auditors.

Costs incurred by such entities may be accepted as eligible costs actually incurred or may be covered by lump sums, unit costs and flat-rate financing.

CHAPTER 2

PRINCIPLES

Article 192~~188~~

General principles applicable to grants

Grants shall be subject to the principles of:

(a) equal treatment;

(b) transparency;

(c) co-financing;

(d) non-cumulative award and no double financing;

(e) non-retroactivity;

(f) no-profit.

Article 193~~189~~

Transparency

1. Grants shall be awarded following a publication of calls for proposals, except in the cases referred to in Article 199~~195~~.

2. All grants awarded in the course of a financial year shall be published in accordance with Article 38(1) to (4).

3. Following the publication referred to in paragraphs 1 and 2, when requested by the European Parliament and by the Council, the Commission shall forward a report to them on:

(a) the number of applicants in the preceding financial year;

(b) the number and percentage of successful applications per call for proposals;

(c) the average duration of the procedure from the date of closure of the call for proposals to the award of a grant;

(d) the number and amount of grants for which an *ex post* publication did not take place in the preceding financial year in accordance with Article 38(4).

(e) any grant awarded to financial institutions, including the EIB or the EIF in accordance with point (g) of the first paragraph of Article 199~~195~~.

Article 194~~190~~

Co-financing

1. Grants shall involve co-financing. As a result, the resources necessary to carry out the action or the work programme shall not be provided entirely by the grant.

Co-financing may be provided in the form of the beneficiary's own resources, income generated by the action or work programme or financial or in-kind contributions from third parties.

2. In-kind contributions from third parties in the form of volunteers' work valued in accordance with Article 185~~181~~(8) shall be presented as eligible costs in the estimated budget. They shall be presented separately from other eligible costs. Volunteers' work may comprise up to 50 % of the ⇨ overall ⇦ co-financing. For the purposes of calculating that percentage, in-kind contributions and other co-financing shall be based on the estimates provided by the applicant.

Other in-kind contributions from third parties shall be presented separately from the contributions to the eligible costs in the estimated budget. Their approximate value shall be indicated in the estimated budget and shall not be subject to subsequent changes.

3. By way of derogation from paragraph 1, an external action may be financed in full by the grant where this is essential for it to be carried out. In such a case, justification shall be provided in the award decision.

4. This Article shall not apply to interest rate rebates and guarantee fee subsidies.

Article 195~~191~~

Principle of non-cumulative award and prohibition of double funding

1. Each action may give rise to the award of only one grant from the budget to any one beneficiary, except where otherwise authorised in the relevant basic acts.

A beneficiary may be awarded only one operating grant from the budget per financial year.

An action may be financed jointly from separate budget lines by different authorising officers responsible.

2. The applicant shall immediately inform the authorising officers of any multiple applications and multiple grants relating to the same action or to the same work programme.

3. In no circumstances shall the same costs be financed twice by the budget.

4. In relation to the following types of support, paragraphs 1 and 2 shall not apply and, where appropriate, the Commission may decide not to verify whether the same cost was financed twice:

(a) study, research, training or education support paid to natural persons;

(b) direct support paid to natural persons most in need, such as unemployed persons and refugees.

Article 196~~192~~

No-profit principle

1. Grants shall not have the purpose or effect of producing a profit within the framework of the action or the work programme of the beneficiary ('no-profit principle').

2. For the purposes of paragraph 1, a profit shall be defined as a surplus, calculated at the payment of the balance, of receipts over the eligible costs of the action or work programme, where receipts are limited to the Union grant and the revenue generated by that action or work programme.

In the case of an operating grant, amounts dedicated to the building up of reserves shall not be taken into account for verifying compliance with the no-profit principle.

3. Paragraph 1 shall not apply to:

(a) actions the objective of which is the reinforcement of the financial capacity of a beneficiary, or actions which generate income to ensure their continuity after the period of Union financing provided for in the grant agreement;

(b) study, research, training or education support paid to natural persons or other direct support paid to natural persons most in need, such as unemployed persons and refugees;

(c) actions implemented by non-profit organisations;

(d) grants in the form referred to in point (a) of the first subparagraph of Article 126~~125~~(1);

(e) low value grants.

4. Where a profit is made, the Commission shall be entitled to recover the percentage of the profit corresponding to the Union contribution to the eligible costs ~~actually~~ incurred by the beneficiary in carrying out the action or work programme.

Article 197~~193~~

Principle of non-retroactivity

1. Unless otherwise provided in this Article grants shall not be awarded retroactively.

2. A grant may be awarded for an action which has already begun provided that the applicant can demonstrate the need for starting the action prior to signature of the grant agreement.

In such cases, costs incurred prior to the date of submission of the grant application shall not be eligible, except:

(a) in duly justified exceptional cases as provided for in the basic act; or

(b) in the event of extreme urgency for measures referred to in point (a) or (b) of the first paragraph of Article 199~~195~~ whereby an early intervention by the Union would be of major importance.

In the case referred to in point (b) of the second subparagraph, the costs incurred by a beneficiary before the date of submission of the application shall be eligible for Union financing under the following conditions:

(a) the reasons for such derogation have been properly substantiated by the authorising officer responsible;

(b) the grant agreement explicitly sets the eligibility date earlier than the date for submission of applications.

The authorising officer by delegation shall report on each of the cases referred to in this paragraph under the heading 'Derogations from the principle of non-retroactivity pursuant to Article 197~~193~~ of the Financial Regulation' in the annual activity report referred to in Article 74(9).

3. Grants shall not be awarded retroactively for actions already completed.

4. In the case of operating grants, the grant agreement shall be signed within four months of the start of the beneficiary's financial year. Costs incurred before the grant application was submitted or before the start of the beneficiary's financial year shall not be eligible for financing. The first instalment shall be paid to the beneficiary within 30 calendar days of the signature of the grant agreement.

CHAPTER 3

GRANT AWARD PROCEDURE AND GRANT AGREEMENT

Article 198~~194~~

Content and publication of calls for proposals

1. Calls for proposals shall specify:

(a) the objectives pursued;

(b) the eligibility, exclusion, selection and award criteria and the relevant supporting documents;

(c) the arrangements for Union financing, specifying all types of Union contributions, in particular the forms of grant;

(d) the arrangements and final date for the submission of proposals;

(e) the planned date by which all applicants are to be informed of the outcome of the evaluation of their application and the indicative date for the signature of grant agreements.

2. The dates referred to in point (e) of paragraph 1 shall be fixed on the basis of the following periods:

(a) for informing all applicants of the outcome of the evaluation of their application, a maximum of six months from the final date for submission of complete proposals;

(b) for signing grant agreements with applicants, a maximum of three months from the date of informing applicants that they have been successful.

Those periods may be adjusted in order to take into account any time needed to comply with specific procedures that may be required by the basic act in accordance with Regulation (EU) No 182/2011 and may be exceeded in exceptional, duly justified cases, in particular for complex actions, where there is a large number of proposals or delays attributable to the applicants.

The authorising officer by delegation shall report in his or her annual activity report on the average time taken to inform applicants and to sign grant agreements. In the event of the periods referred to in the first subparagraph being exceeded, the authorising officer by delegation shall give reasons and, where not duly justified in accordance with the second subparagraph, shall propose remedial action.

3. Calls for proposals shall be published on the website of Union institutions and by any other appropriate means, including the *Official Journal of the European Union*, where it is necessary to provide additional publicity among potential beneficiaries. Calls for proposals may be published subject to the adoption of the financing decision referred to in Article 111~~110~~, including during the year preceding budget implementation. Any modification of the content of the calls for proposals shall be published under the same conditions.

Article 199~~195~~

Exceptions to calls for proposals

Grants may be awarded without a call for proposals only in the following cases:

(a) for the purposes of humanitarian aid, emergency support operations, civil protection operations or crisis management aid;

(b) in other exceptional and duly substantiated emergencies;

(c) to bodies with a de jure or de facto monopoly or to bodies designated by Member States, under their responsibility, where those Member States are in a de jure or de facto monopoly situation;

(d) to bodies identified by a basic act, within the meaning of Article 58, as beneficiaries or to bodies designated by Member States, under their responsibility, where those Member States are identified by a basic act as beneficiaries;

(e) in the case of research and technological development, to bodies identified in the work programme referred to in Article 111~~110~~, where the basic act expressly provides for that possibility, and on condition that the project does not fall under the scope of a call for proposals;

(f) for activities with specific characteristics that require a particular type of body on account of its technical competence, its high degree of specialisation or its administrative powers, on condition that the activities concerned do not fall within the scope of a call for proposals;

(g) to the EIB or the EIF for actions of technical assistance. In such cases, points (a) to (d) of Article 200~~196~~(1) shall not apply.

Where the particular type of body referred to in point (f) of the first paragraph is a Member State, the grant may also be awarded without a call for proposals to the body designated by the Member State, under its responsibility, for the purpose of implementing the action.

The cases referred to in points (c) and (f) of the first paragraph shall be duly substantiated in the award decision.

Article 200~~196~~

Content of grant applications

1. The grant application shall contain the following:

(a) information on the legal status of the applicant ⇨ , including whether it is a non-governmental organisation ⇦ ;

(b) a declaration on the applicant's honour in accordance with Article 140~~137~~(1) and on compliance with the eligibility and selection criteria;

(c) information necessary to demonstrate the applicant's financial and operational capacity to carry out the proposed action or work programme and, if decided by the authorising officer responsible on the basis of a risk assessment, supporting documents confirming that information, such as the profit and loss account and the balance sheet for up to the three last financial years for which the accounts were closed;

Such information and supporting documents shall not be requested from applicants to which the verification of the financial or operational capacity does not apply in accordance with Article 202~~198~~(5) or (6). In addition, supporting documents shall not be requested for low value grants;

(d) where the application concerns a grant for an action for which the amount exceeds EUR 750000 or an operating grant which exceeds EUR 100000, an audit

report produced by an approved external auditor, where it is available, and always in cases where a statutory audit is required by Union or national law, certifying the accounts for up to the last three available financial years. In all other cases, the applicant shall provide a self-declaration signed by its authorised representative certifying the validity of its accounts for up to the last three available financial years;

The first subparagraph shall apply only to the first application made by a beneficiary to an authorising officer responsible in any one financial year.

In the case of agreements between the Commission and a number of beneficiaries, the thresholds set in the first subparagraph shall apply to each beneficiary.

In the case of partnerships referred to in Article 132~~130~~(4), the audit report referred to in the first subparagraph of this point, covering the last two financial years available, must be produced before signature of the financial framework partnership agreement.

The authorising officer responsible may, depending on a risk assessment, waive the obligation referred to in the first subparagraph for education and training establishments and, in the case of agreements with a number of beneficiaries, beneficiaries who have accepted joint and several liabilities or who do not bear any financial responsibility.

The first subparagraph shall not apply to persons and entities eligible under indirect management to the extent that they comply with the conditions specified in ~~point (c) of the first subparagraph of~~ Article 62(1), first subparagraph, point (b), and in Article 158~~154~~;

(e) a description of the action or work programme and an estimated budget, which:

(i) shall have revenue and expenditure in balance; and

(ii) shall indicate the estimated eligible costs of the action or work programme.

Points (i) and (ii) shall not apply to multi-donor actions.

By way of derogation from point (i), in duly justified cases, the estimated budget may include provisions for contingencies or possible variations in exchange rates;

(f) indication of the sources and amounts of Union funding received or applied for in respect of the same action or part of the action or for the functioning of the applicant during the same financial year as well as any other funding received or applied for the same action.

2. The application may be divided in several parts that may be submitted at different stages in accordance with Article 204~~200~~(2).

Article 201~~197~~

Eligibility criteria

1. The eligibility criteria shall determine the conditions for participating in a call for proposals.

2. Any of the following applicants shall be eligible for participating in a call for proposals:

(a) legal persons;

(b) natural persons, in so far as this is required by the nature or characteristics of the action or the objective pursued by the applicant;

(c) entities which do not have legal personality under the applicable national law, provided that their representatives have the capacity to undertake legal obligations on behalf of the entities and that the entities offer guarantees for the protection of the financial interests of the Union equivalent to those offered by legal persons. In particular the applicant shall have a financial and operational capacity equivalent to that of a legal person. The representatives of the applicant shall prove that those conditions are satisfied.

3. The call for proposals may lay down additional eligibility criteria which shall be established with due regard for the objectives of the action and shall comply with the principles of transparency and non-discrimination.

4. For the purposes of Article 184~~180~~(5) and of this Article, the JRC shall be considered as a legal person established in a Member State.

Article 202~~198~~

Selection criteria

1. The selection criteria shall be such as to make it possible to assess the applicant's ability to complete the proposed action or work programme.

2. The applicant shall have stable and sufficient sources of funding to maintain his or her activity throughout the period for which the grant is awarded and to participate in its funding ('financial capacity').

3. The applicant shall have the professional competencies and qualifications required to complete the proposed action or work programme unless specifically provided otherwise in the basic act ('operational capacity').

4. Financial and operational capacity shall be verified in particular on the basis of an analysis of any information or supporting documents referred to in Article 200~~196~~.

If no supporting documents were requested in the call for proposals and if the authorising officer responsible has reasonable grounds to question the financial or operational capacity of an applicant, he or she shall request the applicant to provide any appropriate documents.

In the case of partnerships the verification shall be performed in accordance with Article 132~~130~~(6).

5. The verification of financial capacity shall not apply to:

(a) natural persons in receipt of education support;

(b) natural persons most in need, such as unemployed persons and refugees, and in receipt of direct support;

(c) public bodies, including Member State organisations;

(d) international organisations;

(e) persons or entities applying for interest rate rebates and guarantee fee subsidies where the objective of those rebates and subsidies is to reinforce the financial capacity of a beneficiary or to generate an income.

6. The authorising officer responsible may, depending on a risk assessment, waive the obligation to verify the operational capacity of public bodies, Member State organisations or international organisations.

Article 203~~199~~

Award criteria

The award criteria shall be such as to make it possible to:

(a) assess the quality of the proposals submitted in the light of the objectives and priorities set and of the expected results;

(b) award grants to the actions or to the work programmes which maximise the overall effectiveness of the Union funding;

(c) evaluate the grant applications.

Article 204~~200~~

Evaluation procedure

1. Proposals shall be evaluated, on the basis of the pre-announced selection and award criteria, with a view to determining which proposals may be financed.

2. The authorising officer responsible shall, where appropriate, divide the process into several procedural stages. The rules governing the process shall be announced in the call for proposals.

The applicants whose proposals are rejected at any stage shall be informed in accordance with paragraph 7.

The same documents and information shall not be required more than once during the same procedure.

3. The evaluation committee referred to in Article 154~~150~~ or, where appropriate, the authorising officer responsible may ask an applicant to provide additional information or to clarify the supporting documents submitted in accordance with Article 155~~151~~. The authorising officer shall keep appropriate records of contacts with applicants during the procedure.

4. Upon completion of its work, the members of the evaluation committee shall sign a record of all the proposals examined, containing an assessment of their quality and identifying those which may receive funding.

Where necessary that record shall rank the proposals examined, provide recommendations on the maximum amount to award and possible non-substantial adjustments to the grant application.

The record shall be kept for future reference.

5. The authorising officer responsible may invite an applicant to adjust its proposal in the light of the recommendations of the evaluation committee. The authorising officer responsible shall keep appropriate records of contacts with applicants during the procedure.

6. The authorising officer responsible shall, on the basis of the evaluation, take his or her decision giving at least:

(a) the subject and the overall amount of the decision;

(b) the names of the successful applicants, the title of the actions, the amounts accepted and the reasons for that choice, including where it is inconsistent with the opinion of the evaluation committee;

(c) the names of any applicants rejected and the reasons for that rejection.

7. The authorising officer responsible shall inform applicants in writing of the decision on their application. If the grant requested is not awarded, the Union institution concerned shall give the reasons for the rejection of the application. Rejected applicants shall be informed as soon as possible of the outcome of the evaluation of their application and in any case within 15 calendar days after information has been sent to the successful applicants.

8. For grants awarded pursuant to Article 199~~195~~, the authorising officer responsible may:

(a) decide not to apply paragraphs 2 and 4 of this Article and Article 154~~150~~;

(b) merge the content of the evaluation report and the award decision into a single document and sign it.

Article 205~~201~~

Grant agreement

1. Grants shall be covered by a written agreement.

2. The grant agreement shall at least include the following:

(a) the subject;

(b) the beneficiary;

(c) the duration, namely:

(i) the date of its entry into force;

(ii) the starting date and the duration of the action or the financial year of the funding;

(d) a description of the action or, for an operating grant, of the work programme together with a description of the results expected;

(e) the maximum amount of Union funding expressed in euro, the estimated budget of the action or work programme and the form of the grant;

(f) the rules regarding reporting and payments and the procurement rules provided for in Article 209~~205~~;

(g) the acceptance by the beneficiary of the obligations referred to in Article 130~~129~~;

(h) provisions governing the visibility of the Union financial support, except in duly justified cases where public display is not possible or appropriate;

(i) the applicable law which shall be Union law, complemented, where necessary, by national law as specified in the grant agreement. Derogation may be made in the grant agreements concluded with international organisations;

(j) the competent court or arbitration tribunal to hear disputes.

3. Pecuniary obligations of entities or persons other than States arising from the implementation of a grant agreement shall be enforceable in accordance with Article 100(2).

4. Amendments to grant agreements shall not have the purpose or the effect of making such changes that would call into question the grant award decision or be contrary to the principle of equal treatment of applicants.

CHAPTER 4

IMPLEMENTATION OF GRANTS

Article 206~~202~~

Amount of the grant and extension of audit findings

1. The amount of the grant shall not become final until after the authorising officer responsible has approved the final reports and, where applicable, the accounts, without prejudice to subsequent audits, checks and investigations by the Union institution concerned, OLAF or the Court of Auditors. Article 133~~131~~(4) shall apply also after the amount of the grant has become final.

2. Where controls or audits demonstrate systemic or recurrent irregularities, fraud or a breach of obligations attributable to the beneficiary and having a material impact on a number of grants awarded to that beneficiary under similar conditions, the authorising officer responsible may suspend the implementation of the grant agreement or payments under all the grants concerned or, where appropriate, terminate the grant agreements concerned with that beneficiary, having regard to the seriousness of the findings.

The authorising officer responsible may, in addition, reduce the grants, reject ineligible costs and recover amounts unduly paid in respect of all the grants affected by the systemic or recurrent irregularities, fraud or breach of obligations referred to in the first subparagraph that may be subject to audits, checks and investigations in accordance with the grant agreements affected.

3. The authorising officer responsible shall determine the amounts to be reduced or recovered, wherever possible and practicable, on the basis of costs unduly declared as eligible for each grant concerned, following acceptance of the revised reports and financial statements submitted by the beneficiary.

4. Where it is not possible or practicable to quantify precisely the amount of ineligible costs for each grant concerned, the amounts to be reduced or recovered may be determined by extrapolating the reduction or recovery rate applied to the grants for which the systemic or recurrent irregularities, fraud or breach of obligations have been demonstrated, or, where ineligible costs cannot serve as a basis for determining the amounts to be reduced or recovered, by applying a flat rate, having regard to the principle of proportionality. The beneficiary shall be given the opportunity to propose a duly substantiated alternative method or rate before the reduction or recovery is made.

Article 207~~203~~

Supporting documents for payment requests

1. The authorising officer responsible shall specify the supporting documents required to accompany payment requests.

2. For each grant, pre-financing may be split into several instalments in accordance with sound financial management. The request for a further pre-financing instalment shall be accompanied by a beneficiary's statement on the consumption of previous pre-financing. The

instalment shall be paid in full if at least 70 % of the total amount of any earlier pre-financing has been consumed. Otherwise, the instalment shall be reduced by the amounts still to be consumed until that threshold is reached.

3. The beneficiary shall, without prejudice to the obligation to provide supporting documents, certify on its honour that information contained in payment requests is full, reliable and true. The beneficiary shall also certify that the costs incurred are eligible in accordance with the grant agreement and that payment requests are substantiated by adequate supporting documents that may be checked.

4. A certificate on the financial statements of the action or the work programme and underlying accounts may be demanded by the authorising officer responsible in support of interim payments or payments of balances of any amount. Such a certificate shall be requested on the basis of a risk assessment taking into account, in particular, the amount of the grant, the amount of the payment, the nature of the beneficiary and the nature of the supported activities.

The certificate shall be produced by an approved external auditor or, in the case of public bodies, by a competent and independent public officer.

The certificate shall certify, in accordance with a methodology approved by the authorising officer responsible and on the basis of agreed-upon procedures compliant with international standards, that the costs declared by the beneficiary in the financial statements on which the payment request is based are real, accurately recorded and eligible in accordance with the grant agreement. In specific and duly justified cases, the authorising officer responsible may request the certificate in the form of an opinion or other format in accordance with international standards.

5. An operational verification report, produced by an independent third party approved by the authorising officer responsible, may be requested by the authorising officer responsible in support of any payment, on the basis of a risk assessment. The operational verification report shall state that the operational verification was done in accordance with a methodology approved by the authorising officer responsible and whether the action or work programme was actually implemented in accordance with the conditions set out in the grant agreement.

Article 208~~204~~

Financial support to third parties

Where implementation of an action or a work programme requires the provision of financial support to third parties, the beneficiary may provide such financial support if the conditions for such provision are defined in the grant agreement between the beneficiary and the Commission, with no margin for discretion by the beneficiary.

No margin for discretion shall be considered to exist if the grant agreement specifies the following:

(a) the maximum amount of financial support that can be paid to a third party which shall not exceed EUR 60000 and the criteria for determining the exact amount;

(b) the different types of activities that may receive such financial support, on the basis of a fixed list;

(c) the definition of the persons or categories of persons which may receive such financial support and the criteria for providing it.

The threshold referred to in point (a) of the second paragraph may be exceeded ⇨ in the case of humanitarian aid, emergency support operations, civil protection operations or crisis management aid or ⇦ where achieving the objectives of the actions would otherwise be impossible or overly difficult.

Article 209~~205~~

Implementation contracts

1. Without prejudice to Directive 2014/24/EU and Directive 2014/25/EU of the European Parliament and of the Council[91], where the implementation of the action or work programme requires the award of a ~~public~~ contract, the beneficiary may award the ~~public~~ contract in accordance with its usual purchasing practices provided that the ~~public~~ contract is awarded to the tender offering best value for money or, as appropriate, to the tender offering the lowest price, while avoiding any conflict of interests.

2. Where implementation of the action or work programme requires the award of a ~~public~~ contract with a value of more than EUR 60000, the authorising officer responsible may, if duly justified, require the beneficiary to abide by special rules in addition to those referred to in paragraph 1.

Those special rules shall be based on rules contained in this Regulation and shall be proportionate to the value of the ~~public~~ ~~contracts~~ ⌦ contracts ⌫ concerned, the relative size of the Union contribution in relation to the total cost of the action and the risk. Such special rules shall be included in the grant agreement.

5~~4~~. Where financial instruments or budgetary guarantees are implemented under indirect management, the Commission shall conclude agreements with entities pursuant to points (c)(ii), (iii), (v) and (vi) of the first subparagraph of Article 62(1). Where the systems, rules and procedures of those entities have been assessed pursuant to Article 158 ⇨ (3) and ⇦ ~~154~~(4), they may fully rely on those systems, rules and procedures. Those entities may, when implementing financial instruments and budgetary guarantees under indirect management, conclude agreements with financial intermediaries which shall be selected in accordance with procedures equivalent to those applied by the Commission. Those entities shall transpose the requirements pursuant to Article 159~~155~~(2) in those agreements.

The Commission shall remain responsible for ensuring that the implementation framework for financial instruments ⇨ and budgetary guarantees ⇦ complies with the principle of sound financial management and supports the attainment of defined and time-bound policy objectives, measurable in terms of outputs and/or results. The Commission shall be accountable for the implementation of financial instruments ⇨ and budgetary guarantees ⇦

without prejudice to the entrusted entities' legal and contractual responsibility in accordance with the applicable law and Article 130~~129~~.

Article 213~~209~~

Principles and conditions applicable to financial instruments and budgetary guarantees

1. Financial instruments and budgetary guarantees shall be used in accordance with the principles of sound financial management, transparency, proportionality, non-discrimination, equal treatment and subsidiarity, and in accordance with their objectives.

2. Financial instruments and budgetary guarantees shall:

(a) address market failures or sub-optimal investment situations and provide support, in a proportionate manner, only to final recipients that are deemed economically viable according to internationally accepted standards at the time of the Union financial support;

(b) achieve additionality by preventing the replacement of potential support and investment from other public or private sources;

(c) not distort competition in the internal market and be consistent with State aid rules;

(d) achieve a leverage and a multiplier effect, with a target range of values based on an *ex ante* evaluation for the corresponding financial instrument or budgetary guarantee, by mobilising a global investment exceeding the size of the Union contribution or guarantee, including, where appropriate, the maximisation of private investment;

(e) be implemented in a way to ensure that there is a common interest of the implementing entities or counterparts involved in the implementation in achieving the policy objectives defined in the relevant basic act, with provisions on for example co-investment, risk sharing requirements or financial incentives, while preventing a conflict of interests with other activities of the entities or counterparts;

(f) provide for remuneration of the Union that is consistent with the sharing of risk among financial participants and the policy objectives of the financial instrument or budgetary guarantee;

(g) where remuneration of the implementing entities or the counterparts involved in the implementation is due, provide that such remuneration is performance-based and comprises:

(i) administrative fees to remunerate the entity or counterpart for the work carried out in the implementation of a financial instrument or budgetary

guarantee, which shall, to the extent possible, be based on the operations carried out or the amounts disbursed; and

(ii) where appropriate, policy related incentives to promote the achievement of the policy objectives or incentivise the financial performance of the financial instrument or budgetary guarantee.

Exceptional expenses may be reimbursed in duly justified cases;

(h) be based on *ex ante* evaluations, individually or as part of a programme, in line with Article 34, containing explanations concerning the choice of the type of financial operation taking into account the policy objectives pursued and the associated financial risks and savings for the budget.

The evaluations referred to in point (h) of the first subparagraph shall be reviewed and updated to take into account the effect of major socioeconomic changes on the rationale of the financial instrument or budgetary guarantee.

3. Without prejudice to sector-specific rules for shared management, revenue, including dividends, capital gains, guarantee fees and interest on loans and on amounts on fiduciary accounts paid back to the Commission or on fiduciary accounts opened for financial instruments or budgetary guarantees and attributable to the support from the budget under a financial instrument or a budgetary guarantee, shall be entered in the budget after deduction of management costs and fees.

Annual repayments, including capital repayments, guarantees released, and repayments of the principal of loans, paid back to the Commission or to fiduciary accounts opened for financial instruments or budgetary guarantees and attributable to the support from the budget under a financial instrument or a budgetary guarantee, shall constitute internal assigned revenue in accordance with point (f) of Article 21(3) and shall be used for the same financial instrument or budgetary guarantee, without prejudice to Article 219~~215~~(5), for a period not exceeding the period for the budgetary commitment plus two years, unless otherwise specified in a basic act.

The Commission shall take into account such internal assigned revenue when proposing the amount for future allocations for financial instruments or budgetary guarantees.

Notwithstanding the second subparagraph, the outstanding amount of assigned revenue authorised under a basic act that is to be repealed or terminates may also be assigned to another financial instrument pursuing similar objectives, where this is provided in the basic act establishing that financial instrument.

Article 214~~210~~

Financial liability of the Union

1. The financial liability and aggregate net payments from the budget shall not exceed at any time:

(a) for financial instruments: the amount of the relevant budgetary commitment made for it;

(b) for budgetary guarantees: the amount of the budgetary guarantee authorised by the basic act;

(c) for financial assistance: the maximum amount of funds that the Commission is empowered to borrow for funding the financial assistance as authorised by the basic act, and the relevant interest.

2. Budgetary guarantees and financial assistance may generate a contingent liability for the Union which shall only exceed the financial assets provided to cover the financial liability of the Union if provided for in a basic act establishing a budgetary guarantee or financial assistance and under the conditions set out therein.

3. For the purposes of the annual assessment provided for in Article ~~point (j) of Article 41(5)~~ ⇨ 253(1), point (g) ⇦ , the contingent liabilities arising from budgetary guarantees or financial assistance borne by the budget shall be deemed sustainable, if their forecast multiannual evolution is compatible with the limits set by the regulation laying down the multiannual financial framework provided for in Article 312(2) TFEU and the ceiling on annual payment appropriations set out in Article 3(1) of Decision (EU, Euratom) 2020/2053~~Decision 2014/335/EU, Euratom~~.

Article 215~~211~~

Provisioning of financial liabilities

1. For budgetary guarantees and financial assistance to third countries, a basic act shall set out a provisioning rate as a percentage of the amount of the financial liability authorised. That amount shall exclude the contributions referred to in Article 212~~208~~(2).

The basic act shall provide for the review of the provisioning rate at least every three years.

2. The setting of a provisioning rate shall be guided by a qualitative and quantitative assessment by the Commission of the financial risks arising from a budgetary guarantee or a

financial assistance to a third country in accordance with the principle of prudence, whereby assets and profits shall not be overestimated and liabilities and losses shall not be underestimated.

Unless otherwise specified in the basic act establishing the budgetary guarantee or financial assistance to a third country, the provisioning rate shall be based on the global provisioning needed in advance to cover the net expected losses and, in addition, an adequate safety buffer. Without prejudice to the powers of the European Parliament and of the Council, the global provisioning shall be constituted over the period of time foreseen in the relevant financial statement as referred to in Article 35.

3. For a financial instrument provision shall be made, where appropriate, to respond to future payments related to a budgetary commitment of that financial instrument.

4. The following resources shall contribute to the provisioning:

(a) contributions from the budget, while fully respecting the regulation laying down the multiannual financial framework and after examination of the possibilities for redeployments;

(b) returns on investments of the resources held in the common provisioning fund;

(c) amounts recovered from defaulting debtors in accordance with the recovery procedure laid down in the guarantee or the loan agreement;

(d) revenue and any other payments received by the Union in accordance with the guarantee or the loan agreement;

(e) where applicable, contributions in cash by Member States and third parties pursuant to Article 212~~208~~(2).

Only the resources referred to in points (a) to (d) of the first subparagraph of this paragraph shall be taken into account for calculating the provisioning resulting from the provisioning rate referred to in paragraph 1.

5. Provisions shall be used for the payment of:

(a) calls on the budgetary guarantee;

(b) payment obligations related to a budgetary commitment for a financial instrument;

(c) financial obligations arising from the borrowing of funds pursuant to Article 224~~220~~(1);

(d) where applicable, other expenses associated to the implementation of financial instruments, budgetary guarantees and financial assistance to third countries.

6. Where the provisions for a budgetary guarantee exceed the amount of provisioning resulting from the provisioning rate referred to in paragraph 1 of this Article, resources referred to in points (b), (c) and (d) of the first subparagraph of paragraph 4 of this Article related to that guarantee shall be used within the limits of the eligible period provided for in the basic act, however, not beyond the constitution phase of the provisioning, and without prejudice to Article 217~~213~~(4), to restore the budgetary guarantee up to its initial amount.

7. The Commission shall immediately inform the European Parliament and the Council and may propose adequate replenishment measures or an increase of the provisioning rate where:

(a) as a result of calls on a budgetary guarantee, the level of provisions for that budgetary guarantee falls below 50 % of the provisioning rate referred to in paragraph 1, and again where it falls below 30 % of that provisioning rate, or where it could fall below any of those percentages within a year according to a risk assessment by the Commission;

(b) a country benefitting from financial assistance by the Union fails to pay on a maturity.

Article 216~~212~~

Common provisioning fund

1. The provisions made to cover the financial liabilities arising from financial instruments, budgetary guarantees or financial assistance shall be held in a common provisioning fund.

By 30 June 2019, the Commission shall submit to the European Parliament and to the Council an independent external evaluation of the advantages and disadvantages of entrusting the financial management of the assets of the common provisioning fund to the Commission, to the EIB, or to a combination of the two, taking into account the relevant technical and institutional criteria used in comparing asset management services, including the technical infrastructure, a comparison of costs for the services provided, the institutional set-up, reporting, performance, accountability and expertise of the Commission and the EIB and the other asset management mandates for the budget. The evaluation shall, where appropriate, be accompanied by a legislative proposal.

2. Global profits or losses from the investment of the resources held in the common provisioning fund shall be allocated proportionately among the respective financial instruments, budgetary guarantees or financial assistance.

The financial manager of the resources of the common provisioning fund shall keep a minimum amount of resources of the fund in cash or cash equivalents in accordance with prudential rules and the forecasts for payments provided by the authorising officers of the financial instruments, budgetary guarantees or financial assistance.

The financial manager of the resources of the common provisioning fund may enter into repurchase agreements, with the resources of the common provisioning fund as collateral, to make payments out of the fund where this procedure is reasonably expected to be more beneficial for the budget than the divestment of resources within the timeframe of the payment request. The duration or roll-over period of repurchase agreements related to a payment shall be limited to the minimum necessary to minimise a loss for the budget.

3. Pursuant to point (d) of the first subparagraph of Article 77(1) and Article 86(1) and (2), the accounting officer shall set up the procedures to be applied to the revenue and expenditure operations and, in agreement with the financial manager of the resources of the common provisioning fund, to the assets and liabilities related to the common provisioning fund.

4. In the exceptional cases where the Commission has made a transfer as referred to in point (g) of the first subparagraph of Article 30(1), the Commission shall immediately inform the European Parliament and the Council thereof, and shall urgently propose the measures necessary to restore the budgetary item of the guarantee from which the transfer was made, while fully respecting the ceilings provided for in the regulation laying down the multiannual financial framework.

Article 217~~213~~

Effective provisioning rate

1. The provisioning of budgetary guarantees and financial assistance to third countries in the common provisioning fund shall be based on an effective provisioning rate. That rate shall provide a level of protection against the financial liabilities of the Union equivalent to the level that would be provided by the respective provisioning rates if the resources where held and managed separately.

2. The effective provisioning rate applicable shall be a percentage of each initial provisioning rate determined in accordance with the second subparagraph of Article 215~~211~~(2). It shall apply only to the amount of resources in the common provisioning fund foreseen for the payment of guarantee calls over a one year period. It shall provide for a ratio, in the form of a percentage, between the amount of cash and cash equivalents in the common provisioning fund required to honour guarantee calls and the total amount of cash and cash equivalents that would be required in each guarantee fund to honour guarantee calls, if the resources were held and managed separately, where both amounts represent an equivalent liquidity risk. That ratio shall not fall below 95 %. The calculation of the effective provisioning rate shall take into account:

(a) the forecast of inflows and outflows in the common provisioning fund, having regard to the initial phase of constitution of global provisioning in accordance with the second subparagraph of Article 215~~211~~(2);

(b) the risk correlation among the budgetary guarantees and the financial assistance to third countries;

(c) the market conditions.

The Commission shall by 1 July 2020 adopt delegated acts in accordance with Article 274~~269~~ to supplement this Regulation with detailed conditions for the calculation of the effective provisioning rate, including a methodology for that calculation.

The Commission is empowered to adopt delegated acts in accordance with Article 274~~269~~ to amend the minimum ratio referred to in the first subparagraph of this paragraph in the light of the experience gained with the operation of the common provisioning fund while maintaining a prudent approach in line with the principle of sound financial management. The minimum ratio shall not be set at a level lower than 85 %.

3. The effective provisioning rate shall be calculated annually by the financial manager of the resources of the common provisioning fund and shall be the reference for the Commission's calculation of the contributions from the budget pursuant to point (a) of Article 215~~211~~(4) and, subsequently, point (b) of paragraph 4 of this Article.

4. Following the calculation of the annual effective provisioning rate in accordance with paragraphs 1 and 2 of this Article, the following operations in the context of the budgetary procedure shall be made and presented in the working document referred to in point (h) of Article 41(5):

(a) any surplus of provisions for a budgetary guarantee or a financial assistance to a third country shall be returned to the budget;

(b) any replenishment of the fund shall be carried out in annual tranches during a maximum period of three years, without prejudice to Article 215~~211~~(6).

5. After having consulted the accounting officer, the Commission shall establish the guidelines applicable to the management of the resources in the common provisioning fund in

accordance with appropriate prudential rules and excluding derivative operations for speculative purposes. Those guidelines shall be attached to the agreement with the financial manager of the resources of the common provisioning fund.

An independent evaluation of the adequacy of the guidelines shall be carried out every three years and transmitted to the European Parliament and to the Council.

Article 218~~214~~

2. The report referred to in paragraph 1 shall present information about the financial management, the performance and the risk of the common provisioning fund at the end of the preceding calendar year as well as the financial flows in the common provisioning fund during the preceding calendar year, the significant transactions and any relevant information on the financial risk exposure of the Union.

TITLE XII

OTHER BUDGET IMPLEMENTATION INSTRUMENTS

Article 238~~234~~

Union trust funds for external actions

1. For emergency and post-emergency actions necessary to react to a crisis, or for thematic actions, the Commission may establish Union trust funds for external actions ('Union trust funds') under an agreement concluded with other donors.

Union trust funds shall only be established where agreements with other donors have secured contributions from other sources than the budget.

The Commission shall consult the European Parliament and the Council on its intention to establish a Union trust fund for emergency and post-emergency actions.

The establishment of a Union trust fund for thematic actions shall be subject to the approval of the European Parliament and of the Council.

For the purposes of the third and fourth subparagraphs of this paragraph, the Commission shall make available to the European Parliament and to the Council its draft decisions concerning the establishment of a Union trust fund. Such draft decisions shall include a description of the objectives of the Union trust fund, the justification for its establishment in accordance with paragraph 3, an indication of its duration and the preliminary agreements with other donors. The draft decisions shall also include a draft constitutive agreement to be concluded with other donors.

2. The Commission shall submit its draft decisions concerning the financing of a Union trust fund to the competent committee where provided for in the basic act under which the Union contribution to the Union trust fund is provided. The competent committee shall not be invited to pronounce itself on the aspects which have already been submitted to the European Parliament and to the Council for consultation or for approval under the third, fourth and fifth subparagraphs of paragraph 1 respectively.

3. Union trust funds shall only be established and implemented subject to the following conditions:

(a) there is added value of the Union intervention: the objectives of Union trust funds, in particular by reason of their scale or potential effects, may be better achieved at Union level than at national level and the use of the existing financing instruments would not be sufficient to achieve policy objectives of the Union;

(b) Union trust funds bring clear political visibility for the Union and managerial advantages as well as better control by the Union of risks and disbursements of the Union and other donors' contributions;

(c) Union trust funds do not duplicate other existing funding channels or similar instruments without providing any additionality;

(d) the objectives of Union trust funds are aligned with the objectives of the Union instrument or budgetary item from which they are funded.

4. A board chaired by the Commission shall be established for each Union trust fund to ensure a fair representation of the donors and to decide upon the use of the funds. The board shall include a representative of each non-contributing Member State as an observer. The rules for the composition of the board and its internal rules shall be laid down in the constitutive agreement of the Union trust fund. Those rules shall include the requirement that a vote in favour by the Commission is needed for the final adoption of the decision on the use of the funds.

5. Union trust funds shall be established for a limited duration as determined in their constitutive agreement. That duration may be extended by a decision of the Commission subject to the procedure set out in paragraph 1 upon request of the board of the Union trust fund concerned and upon presentation by the Commission of a report justifying the extension, confirming, in particular, that the conditions set out in paragraph 3 are complied with.

The European Parliament and/or the Council may request the Commission to discontinue appropriations for a Union trust fund or to revise the constitutive agreement with a view to the liquidation of a Union trust fund, where appropriate in particular on the basis of the information submitted in the working document referred to in Article 41(6). In such an event, any remaining funds shall be returned on a pro rata basis to the budget as general revenue and to the contributing Member States and other donors.

Article 239~~235~~

Implementation of Union trust funds for external actions

1. Union trust funds shall be implemented in accordance with the principles of sound financial management, transparency, proportionality, non-discrimination and equal treatment, and in accordance with the specific objectives defined in each constitutive agreement and in full respect of the rights of scrutiny and control of the Union contribution of the European Parliament and of the Council.

2. Actions financed under Union trust funds may be implemented directly by the Commission pursuant to point (a) of the first subparagraph of Article 62(1) and indirectly with the entities implementing Union funds pursuant to points (c)(i), (ii), (iii), (v), and (vi) of the first subparagraph of Article 62(1).

3. Funds shall be committed and paid by financial actors of the Commission, within the meaning of Chapter 4 of Title IV. The accounting officer of the Commission shall serve as the

accounting officer of the Union trust funds. He or she shall be responsible for laying down accounting procedures and chart of accounts common to all Union trust funds. The Commission's internal auditor, OLAF and the Court of Auditors shall exercise the same powers over Union trust funds as they do in respect of other actions carried out by the Commission.

4. The contributions of the Union and of other donors shall not be integrated in the budget and shall be lodged in a specific bank account. The specific bank account of the Union trust fund shall be opened and closed by the accounting officer. All transactions made on the specific bank account during the year shall be properly accounted for in the accounts of the Union trust fund.

Union contributions shall be transferred to the specific bank account on the basis of payment requests that are duly substantiated with disbursement forecasts, taking into account the balance available on the account and the resulting need for additional payments. Disbursement forecasts shall be provided on an annual, or where appropriate on a semi-annual, basis.

The contributions of other donors shall be taken into account when cashed in the specific bank account of the Union trust fund and for the amount in euro resulting from the conversion at their reception on the specific bank account. Interests accumulated on the specific bank account of the Union trust fund shall be invested in the Union trust fund except where otherwise provided in the constitutive agreement of the Union trust fund.

5. The Commission shall be authorised to use a maximum of 5 % of the amounts pooled into the Union trust fund to cover its management costs from the years in which the contributions referred to in paragraph 4 have started to be used. Notwithstanding the first sentence and in order to avoid the double charging of costs, management costs arising from the Union contribution to the Union trust fund shall only be covered by that contribution to the extent that those costs have not already been covered by other budget lines. For the duration of the Union trust fund, such management fees shall be assimilated to assigned revenue within the meaning of point (a)(ii) of Article 21(2).

In addition to the annual report referred to in Article 257~~252~~, financial reporting on the operations carried out by each Union trust fund shall be established twice every year by the authorising officer.

The Commission shall also report monthly on the state of implementation of each Union trust fund.

The Union trust funds shall be subject to an independent external audit every year.

Article 240

Union contributions to global initiatives

(1) The Union may make contributions in the form of financing not linked to costs to multi-donor, pooled funded global initiatives when these support the achievement of Union policy objectives and where budget implementation instruments provided for in other Titles of this Regulation would not be sufficient to achieve such Union policy objectives.

(2) Union contributions to global initiatives shall be subject to the following conditions, taking into account the nature of the Union financing:

(i) the Union contribution is a minority contribution to the initiative, taking into account the global amount contributed to the initiative at the time of the contribution;

(ii) the Union contribution is treated on equal footing with donors of a similar magnitude and, where one or several Member States also contribute to the initiative, the Union contribution benefits from a level of protection no less favourable than the contribution(s) of that or those Member States;

(iii) there is adequate reporting on the results achieved by the initiative, including through relevant indicators;

(iv) the initiative operates under rules ensuring sound financial management, transparency, non discrimination and equal treatment in the use of Union funds in accordance with the principle of proportionality;

(v) there are appropriate systems to prevent and combat irregularities and fraud as well as to report on their functioning at regular intervals, and there are appropriate rules for recoveries of funds by the initiative, including their use for the same initiative.

In the event of suspected cases of serious irregularities such as fraud, corruption or conflict of interests, the authorising officer responsible, the EPPO in respect of those Member States participating in enhanced cooperation pursuant to Regulation (EU) 2017/1939, OLAF and the Court of Auditors shall make use of the rules of the initiative to request additional information and carry out joint audit, control, or investigative missions with the relevant body under the initiative, in line with Article 129.

(3) A justification of the above conditions shall be included in the financing decision to contribute to the initiative.

(4) The procedure laid down in Article 158(6) shall apply mutatis mutandis to the Union contribution to the global initiative.
