**COMMUNICATION FROM THE COMMISSION TO THE EUROPEAN
PARLIAMENT AND THE COUNCIL**

**Technical adjustment of the multiannual financial framework for 2026 in accordance
with Article 4 of Council Regulation (EU, Euratom) 2020/2093 laying down the
multiannual financial framework for the years 2021 to 2027**

COMMUNICATION FROM THE COMMISSION TO THE EUROPEAN PARLIAMENT AND THE COUNCIL

Technical adjustment of the multiannual financial framework for 2026 in accordance with Article 4 of Council Regulation (EU, Euratom) 2020/2093 laying down the multiannual financial framework for the years 2021 to 2027

1. INTRODUCTION

The present communication provides the budgetary authority with the result of the technical adjustment ahead of the budgetary procedure for the year 2026 in accordance with Article 4 of Council Regulation (EU, Euratom) 2020/2093 laying down the multiannual financial framework for the years 2021 to 2027¹ (the ‘MFF Regulation’). In particular, the technical adjustment establishes the expenditure ceilings at current prices based on the fixed 2% deflator as provided for in Article 4(2) of the MFF Regulation.

On the basis of the latest economic forecasts², the communication also provides a calculation of the margin under the own resources ceiling set in application of the Council Decision on the system of own resources of the European Union in force at the time of the adoption of this communication.

The communication also presents the amounts available under the Single Margin Instrument under Article 11(1)(a) and 11(1)(c), the adjustment of the payment ceiling in accordance with Article 11(1)(b) and the programme specific adjustments as provided in Article 5 of the MFF Regulation. Following the adoption of Council Regulation (EU, Euratom) No 2024/765 of 29 February 2024³, it also includes the calculation of the amount available for the EURI Instrument for the year 2026 in accordance with Article 10a(3), point (a) of the MFF Regulation, as well as the calculation of the amounts to be made available in 2026 to the Flexibility Instrument under Article 12(1), second subparagraph from lapsed amounts of the Solidarity and Emergency Aid Reserve (European Solidarity Reserve and Emergency Aid Reserve).

In accordance with Article 4(1) of the MFF Regulation, the Commission makes the technical adjustment to the financial framework and communicates the results to the budgetary authority each year, ahead of the budgetary procedure for year n+1.

In accordance with Article 4(4) of the MFF Regulation, and without prejudice to Articles 6 and 7 of that Regulation, no further technical adjustments are made in respect of the year concerned, either during the year or as ex-post corrections during subsequent years.

2. TERMS OF THE ADJUSTMENT OF THE MULTIANNUAL FINANCIAL FRAMEWORK TABLE (ANNEX - TABLES 1-2)

Table 1 in the Annex shows the EU multiannual financial framework in 2018 prices of the MFF Regulation adjusted in accordance with Articles 2(1), 5(2) and 11 of that Regulation.

¹ as last amended by Council Regulation (EU, Euratom) No 2024/765 of 29 February 2024, [OJ L series, 2024/765, 29.2.2024, p.1.](#)

³ OJ L, 2024/765, 29.2.2024

Table 2 in the Annex shows the EU multiannual financial framework adjusted in current prices.

The financial framework expressed in percentage of the Union's gross national income (GNI) is updated with the latest economic forecasts. On that basis, the EU GNI for 2026 is established at EUR 19 258 599 million in current prices.

2.1. Main results of the technical adjustment of the Multiannual Financial Framework for 2026

The overall MFF ceiling for commitment appropriations for 2026 stands at EUR 182 866 million in current prices, which equals 0,95% of GNI. The overall MFF ceiling for payment appropriations corresponds to EUR 201 170 million in current prices, equivalent to 1,04% of GNI.

On 1 June 2021, Council Decision (EU, Euratom) 2020/2053 of 14 December 2020 on the system of own resources ('ORD 2020')⁴ entered into force. It applies retroactively as of 1 January 2021. The own resources ceiling for payment appropriations is set at 2,00% of the sum of all the Member States' GNIs. Out of this, 0,60 percentage points are a temporary increase for the sole purpose of covering all liabilities stemming from the European Union Recovery Instrument⁵.

The resulting margin for 2026 between the MFF ceiling for payment appropriations and the own resources ceiling for payment appropriations stands at EUR 184 002 million, or 0,96% of GNI⁶.

The table below provides information for the period 2021-2027 on the margin (in percentage of GNI) between the MFF ceiling for payment appropriations and the own resources ceiling for payment appropriations.

In % of EU GNI	2021	2022	2023	2024	2025⁷	2026	2027	2021-2027
MFF ceiling for payment appropriations	1,18%	1,12%	0,99%	0,81%	0,95%	1,04%	0,98%	1,01%
Margin beneath the 2,00% GNI own resources ceiling in application of Council Decision (EU, Euratom) 2020/2053	0,02%	0,88%	1,01%	1,19%	1,05%	0,96%	1,02%	0,99% ⁸

⁴ OJ L 424, 15.12.2020, p. 1.

⁵ Council Regulation (EU) 2020/2094 of 14 December 2020 establishing a European Union Recovery Instrument to support the recovery in the aftermath of the COVID-19 crisis, OJ L 433I, 22.12.2020, p. 23.

⁶ The specific margin under the temporary increase of the own resources ceiling corresponding to 0,60% of the sum of all the Member States' GNIs will depend on the expenditure authorised for 2026 in relation to liabilities under the European Union Recovery Instrument and the corresponding own resources to finance it.

⁷ In accordance with Article 4(4) of the MFF Regulation, the MFF ceiling for payment appropriations and the margins for the year 2021, 2022, 2023 and 2024 are not further adjusted following the technical adjustment for 2021 (communicated to the European Parliament and the Council on 18.12.2020 (COM(2020)848 final)), 2022 (communicated to the European Parliament and the Council on 07.06.2021 (COM(2021)365 final)), 2023 (communicated to the European Parliament and the Council on 07.06.2022 (COM(2022)266 final)), 2024 (communicated to the European Parliament and the Council on 29.02.2024 (COM(2024)110 final)) and 2025 (communicated to the European Parliament and the Council on 18.06.2024 (COM(2024)120 final)).

⁸ This percentage is calculated by subtracting the average of the annual MFF ceilings for payment appropriations for each year of the period 2021-2027 (namely 1,01% of the sum of all the Member States' GNIs) from the own resources ceiling for payment appropriations of 2,00% of the sum of all the Member States' GNIs, applicable throughout the whole period 2021-2027.

2.2. Adjustment of the sub-ceiling for Heading 3

The 2024 technical adjustment⁹ included all transfers between direct payments and rural development decided by Member States in their CAP Strategic plans. In accordance with Articles 17(5) and 103(5) of Regulation (EU) 2021/2115¹⁰, the transfer decisions already made can only be reviewed in 2025. There is therefore no change compared to the 2024 exercise.

The amounts in current prices in the Heading 3 sub-ceiling are converted into 2018 prices to adjust the multiannual financial framework table which is expressed in 2018 prices. For this purpose, the net balance of transfers is first converted into 2018 prices by using the 2% fixed annual deflator. This result is then rounded up to express the adjusted sub-ceiling in millions of euros. The rounding-up is necessary to ensure that the MFF sub-ceiling is always higher than the net balance available for expenditure in the annual budget for the European Agricultural Guarantee Fund (EAGF). The resulting small difference does not constitute an available margin, but is exclusively arising from the rounding operation. For each annual budget, the Commission will use the exact amounts of the net balance available for EAGF expenditure.

The table below shows the net result (in million euro) of the transfers between the two pillars of CAP and their impact for the Heading 3 sub-ceiling.

2.3. Programme specific adjustments in accordance with Article 5(2) of the MFF Regulation

In accordance with Articles 5(2) and 4(1)(e) of the MFF Regulation, this communication includes the calculation, for the year 2026, of the additional allocations for specific programmes referred to in Annex II to the MFF Regulation and the resulting upwards adjustments of the ceilings for commitment and payment appropriations.

For 2024, the revenue from fines (and related interest) imposed under Council Regulations (EC) No 1/2003¹¹ and (EC) No 139/2004¹² and recorded as budgetary revenue up to the end of the year amounts to EUR 3 213 million¹³ (EUR 2 742 million in 2018 prices). This amount is above the maximum threshold of EUR 2 000 million in 2018 prices. Therefore, the maximum threshold provides the total volume of the adjustment for 2026 in 2018 prices.

The adjustment in current prices amounts to EUR 2 344 million after applying the 2% annual deflator and rounding up to million euro in line with how the MFF ceilings are expressed. This amount corresponds to the upward adjustment of the overall ceiling in commitment appropriations and the ceiling in payment appropriations for the year 2026.

The breakdown of the adjustment by MFF heading and programme is based on the column 'Distribution key' of Annex II to the MFF Regulation, as modified by Regulation (EU, Euratom) No 2024/765 for the years 2025 to 2027. The adjustments of the individual ceilings in commitment appropriations are rounded up to the nearest million euro¹⁴.

¹² Council Regulation (EC) No 139/2004 of 20 January 2004 on the control of concentrations between undertakings (the EC Merger Regulation), [OJ L 24, 29.1.2004, p. 1](#).

¹³ Based on the 2024 provisional annual accounts (Articles 420 and 424) after deduction of the amount collected for the year n-1 referred to in Article 141(1) of the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community.

¹⁴ The amount for the heading with highest share is established as the difference between the total adjustment and the sum of the amounts for all other headings in order to avoid rounding discrepancies.

2.4. Adjustment of the payment ceiling in accordance with Article 4(1)(d) and Article 11(1)(b) – Single Margin Instrument.

In accordance with Article 4(1)(d) of the MFF Regulation, the technical adjustment shall include the amount of the adjustment of the ceiling for payment appropriations under the Single Margin Instrument (SMI) as referred to in point (b) of the first subparagraph of Article 11(1).

The 2024 payment ceiling was EUR 170 543 million in current prices. The payments executed in 2024 amount to EUR 147 027 million. To this amount the carry-overs from 2024 to 2025 must be added (EUR 2 955 million) as they are considered as executed.

The payments and carry-overs related with the special instruments (EUR 7 230 million) are excluded from the execution as they are treated as being over and above the MFF ceilings in accordance with Article 3(2) of the MFF Regulation. Therefore the execution taken into account for the calculation of the SMI is EUR 142 752 million.

The remaining margin under the 2024 payment ceiling is EUR 27 942 million in current prices.

The table below shows the details of the calculation of the SMI part 11(1)(b).

Single Margin Instrument part 11(1)(b) (payments)

(20)	<i>Lapsed carry-over from year n-1 to year n SEAR</i>	0,0
(21)	<i>Lapsed carry-over from year n-1 to year n for Brexit Adjustment Reserve</i>	0,0
(22) = (19) + (20)+(21)	Lapsed carry-over of special instruments	0,1
(23) = (5) + (13) - (18)	TOTAL EXECUTED PAYMENTS n + CARRY-OVER n TO n+1 - LAPSED CARRY OVER n-1	149 830,9

$(24) = (12) + (17) - (22)$	<i>Special instruments: total execution + carry-over - lapsed carry-over</i>	7 230,3
$(25) = (4) - (23) + (24)$	Remaining margin	27 942,4
$(26) = (25)$ rounded to millions	Single Margin Instrument part 11(1)(b) (current prices)	27 942,0
$(27) = (26)$ adjusted to 2018 prices using 2% deflator and rounded to millions	Single Margin Instrument part 11(1)(b) (2018 prices)	24 812,0

The amount of the SMI part 11(1)(b) in 2018 prices corresponds to EUR 24 812 million. Taking into account the provisions of Article 11(3), the payment ceiling in 2024 shall be decreased by this amount. The amount of the SMI part 11(1)(b) is transferred in two parts to the payment ceilings of the years 2026 (EUR 15 568 million) and 2027 (EUR 9 244 million). This results in an unchanged overall payment ceiling for the period 2021-2027 in 2018 prices.

The 2026 payment ceiling increase corresponds to: a) EUR 8.8 billion in 2018 prices (up to the 2026 cap as per article 11(3)), and b) EUR 6.8 billion in 2018 prices corresponding to the difference between the cap for 2025 as per Article 11(3) and the 2025 cap as previously used to adjust the 2025 payment ceiling. In accordance with Article 11(3a), the maximum amount for the annual adjustment for the year 2026 is to be adjusted by the amount equivalent to the unused portion of the maximum amount for year 2025. The final amount stemming from 2025 execution would be included in the technical adjustment ahead of the budgetary procedure for the year 2027, once the final execution of 2025 is known and only if necessary for financial needs in order to avoid the risk of backlogs.

In accordance with Article 4(2) of the MFF Regulation, the 2% deflator shall be used for the calculation of the SMI part 11(1)(b) and the corresponding adjustment of the payment ceiling. When converted in current prices, the 2024 ceiling is therefore reduced by EUR 27 942 million and the 2026 and 2027 ceilings - increased by EUR 18 240 million and EUR 11 048 million, respectively. As a result of the application of Article 11(1)(b), the overall payment ceiling in current prices for the period 2021-2027 corresponds to EUR 1 204 134 million.

The table below shows the details of the adjustment of the payment ceiling resulting from the implementation of the provisions of Article 11(1)(b).

3. SPECIAL INSTRUMENTS

Special instruments are available outside the expenditure ceilings of the 2021-2027 multiannual financial framework. These instruments aim to ensure rapid response to exceptional or unforeseen events, and to provide flexibility beyond the agreed expenditure ceilings within certain limits set in the MFF Regulation.

3.1. Thematic Special Instruments

3.1.1. European Globalisation Adjustment Fund

In accordance with Article 8 of the MFF Regulation, the European Globalisation Adjustment Fund for Displaced Workers (EGF)¹⁵ can be mobilised up to a maximum of EUR 30 million per year in 2018 prices, or EUR 34,5 million in current prices for 2025¹⁶. Unused amounts of the previous year cannot be carried over.

The table below shows the details of the annual availability of the EGF and, for information, the mobilisation at 31 December 2024.

3.1.2. Solidarity and Emergency Aid Reserve (European Solidarity Reserve and Emergency Aid Reserve)

In accordance with Article 9 of the MFF Regulation, the Solidarity and Emergency Aid Reserve (SEAR) is split as of 1 January 2024 into two separate instruments:

- The European Solidarity Reserve, which can be mobilised up to a maximum amount of EUR 1 016 million per year in 2018 prices, or EUR 1 190,4 million at current prices for 2026; and
- The Emergency Aid Reserve, which can be mobilised up to a maximum amount of EUR 508 million per year in 2018 prices, or EUR 595,2 million at current prices for 2026.

For both instruments, any portion of the unused amount of the previous year can be carried over to the following year. The portion of the annual amount stemming from the previous year shall be drawn on first. Any portion of the annual amount from year n which is not used in year n+1 shall be made available to the Flexibility Instrument in the following year.

The table below shows the details of the annual availability of the SEAR and its annual mobilisation for the years 2021 to 2024. The mobilisation at 31 December 2024 is shown for the purpose of the calculation of the Flexibility Instrument (cf. section

¹⁵ Regulation (EU) 2021/691 of the European Parliament and of the Council of 28 April 2021 on the European Globalisation Adjustment Fund for Displaced Workers (EGF) and repealing Regulation (EU) No 1309/2013, OJ L 153, 3.5.2021, p. 48.

¹⁶ In accordance with the MFF Regulation the conversion is based on the 2% fixed annual deflator. The result in current prices is expressed in millions and is rounded to three decimal digits. This is a horizontal approach applicable to all special instruments.

3.2.2). The SEAR has been mobilised in full in 2024 and therefore no amount has lapsed.

The table also shows the details of the annual availability of the European Solidarity Reserve and of the Emergency Aid Reserve for the years 2024-2027.

3.1.3. Brexit Adjustment Reserve

In accordance with Article 10 of the MFF Regulation, the Brexit Adjustment Reserve can be mobilised subject to and in accordance with the conditions set out in the relevant instrument for a total amount of maximum EUR 4 491,4 million in 2018 prices or EUR 4 886,2 million in current prices over the period 2021-2025.

The profile for the annual amounts for the Brexit Adjustment Reserve is set out in the relevant basic act¹⁷, for which a proposal for amendment was tabled on 29 February 2024¹⁸ to reflect the modification of the maximum amount in the MFF Regulation, as amended in the context of the mid-term revision. The table below shows the details of

¹⁷ Regulation (EU) 2021/1755 of the European Parliament and of the Council of 6 October 2021 establishing the Brexit Adjustment Reserve, OJ L 357, 8.10.2021, p. 1.

3.1.4. EURI Instrument

In accordance with Article 10a of the MFF Regulation, as of 2025, the EURI Instrument may be used to finance, for a given year, part of the costs of the interest and coupon payments due in respect of the funds borrowed on the capital markets in accordance with Article 5(2) of Council Decision (EU, Euratom) 2020/2053.

The EURI Instrument may be mobilised by the European Parliament and the Council in the framework of the budgetary procedure provided for in Article 314 TFEU in accordance with the conditions defined in Article 10a.

In accordance with Article 4(1)(f) of the MFF Regulation, this communication provides the calculation of the amount available for the budget year 2026 under the first compartment of the EURI Instrument under paragraph 3(a) of Article 10a²⁰.

Should a decision to mobilise the EURI Instrument be adopted in the framework of the annual budgetary procedure, this amount should be drawn on first.

(2) Basic acts in force which provide for specific rules on making appropriations available again. Future annual technical adjustments may include other basic acts which may include such provisions.

(*) Yearly mobilisation of the EURI Instrument is contingent on the cost overrun and the other financing sources identified.

(**) Commitments made available again in relation to decommitments made in 2024, as proposed in the Draft Budget 2026.

3.1.5. Ukraine Reserve

In accordance with Article 10b of the MFF Regulation, a new Ukraine Reserve is created for the period 2024 to 2027 with a maximum overall amount of EUR 17 000 million in current prices for that period.

The maximum annual amount mobilised under the Ukraine Reserve in a given year must not exceed EUR 5 000 million in current prices. The unused portion of the annual amount in a given year may be used in the following years, until 2027, in addition to the maximum annual amount for the relevant year, without prejudice to the overall amount of EUR 17 000 million in current prices.

2026 is the third year of the Ukraine Reserve: the maximum annual amount available is therefore EUR 5 000 million in current prices, without prejudice to the possible carry-over of the unused 2025 annual amount. The table below shows the details of the annual amounts mobilised in the budget for 2024 and 2025.

3.2. Non-thematic Special Instruments

3.2.1. Single Margin Instrument

3.2.1.1. Amount of commitment appropriations available under the Single Margin Instrument part 11(1)(a)

In accordance with Article 4(1)(c) of the MFF Regulation, the Commission shall calculate and communicate, as part of the annual technical adjustment of the MFF, the amount available in commitment appropriations under the Single Margin Instrument (SMI) as referred to in point (a) of the first subparagraph of Article 11(1). This amount is calculated for the first time in this communication.

Article 11(1)(a) of the MFF Regulation provides that margins left available below the MFF ceilings for commitment appropriations of year n-1 will be made available over and above the MFF ceilings for commitment appropriations for the years 2023 to 2027.

In the annual EU budget for 2024, the margin left available under the commitment ceiling amounts to EUR 392,4 million in current prices. The commitments on Special Instruments (including the mobilisation of the SMI parts 11(1)(a) and 11(1)(c)) are not taken into account as they are entered in the budget over and above the MFF ceilings in accordance with Article 2(2) of the MFF Regulation.

In accordance with Article 4(2) of the MFF Regulation, the 2% annual fixed deflator shall be used for the calculation of the technical adjustment. The amount of the remaining margin from 2024 which shall be made available for 2025 corresponds to EUR 392,4 million in current prices in 2024 or EUR 400,3 million in current prices in 2025. In case it is not used in 2025, the SMI available in 2026 will therefore be equal to EUR 408,3 million (in current prices in 2026).

The table below shows the details of the calculation of the SMI originating from 2024.

3.2.1.2. Total maximum amounts in commitments and payments that may be mobilised under the Single Margin Instrument parts 11(1)(a) and 11(1)(c).

The total maximum amount referred to in point (a) of the first subparagraph of Article 11(2) is 0,04% of the EU GNI, that is equivalent to EUR 7 703 million in 2026.

The total maximum amount referred to in point (b) of the first subparagraph of Article 11(2) is 0,03% of the EU GNI, that is equivalent to EUR 5 778 million in 2026.

3.2.2. Flexibility Instrument

In accordance with Article 12 of the MFF Regulation, the Flexibility Instrument may be mobilised as of 1 January 2026 up to a maximum annual amount of EUR 1 346 million in 2018 prices, or EUR 1 577,1 million in current prices for 2026. Any portion of the unused annual amounts of the previous two years may be carried over.

In addition, in accordance with Article 4(1)(g) referring to Article 12(1), second subparagraph, ‘each year the annual amount available for the Flexibility Instrument shall be increased by an amount equivalent to the portions of the annual amounts for the European Solidarity Reserve and the Emergency Aid Reserve which have lapsed in the previous year in accordance with Article 9’. The SEAR has been mobilised in full in 2024 and therefore no amount has lapsed.

The table below details the annual availabilities of the Flexibility Instrument and, for information, the mobilisation commitment appropriations up to budget 2025 as adopted on 27 February 2025²¹.
